OPERATING ASSISTANCE

For state financial assistance, net of disallowances, for operating expenses of community colleges to be expended pursuant to regulations developed jointly by the state university trustees and the city university trustees and approved by the director of the budget, and shall include funds available on a matching basis to implement programs for the provision of education and training services to individuals eligible under the federal personal responsibility and work opportunity reconciliation act of 1996.
Notwithstanding any other provision of law, rule or regulation, aid payable from this appropriation to community colleges shall be distributed to the colleges according to guidelines established by the city university trustees.
Provided, however, notwithstanding any other provision of law, rule, or regulation to the contrary, $2,000,000 of this appropriation shall be available for payment of the next generation NY job linkage program incentive fund awards distributed to community colleges on a pro-rata basis in accordance with a methodology and in a form and manner developed by the director of the budget, in consultation with the state university and city university, based on measures of student success for all students enrolled in programs that confer a credit-bearing certificate, an

associate of occupational studies degree, or an associate of applied science degree, including but not limited to:

(1) The number of students who are employed following degree or certificate completion and their wage gains, if any, as determined by the department of labor, which shall be given the greatest weighting of all measures of student success;

(2) The number of on-time degree completions, on-time certificate completions and student transfers to other institutions of higher education;

(3) The number of degree and certificate completions that do not meet the on-time requirement of the preceding item (2), which shall receive less weight than the preceding item (2);

(4) The number of degree and certificate completions under the preceding items (2) and (3) by a student considered academically at-risk due to economic disadvantage or other factor of underrepresentation within the field of study; and

(5) The number of students who make adequate progress towards completion of a degree or certificate, which may include accelerated completion of a developmental education program.

Provided further, however, on or before December 1, 2013, or an alternative date as determined by the director of the budget in consultation with the city university, the city university trustees shall submit a plan for approval by the director of the budget to allocate amounts available for payment of the next generation NY job linkage program incentive fund awards pursuant to this appropriation.

Provided further, however, notwithstanding any other law, rule, or regulation to the contrary, full funding for aidable community college enrollment for the college fiscal year 2013-14 and heretofore as provided under this appropriation is determined by the operating aid formulas defined in rules and regulations developed jointly by the boards of trustees of the state and city universities and approved by the director of the budget provided that the local sponsor may use funds contained in reserves for excess student

revenue for operating support of a community college program even though said expenditures may cause expenses and student revenues to exceed one-third of the college's net operating budget for the college fiscal year 2013-14 provided that such funds do not cause the college's revenue from the local sponsor's contribution in aggregate to be less than the comparable amounts for the previous community college fiscal year and further provided that pursuant to standards and regulations of the state university trustees and the city university trustees for the college fiscal year 2013-14, community colleges may increase tuition and fees above that allowable under current education law if such standards and regulations require that in order to exceed the tuition limit otherwise set forth in the education law, local sponsor contributions either in the aggregate or for each full-time equivalent student shall be no less than the comparable amounts for the previous community college fiscal year.

Provided further, however, notwithstanding any other law, rule, or regulation to the contrary, funds appropriated herein for aidable community college enrollment attributable to programs that confer a credit-bearing certificate, an associate of occupational studies degree, or an associate of applied science degree, for the college fiscal year 2013-14 shall be limited to enrollment in a program that meets the following conditions:

(1) The program is a partnership between the community college and one or more employers to train and employ students in a specific occupation; or

(2) The program (a) prepares students for an occupation that meets current or emerging regional workforce needs based on a list provided by the department of labor based on available labor market data or identified as such by the applicable regional economic development council, and (b) has an advisory committee made up of members of whom the majority are employers in the occupation or sector, or a related sector, that employ or commit to employ workers in the region where the community college is

located, and such committee serves to advise the community college on the program's curriculum, recruitment, placement and evaluation so that it remains up-to-date with employer needs.

Provided further, however, enrollment in programs that fail to meet either of the requirements of the foregoing conditions (1) or (2) shall count in the determination of aidable college enrollment in the 2013-14 community college fiscal year only to the extent a student was enrolled in the same program and was counted in the determination of aidable college enrollment during, or prior to, the 2012-13 community college fiscal year.

Provided further, however, on or before November 1, 2013, the city university trustees shall submit a report to the director of the budget which includes an accounting of aidable college enrollment for purposes of determining amounts payable pursuant to this appropriation for programs that confer a credit-bearing certificate, an associate of occupational studies degree, or an associate of applied science degree, in such a form and manner as the director of the budget may require to verify compliance with conditions (1) or (2) of the foregoing and approve or deny payment for such programs thereof and provided further that, prior to submitting such report, the chancellor shall assist the director of the budget in an evaluation of whether there are additional workforce and vocational programs that shall be considered, in future years, for the purposes of the immediately preceding calculation and the calculation for the next generation NY job linkage program incentive fund 191,280,400

Notwithstanding any inconsistent provision of law, for general support for public schools, for the 2013-14 and 2014-15 state fiscal years provided, however, that not more than 40.89167756 percent of this appropriation shall be available for payments for the 2013-14 state fiscal year for general support for public schools for the 2013-14 school year, nor more that 17.45619473 percent of this appropriation shall be available for remaining payments for the 2013-14 school year payable in the 2014-15 state fiscal year and provided further that notwithstanding any inconsistent provision of law, the remaining amounts available for the 2014-15 school year shall be apportioned to school districts pursuant to the education law and subject to the limitations of this appropriation including the gap elimination adjustment as provided for herein.

Provided that, notwithstanding any inconsistent provision of law, the commissioner shall reduce payments due to each school district for the 2013-14 school year pursuant to section 3609-a of the education law by an amount equal to the gap elimination adjustment for the 2013-14 school year computed for such school district, and such amount shall be deducted from moneys apportioned for the purposes of payments made pursuant to such section 3609-a and if the reduction is greater than the sum of the amounts available for such deductions, the remainder of the reduction shall be withheld from payments scheduled to be made to the school district pursuant to section 3609-a for the 2014-15 school year in the 2014-15 state fiscal year, and the commissioner shall also reduce payments due to each school district for the 2014-15 school year pursuant to section 3609-a of the education law by an amount equal to the gap elimination adjustment for the 2014-15 school year computed for such school district, and such amount shall be deducted from moneys apportioned for the purposes of payments made pursuant to such section 3609-a in the 2014-15 state fiscal year, and provided further that an amount equal to the amount of such deduction

from payments from funds appropriated herein scheduled to be made to the school district pursuant to section 3609-a of the education law for the subsequent school year.

Provided further that, notwithstanding any inconsistent provision of law, each school district shall be eligible to receive a high tax aid apportionment in the 2013-14 school year based on an electronic data file used to produce the school aid computer listing produced by the commissioner of education in support of the executive budget request submitted for the 2013-14 state fiscal year and entitled "BT131-4", which shall equal the greater of (i) the sum of the tier 1 high tax aid apportionment and the tier 2 high tax aid apportionment or (ii) the product of the amount set forth for such school district as "HIGH TAX AID" under the heading "2012-13 ESTIMATED AIDS" in the school aid computer listing produced by the commissioner in support of the budget for the 2012-13 school year and entitled "SA121-3" multiplied by the due-minimum factor, which shall equal, for districts with an alternate pupil wealth ratio computed pursuant to paragraph b of subdivision 3 of section 3602 of the education law that is less than one, fifty percent (0.50), and for all other districts, thirty percent (.30).

Provided further that for any tier 2 eligible school district, the tier 2 high tax aid apportionment shall be the product of (i) the public school district enrollment of the district in the base year, as computed pursuant to subparagraph 2 of

Local Assistance Account

Notwithstanding any inconsistent provision of law, the amount appropriated herein,

shall be available under a foster care block grant for state reimbursement of eligible social services district expenditures for the provision and administration of foster care services including care, maintenance, supervision, and tuition; for supervision of foster children placed in federally funded job corps programs; for care, maintenance, supervision, and tuition for adjudicated juvenile delinquents and persons in need of supervision placed in residential programs operated by authorized agencies and in out-of-state residential programs; and for the provision and administration of the kinship guardian assistance program including kinship guardianship assistance payments and payments for non-recurring guardianship expenses.

Notwithstanding any other provision of law, a portion of the funds are available to reimburse social services districts for the change in the maximum state aid rates established by the office of children and family services for the 2013-14 rate year pursuant to section 398-a of the social services law and sections 4003 and 4405 of the education law to reflect the continuation of the cost of living adjustments that became effective April 1, 2008 for payments made to foster parents and for salary and fringe benefit costs and other critical nonpersonal services costs for foster care programs as determined by the office. Social services districts must adjust the amount of payments made for care provided by congregate care and foster boarding home programs and to foster parents to reflect the cost of living adjustments in the manner specified by the office. Each authorized agency operating a congregate care or foster boarding home program in New York state for which the office sets a maximum state aid rate pursuant to section 398-a of the social services law or section 4003 or 4405 of the education law shall submit, at the time and in a manner to be determined by the office, a written certification, attesting that the funds received for the continuation of the cost of living adjust-

ment to the maximum state aid rate that became effective April 1, 2008 for that program will be or were used solely in accordance with the requirements of the cost of living adjustment established by the office. Notwithstanding any inconsistent provision of law, including section 1 of part C of chapter 57 of the laws of 2006, as amended by section 1 of part H of chapter 56 of the laws of 2012, for the period commencing on April 1, 2013 and ending March 31, 2014 the commissioner shall not apply any cost of living adjustment for the purpose of establishing rates of payments, contracts or any other form of reimbursement.

Notwithstanding any other provision of law, within the amounts appropriated herein, up to $1,044,000 shall be made available as state reimbursement to eligible social services districts that are not operating a juvenile justice services close to home initiative pursuant to section 404 of the social services law for eligible services and expenses as determined by the office, net of any available federal reimbursement. Notwithstanding any other provision of law, the allocation of such funds shall be based on factors as determined by the office of children and family services and approved by the director of the budget.

Within the amounts appropriated herein, state reimbursement to each social services district for services identified herein that are otherwise reimbursable by the state from April 1, 2013 through March 31, 2014 shall be limited to a district allocation, hereinafter referred to as the district's block grant allocation. Notwithstanding any other provision of law, such block grant allocation shall be based, in part, on each district's claims for such costs, adjusted by the applicable cost allocation methodology and net of any retroactive payments for the 12 month period ending June 30, 2012 that are submitted on or before January 2, 2013 and, in part, on such other factors as determined by the office of children and family services and approved by the director of the budget. Any portion of a social

services district's allocation from funds appropriated herein not claimed by such district during the state fiscal year may be used by such district for expenditures on preventive services provided pursuant to section 409-a of the social services law, independent living services and aftercare services provided pursuant to regulations of the department of family assistance, claimed by such district during the next state fiscal year up to the amount remaining from the district's foster care block grant allocation, provided however, that any claims for such services during the next state fiscal year in excess of such amount shall be subject to 62 percent state reimbursement exclusive of any federal funds made available for such purposes, in accordance with directives of the department of family assistance and subject to the approval of the director of the budget. Any claims submitted by a social services district for reimbursement for a particular state fiscal year for which the social services district does not receive state or federal reimbursement during that state fiscal year may not be claimed against that district's block grant apportionment for the next state fiscal year.

The office of children and family services, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share decrease related to federal retroactive reimbursement for such foster care services identified herein. The office, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share of disallowances or sanctions taken against the district pursuant to the social services law or federal law.

Notwithstanding any other provision of law, the state shall not be responsible for reimbursing a social services district and a district shall not seek state reimbursement for any portion of any state disallowance or sanction taken against the social services district, or any federal disallowance attributable to final federal

agency decisions or to settlement made, on or after July 1, 1995, when such disallowance or sanction results from the failure of the social services district to comply with federal or state requirements, including, but not limited to, failure to document eligibility for federal or state funds in the case record; provided, however, if the office determines that any federal disallowance for services provided between January 1, 1999 and May 31, 1999 results solely from the late enactment of the state legislation implementing the federal adoption and safe families act, the state shall be solely responsible for the full amount of the disallowance or sanction; provided, further, however, this provision shall be deemed to apply both prospectively and retroactively regardless of whether such sanctions or disallowances are for services provided or claims made prior to or after April 1, 2013.

Notwithstanding any other provision of law, any federal disallowance resulting from a federal title IV-E eligibility review or audit that uses extrapolated statistic techniques shall be passed along by the state to any and all social services districts that the office of children and family services has determined have not complied with the title IV-E eligibility requirements or have not taken the necessary actions to ensure compliance with such requirements including, but not limited to, failing to: assess and fully document all the criteria and have readily available all the necessary documents to establish and continue title IV-E eligibility for all title IV-E eligible children within the required time frames; claim title IV-E funding only for cases that meet all of the title IV-E eligibility criteria; and fully implement the social services payment system on or before April 1, 2005 for all direct and voluntary agency foster care services.

Notwithstanding any law to the contrary, the office of children and family services shall impose on social services districts any federal disallowance issued against the state as a result of a federal title

IV-E secondary eligibility review regardless of the date the children may have entered foster care, the date the eligibility or payment errors occurred, or the filing date of any federal claims for reimbursement; provided, however, that the state shall be responsible for the disallowed costs and expenditures related to the placement of children in a facility operated by the office of children and family services, which shall be determined in the same manner as the disallowed costs and expenditures for social services districts other than the city of New York. In order to reimburse the federal government for the full amount of any disallowance imposed on the state by the federal administration for children and families within the timeframes necessary to avoid any potential interest payments on such amount, the office of children and family services is authorized to immediately offset funds otherwise due to each district for a pro rata share of the total disallowed costs based on the percentage of applicable federal title IV-E claims made by that district for the relevant time period as compared to the total applicable statewide title IV-E claims. The amount of the offset against each district will be adjusted, if necessary, upon completion of the disallowance allocation process. The final allocation of the amount of any federal disallowance resulting from a title IV-E secondary eligibility review shall be allocated among the districts so that each district shall be responsible for the amount attributable to each of the district's children or cases that are determined by the federal review to be unallowable. Each district shall also be responsible for a portion of the federal extrapolated disallowance amount based on the relative error rate for the district. The city of New York's error rate will be based on the federal sample and federal statistics. For all social services districts other than the city of New York, the error rate will be based on a review conducted by the district of a sample of children and/or

cases determined by the office of children and family services and a re-review of a sub-sample by the office of those children and/or cases determined by the office. The office of children and family services will determine what is reasonable in establishing the size of the sample and sub-sample for each district. The office of children and family services shall notify each social services district of the sample of children and/or cases from the federal audit period that the social services district must review. Any child or case from the social services district that was included in the federal sample will automatically be included in the social services district's review sample and the determination made at the federal review regarding that child or case will govern for the purposes of the social services district's review. The social services district must complete and submit the results of its review to the office of children and family services within 60 days of receipt of the sample. The error rate for the district will be based on the findings of the district's review and the office of children and family services' re-review. If a social services district does not complete its review within 60 days of receiving the sample from the office of children and family services, the office of children and family services shall assign an error rate to the social services district based on the relative percentage of the district's applicable title IV-E claims for the relevant period as compared to applicable statewide title IV-E claims for that period and other circumstances that the office of children and family services may consider in order to allocate 100 percent of the federal disallowance. The office of children and family services shall apply each social services district's error rate to the total amount of the district's applicable title IV-E claims including associated administrative expenses. The resulting dollar amounts for all of the social services districts will be summed to derive the total amount of title IV-E

claims deemed to be in error statewide. To establish a disallowance percentage for each social services district, the amount of the district's title IV-E claims deemed to be in error will be divided by the amount of statewide title IV-E claims deemed to be in error. The resulting disallowance percentage for each district will be applied to the entire title IV-E extrapolated disallowance calculated by the federal review to determine the amount of the extrapolated disallowance for which the district is responsible. Each district will be credited for the amount already disallowed for any individual children or cases found to be in error during the federal review. The exclusive appeal rights for the review of the amount of the federal disallowance assigned to each social services district shall be pursuant to article 78 of the civil practice laws and rules; provided, however, that in any such action all of the social services districts shall be joined as necessary parties and the venue of any such action shall be in Rensselaer county. Any social services district that fails to complete its sample review in the required time frames shall have no right to appeal and shall not be a necessary party to any action brought by another social services district.

The money hereby appropriated is to be available for payment of state aid heretofore accrued or hereafter to accrue to municipalities. Subject to the approval of the director of the budget, the money hereby appropriated shall be available to the office net of disallowances, refunds, reimbursements, and credits.

Notwithstanding any inconsistent provision of law, the amount herein appropriated may be transferred to any other appropriation within the office of children and family services and/or the office of temporary and disability assistance and/or suballocated to the office of temporary and disability assistance for the purpose of paying local social services districts' costs of the above program and may be increased or decreased by interchange with

any other appropriation or with any other item or items within the amounts appropriated within the office of children and family services general fund - local assistance account with the approval of the director of the budget who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Notwithstanding any inconsistent provision of law, in lieu of payments authorized by the social services law, or payments of federal funds otherwise due to the local social services districts for programs provided under the federal social security act or the federal food stamp act, funds herein appropriated, in amounts certified by the state comptroller or the state commissioner of health as due from local social services districts each month as their share of payments made pursuant to section 367-b of the social services law may be set aside by the state comptroller in an interest bearing account with such interest accruing to the credit of the locality in order to ensure the orderly and prompt payment of providers under section 367-b of the social services law pursuant to an estimate provided by the commissioner of health of each local social services district's share of payments made pursuant to section 367-b of the social services law.

Notwithstanding the provisions of any other law to the contrary, the office of children and family services may, on behalf of social services districts, make payments to foster boarding homes paid directly by social services districts by direct deposit or debit card. Local social services districts shall reimburse the office for the costs of administering such direct deposit or debit card payments.

Notwithstanding any inconsistent provision of the social services law or the state finance law, the office of children and family services shall, on a quarterly basis, request that the office of temporary and disability assistance reimburse

the office of children and family services for the non-federal share of the costs of administering such direct deposit or debit card payments to capture the local share of such costs.

Notwithstanding any other provision of law, if a social services district fails to provide reimbursement to the office of children and family services pursuant to section 529 of the executive law within 60 days of receiving a bill for services under such section, or by the date certain set by such office for providing reimbursement, whichever is later, the offices of the department of family assistance are authorized to exercise the state's set-off rights by withholding any amounts due and owing to such district under this appropriation, up to such amounts due and owing to the state under section 529 of the executive law and transferring such funds to the miscellaneous special revenue fund youth facility per diem account (YF).

Notwithstanding any provision of articles 153, 154 and 163 of the education law, there shall be an exemption from the professional licensure requirements of such articles, and nothing contained in such articles, or in any other provisions of law related to the licensure requirements of persons licensed under those articles, shall prohibit or limit the activities or services of any person in the employ of a program or service operated, certified, regulated, funded or approved by the office of children and family services, a local governmental unit as such term is defined in article 41 of the mental hygiene law, and/or a local social services district as defined in section 61 of the social services law, and all such entities shall be considered to be approved settings for the receipt of supervised experience for the professions governed by articles 153, 154 and 163 of the education law, and furthermore, no such entity shall be required to apply for nor be required to receive a waiver pursuant to section 6503-a of the education law

Local Assistance Account

By chapter 53, section 1, of the laws of 2012:
Notwithstanding any inconsistent provision of law, the amount appropriated herein, shall be available under a foster care block grant for state reimbursement of eligible social services district expenditures for the provision and administration of foster care services including care, maintenance, supervision, and tuition; for supervision of foster children placed in federally funded job corps programs; for care, maintenance, supervision, and tuition for adjudicated juvenile delinquents and persons in need of supervision placed in residential programs operated by authorized agencies and in out-of-state residential programs; and for the provision and administration of the kinship guardian assistance program including kinship guardianship assistance payments and payments for non-recurring guardian ship expenses.
Notwithstanding any other provision of law, a portion of the funds are available to reimburse social services districts for the change in the maximum state aid rates established by the office of children and family services for the 2012-13 rate year pursuant to section 398-a of the social services law and sections 4003 and 4405 of the education law to reflect the continuation of the cost of living adjustments that became effective April 1, 2008 for payments made to foster parents and for salary and fringe benefit costs and other critical nonpersonal services costs for foster care programs as

determined by the office. Social services districts must adjust the amount of payments made for care provided by congregate care and foster boarding home programs and to foster parents to reflect the cost of living adjustments in the manner specified by the office. Each authorized agency operating a congregate care or foster boarding home program in New York state for which the office sets a maximum state aid rate pursuant to section 398-a of the social services law or section 4003 or 4405 of the education law shall submit, at the time and in a manner to be determined by the office, a written certification, attesting that the funds received for the continuation of the cost of living adjustment to the maximum state aid rate that became effective April 1, 2008 for that program will be or were used solely in accordance with the requirements of the cost of living adjustment established by the office. Notwithstanding any inconsistent provision of law, including section 1 of part C of chapter 57 of the laws of 2006, as amended by section 1 of part F of chapter 59 of the laws of 2011, for the period commencing on April 1, 2012 and ending March 31, 2013 the commissioner shall not apply any new cost of living adjustment authorized by section 1 of part C of chapter 57 of the laws of 2006, as amended by section 1 of part F of chapter 59 of the laws of 2011, for the purpose of establishing rates of payments, contracts or any other form of reimbursement.

Within the amounts appropriated herein, state reimbursement to each social services district for services identified herein that are otherwise reimbursable by the state from April 1, 2012 through March 31, 2013 shall be limited to a district allocation, hereinafter referred to as the district's block grant allocation. Notwithstanding any other provision of law, such block grant allocation shall be based, in part, on each district's claims for such costs, adjusted by the applicable cost allocation methodology and net of any retroactive payments for the 12 month period ending June 30, 2011 that are submitted on or before January 3, 2012 and, in part, on such other factors as determined by the office of children and family services and approved by the director of the budget. Any portion of a social services district's allocation from funds appropriated herein not claimed by such district during the state fiscal year may be used by such district for expenditures on preventive services provided pursuant to section 409-a of the social services law, independent living services and aftercare services provided pursuant to regulations of the department of family assistance, claimed by such district during the next state fiscal year up to the amount remaining from the district's foster care block grant allocation, provided however, that any claims for such services during the next state fiscal year in excess of such amount shall be subject to 62 percent state reimbursement exclusive of any federal funds made available for such purposes, in accordance with directives of the department of family assistance and subject to the approval of the director of the budget. Any claims submitted by a social services district for reimbursement for a particular state fiscal year for which the social services district does not receive state or federal reimbursement during that state fiscal year may not be claimed

against that district's block grant apportionment for the next state fiscal year.

The office of children and family services, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share decrease related to federal retroactive reimbursement for such foster care services identified herein. The office, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share of disallowances or sanctions taken against the district pursuant to the social services law or federal law.

Notwithstanding any other provision of law, the state shall not be responsible for reimbursing a social services district and a district shall not seek state reimbursement for any portion of any state disallowance or sanction taken against the social services district, or any federal disallowance attributable to final federal agency decisions or to settlement made, on or after July 1, 1995, when such disallowance or sanction results from the failure of the social services district to comply with federal or state requirements, including, but not limited to, failure to document eligibility for federal or state funds in the case record; provided, however, if the office determines that any federal disallowance for services provided between January 1, 1999 and May 31, 1999 results solely from the late enactment of the state legislation implementing the federal adoption and safe families act, the state shall be solely responsible for the full amount of the disallowance or sanction; provided, further, however, this provision shall be deemed to apply both prospectively and retroactively regardless of whether such sanctions or disallowances are for services provided or claims made prior to or after April 1, 2012.

Notwithstanding any other provision of law, any federal disallowance resulting from a federal title IV-E eligibility review or audit that uses extrapolated statistic techniques shall be passed along by the state to any and all social services districts that the office of children and family services has determined have not complied with the title IV-E eligibility requirements or have not taken the necessary actions to ensure compliance with such requirements including, but not limited to, failing to: assess and fully document all the criteria and have readily available all the necessary documents to establish and continue title IV-E eligibility for all title IV-E eligible children within the required time frames; claim title IV-E funding only for cases that meet all of the title IV-E eligibility criteria; and fully implement the social services payment system on or before April 1, 2005 for all direct and voluntary agency foster care services.

Notwithstanding any law to the contrary, the office of children and family services shall impose on social services districts any federal disallowance issued against the state as a result of a federal title IV-E secondary eligibility review regardless of the date the children may have entered foster care, the date the eligibility or payment errors occurred, or the filing date of any federal claims for reimbursement; provided, however, that the state shall be

responsible for the disallowed costs and expenditures related to the placement of children in a facility operated by the office of children and family services, which shall be determined in the same manner as the disallowed costs and expenditures for social services districts other than the city of New York. In order to reimburse the federal government for the full amount of any disallowance imposed on the state by the federal administration for children and families within the timeframes necessary to avoid any potential interest payments on such amount, the office of children and family services is authorized to immediately offset funds otherwise due to each district for a pro rata share of the total disallowed costs based on the percentage of applicable federal title IV-E claims made by that district for the relevant time period as compared to the total applicable statewide title IV-E claims. The amount of the offset against each district will be adjusted, if necessary, upon completion of the disallowance allocation process. The final allocation of the amount of any federal disallowance resulting from a title IV-E secondary eligibility review shall be allocated among the districts so that each district shall be responsible for the amount attributable to each of the district's children or cases that are determined by the federal review to be unallowable. Each district shall also be responsible for a portion of the federal extrapolated disallowance amount based on the relative error rate for the district. The city of New York's error rate will be based on the federal sample and federal statistics. For all social services districts other than the city of New York, the error rate will be based on a review conducted by the district of a sample of children and/or cases determined by the office of children and family services and a re-review of a sub-sample by the office of those children and/or cases determined by the office. The office of children and family services will determine what is reasonable in establishing the size of the sample and sub-sample for each district. The office of children and family services shall notify each social services district of the sample of children and/or cases from the federal audit period that the social services district must review. Any child or case from the social services district that was included in the federal sample will automatically be included in the social services district's review sample and the determination made at the federal review regarding that child or case will govern for the purposes of the social services district's review. The social services district must complete and submit the results of its review to the office of children and family services within 60 days of receipt of the sample. The error rate for the district will be based on the findings of the district's review and the office of children and family services' re-review. If a social services district does not complete its review within 60 days of receiving the sample from the office of children and family services, the office of children and family services shall assign an error rate to the social services district based on the relative percentage of the district's applicable title IV-E claims for the relevant period as compared to applicable statewide title IV-E claims for that period and other

circumstances that the office of children and family services may consider in order to allocate 100 percent of the federal disallowance. The office of children and family services shall apply each social services district's error rate to the total amount of the district's applicable title IV-E claims including associated administrative expenses. The resulting dollar amounts for all of the social services districts will be summed to derive the total amount of title IV-E claims deemed to be in error statewide. To establish a disallowance percentage for each social services district, the amount of the district's title IV-E claims deemed to be in error will be divided by the amount of statewide title IV-E claims deemed to be in error. The resulting disallowance percentage for each district will be applied to the entire title IV-E extrapolated disallowance calculated by the federal review to determine the amount of the extrapolated disallowance for which the district is responsible. Each district will be credited for the amount already disallowed for any individual children or cases found to be in error during the federal review. The exclusive appeal rights for the review of the amount of the federal disallowance assigned to each social services district shall be pursuant to article 78 of the civil practice laws and rules; provided, however, that in any such action all of the social services districts shall be joined as necessary parties and the venue of any such action shall be in Rensselaer county. Any social services district that fails to complete its sample review in the required time frames shall have no right to appeal and shall not be a necessary party to any action brought by another social services district.

For services and expenses to implement the early intervention program act of 1992. Notwithstanding any inconsistent provision of law, rule or regulation, for early intervention program purposes, commencing on April 1, 2013, an "evaluator" shall mean a provider approved by the department of health in accordance with title II-A of article 25 of the public health law to conduct screenings and evaluations; "multidisciplinary" shall mean the involvement of two or more separate disciplines or professions, which may mean the involvement of one individual who meets the definition of qualified personnel as defined in subdivision 15 of section 2544 of the public health law, who is qualified in accordance with state licensure, certification or other comparable standards to evaluate all five developmental domains set forth in paragraph (c) of subdivision 7 of section 2541 of the public health law; "screening" shall mean

the procedures used by qualified personnel, as defined in subdivision 15 of section 2541 of the public health law, to determine whether a child is suspected of having a disability and in need of early intervention services, and shall include the administration of a standardized screening instrument or instruments approved by the department of health, where available and appropriate for the child; provided, however, that if this chapter appropriates sufficient additional funds to support the provision of evaluations and services without the need to define "evaluator" and "multidisciplinary" to allow the provision of an evaluation by one individual who is qualified to evaluate all five developmental domains, or to define "screening" in order to make a preliminary determination as to whether a child is suspected of having a disability and in need of early intervention services, then this language shall be considered null and void as of March 31, 2013.

Notwithstanding any inconsistent provision of law, rule or regulation, for early intervention program purposes, commencing on April 1, 2013, for a child referred to the early intervention official, an evaluator shall screen such child to determine whether the child is suspected of having a disability as defined in section 2544 of the public health law. The screening procedures shall include the administration of a standardized screening instrument or instruments approved by the department of health. If the evaluator does not use a standardized screening instrument or instruments in conducting the screening, the evaluator shall justify the reasons why an instrument was unavailable or inappropriate for the child. If the screening indicates that the child is suspected of having a disability, the evaluator shall, with parent consent, proceed to conduct an evaluation of the child which shall (a) include the administration of an evaluation instrument approved by the department. If the evaluator does not utilize an evaluation instrument approved by the department as

part of the evaluation of the child, the evaluator shall document in writing why such evaluation instrument or instruments are not appropriate or available for the child; (b) be conducted by personnel trained to utilize appropriate methods and procedures; (c) be based on informed clinical opinion; (d) be made without regard to the availability of services in the municipality or who might provide such services; (e) with parental consent, include the following: (i) a review of pertinent records related to the child's current health status and medical history; and (ii) an evaluation of the child's level of functioning in each of the developmental areas set forth in paragraph (c) of subdivision 7 of section 2541 of the public health law to determine whether the child has a disability as defined in subdivision 5 of section 2541 of the public health law that establishes the child's eligibility for the program; and (f) if the child has been determined eligible by the evaluator after conducting the procedures set forth in paragraphs (a) through (e) herein, the evaluation shall also include: (i) an assessment for the purpose of identifying the child's unique strengths and needs in each of the developmental areas and the early intervention services appropriate to meet those needs; (ii) a family-directed assessment, if consented to by the family, in order to identify the family's resources, priorities and concerns and the supports necessary to enhance the family's capacity to meet the developmental needs of the child. The family assessment shall be voluntary on the part of each family member participating in the assessment; (iii) an assessment of the transportation needs of the child, if any; and (iv) such other matters as the commissioner of health may prescribe in regulation.

If, based upon the screening, a child is not suspected of having a disability, an evaluation shall not be provided unless requested by the parent. A screening shall not be provided to children who are referred to the early intervention official with a diagnosed physical or mental

condition that has a high probability in resulting in developmental delay, or to children who were previously referred to the early intervention official, found ineligible after an evaluation, and referred again to such official within six months of the completion of the evaluation; provided, however, that if this chapter appropriates sufficient additional funds to support provision of evaluations and services to children under the early intervention program without the need to first screen a child referred to the early intervention official to determine whether the child is suspected of having a disability, then this language shall be considered null and void as of March 31, 2013.

Notwithstanding any inconsistent provision of law, rule or regulation, for early intervention program purposes, commencing on April 1, 2013, for a child referred to the early intervention official with a diagnosed physical or mental condition that has a high probability of resulting in developmental delay, the child's medical or other records shall be used, when available to establish the child's eligibility for the early intervention program. The evaluator shall, upon review of records or reports submitted at the time of the child's referral to the early intervention official, or at the time of initial contact with the child's family, determine whether the child has a diagnosed condition that establishes the child's eligibility for the early intervention program in accordance with title II-A of article 25 of the public health law. If the evaluator has reason to believe that the child has a diagnosed condition that establishes the child's eligibility for the early intervention program but has not been provided with medical or other documentation of such diagnosis, the evaluator shall, with parent consent, obtain such documentation prior to proceeding with the evaluation. The evaluator shall review all records received to document that the child's diagnosis as set forth in such records establishes the child's eligibility for

the program under title II-A of article 25 of the public health law. For children referred to the early intervention program with a diagnosed condition that has a high probability of resulting in developmental delay, the evaluation of a child shall consist of (a) a review of the results of the medical or other records that established the child's eligibility, and any other pertinent evaluations or records available; (b) an assessment for the purpose of identifying the child's unique strengths and needs in each of the developmental areas and the early intervention services appropriate to meet those needs; (c) a family-directed assessment, if consented to by the family, in order to identify the family's resources, priorities and concerns and the supports necessary to enhance the family's capacity to meet the developmental needs of the child. The family assessment shall be voluntary on the part of each family member participating in the assessment; (d) an assessment of the transportation needs of the child, if any; and (e) such other matters as the commissioner of health may prescribe in regulation. An evaluation of the child's level of functioning in each of the developmental areas set forth in paragraph (c) of subdivision 7 of section 2541 of the public health law to determine whether the child has a disability as defined in subdivision 5 of section 2541 of the public health law that establishes the child's eligibility for the program shall not be required or conducted; provided, however that a parent may appeal a denial of the parent's request to have an evaluation of the child's level of functioning in each of the developmental areas completed; provided, however, that if this chapter appropriates sufficient additional funds to support the provision of an evaluation in accordance with subdivision 4 of section 2544 of the public health law, to a child who has a diagnosed physical or mental condition with a high probability of resulting in developmental delay whose eligibility may be established by medical or other records, then this

language shall be considered null and void as of March 31, 2013.

Notwithstanding any inconsistent provision of law, rule or regulation, for early intervention program purposes, commencing on April 1, 2013, for a child referred to the early intervention official after a prior early intervention evaluation found the child ineligible for the program, the child shall be entitled to a partial evaluation, which shall mean an evaluation in a single developmental area for purposes of determining eligibility, if (i) the child's prior evaluation was completed between three and six months of the date of the child's subsequent evaluation, (ii) the child's subsequent referral is based on a specific new concern in a single developmental area; and (iii) no other new medical, health or developmental concerns are indicated. If the partial evaluation establishes the child's eligibility, the evaluator shall proceed with the evaluation by conducting (a) an assessment for the purpose of identifying the child's unique strengths and needs in each of the developmental areas and the early intervention services appropriate to meet those needs; (b) a family-directed assessment, if consented to by the family, in order to identify the family's resources, priorities and concerns and the supports necessary to enhance the family's capacity to meet the developmental needs of the child. The family assessment shall be voluntary on the part of each family member participating in the assessment; (c) an assessment of the transportation needs of the child, if any; and (d) such other matters as the commissioner of health may prescribe in regulation. An evaluation of the child's level of functioning in each of the developmental areas set forth in paragraph (c) of subdivision 7 of section 2541 of the public health law to determine whether the child has a disability as defined in subdivision 5 of section 2541 of the public health law that establishes the child's eligibility for the program shall not be required or conducted, unless requested by the parent. The evaluator who conducted the prior evaluation of the

child shall be assigned to conduct the partial evaluation unless the evaluator is unavailable or the parent objects to the assignment. The evaluator shall review the prior evaluation conducted on the child and any other pertinent records, with parent consent; provided, however, that if this chapter appropriates sufficient additional funds to support the provision of an evaluation in accordance with subdivision 4 of section 2544 of the public health law, to children who were previously found ineligible after a prior evaluation conducted in accordance with such section and the child is referred again within six months of the completion of the prior evaluation with a concern in a single area of development, then this language shall be considered null and void as of March 31, 2013.

Notwithstanding any inconsistent provision of law, rule or regulation, for early intervention program purposes, commencing on April 1, 2013, for a child referred to the early intervention official after a prior early intervention evaluation found them ineligible for the program, the child shall be entitled to an evaluation if (i) the child's prior evaluation was completed between three and six months of the date of the child's subsequent evaluation, and (ii) the child's parent or primary referral source indicates specific new concerns in more than one of the developmental areas set forth in paragraph (c) of subdivision 7 of section 2541 of the public health law, or if records or other reports indicate a significant change in overall development. The evaluation provided to children subject to this provision shall (a) include the administration of an evaluation instrument approved by the department. If the evaluator does not utilize an evaluation instrument approved by the department as part of the evaluation of the child, the evaluator shall document in writing why such instrument or instruments are not appropriate or available for the child; (b) be conducted by personnel trained to utilize appropriate methods and procedures; (c) be based on informed clinical opinion; (d) be made without regard

to the availability of services in the municipality or who might provide such services; (e) with parental consent, include the following: (i) a review of pertinent records related to the child's current health status and medical history; and (ii) an evaluation of the child's level of functioning in each of the developmental areas set forth in paragraph (c) of subdivision 7 of section 2541 of the public health law to determine whether the child has a disability as defined in subdivision 5 of section 2541 of the public health law that establishes the child's eligibility for the program; and (f) if the child has been determined eligible by the evaluator after conducting the procedures set forth in paragraphs (a) through (e) of this paragraph, the evaluation shall also include: (i) an assessment for the purpose of identifying the child's unique strengths and needs in each of the developmental areas and the early intervention services appropriate to meet those needs; (ii) a family-directed assessment, if consented to by the family, in order to identify the family's resources, priorities and concerns and the supports necessary to enhance the family's capacity to meet the developmental needs of the child. The family assessment shall be voluntary on the part of each family member participating in the assessment; (iii) an assessment of the transportation needs of the child, if any; and (iv) such other matters as the commissioner may prescribe in department of health regulations. The evaluator who conducted the prior evaluation of the child shall be assigned to conduct the evaluation unless the evaluator is unavailable or the parent objects to the assignment. The evaluator shall review the prior evaluation conducted on the child and any other pertinent records, with parent consent; provided, however, that if this chapter appropriates sufficient additional funds to support the provision of an evaluation in accordance with subdivision 4 of section 2544 of the public health law, to children who were previously found ineligible after a prior evaluation conducted

in accordance with such section and the child is referred again within six months of the completion of the prior evaluation with a concern in more than one area of development, then this language shall be considered null and void as of March 31, 2013.

Notwithstanding any inconsistent provision of law, rule or regulation, for early intervention program purposes, commencing on April 1, 2013, a child referred to the early intervention official within three months of the completion of a prior early intervention evaluation which found the child ineligible for the program, shall not be entitled to an evaluation under the early intervention program unless significant medical, health or other developmental changes are indicated; provided, however, that if this chapter appropriates sufficient additional funds to support the provision of an evaluation conducted in accordance with subdivision 4 of section 2544 of the public health law, to children who were previously found ineligible after a prior evaluation conducted in accordance with such section and the child is referred again within three months of the completion of the prior evaluation, then this language shall be considered null and void as of March 31, 2013.

Notwithstanding any inconsistent provision of law, rule or regulation, for early intervention program purposes, commencing on January 1, 2014, if a child has coverage under a health insurance policy, plan or contract, a representative from the child's health insurer or health maintenance organization, which shall include the medical assistance program or the child health insurance program established in title I-A of article 25 of the public health law or any other governmental third party payor, shall be entitled to participate in individualized family service plan meetings convened pursuant to section 2545 of the public health law and in the development and review of the child's individualized family service plan, if available to attend the meeting or participate in the review on the date and time chosen by the early intervention official;

provided, however that if the representative is not available to attend the meeting or participate in the review in person on the date and time chosen by the early intervention officer, arrangements may be made for the representative's involvement by participation in a telephone conference or by other means; provided further, that if this chapter appropriates sufficient additional funds to support the provision of evaluations and services to children who have coverage under a health insurance policy, plan or contract without the need to allow a representative of the health insurer or health maintenance organization to attend or participate in the individualized family service plan development and review, then this language shall be considered null and void as of March 31, 2013.

For children referred to the early intervention program on or after January 1, 2014, if a child has coverage under a health insurance policy, plan or contract, including coverage under the medical assistance program, the child health insurance program established in title I-A of article 25 of the public health law or other governmental third party payor, and the health insurance policy, plan or contract provides coverage for health, diagnostic or developmental screenings or evaluations or services that may be rendered to the child under the early intervention program, the service coordinator, or, in accordance with section 2544 of the public health law, the parent with respect to evaluations, shall select a provider approved by the department of health and within the health insurer's or health maintenance organization's network, if applicable, for the provision of such screening, evaluation or services, provided, however, that the child shall not be required to select a provider within the insurer's or health maintenance organization's network if (i) special circumstances exist related to a provider's qualifications or availability and the provider is not within the health insurer's or health maintenance organization's network; (ii) health insurance

policy, plan or contract benefits have been exhausted; or (iii) other extraordinary circumstances exist in which there is a clear showing that the child has a demonstrated need, as determined by the health insurer or health maintenance organization, if applicable, for a screening, evaluation or service rendered by a provider who has not entered into a participation agreement with the child's health insurer or health maintenance organization for the provision of such screening, evaluation or service; provided, however, that if this chapter appropriates sufficient additional funds to support provision of screenings, evaluations or services to children under the early intervention program without the need to require the service coordinator, or parent with respect to evaluations, to select a provider within the insurer's or health maintenance organization's network for the provision of screening, evaluations or early intervention services for a child referred to the early intervention program on or after January 1, 2014, then this language shall be considered null and void as of March 31, 2013.

Notwithstanding any inconsistent provision of law, rule or regulation, for early intervention program purposes, commencing on October 1, 2013, all approved evaluators and providers of early intervention services, hereinafter collectively referred to as "provider" or "providers", shall establish and maintain contracts or agreements with a sufficient number of health insurers or health maintenance organizations, including the medical assistance program and the child health insurance program established in title I-A of article 25 of the public health law, as determined necessary by the commissioner of health to meet health insurer or health maintenance organization network adequacy, provided, however, that the department of health may, in its discretion, approve a provider who does not have a contract or agreement with one or more health insurers or health maintenance organizations if the provider renders a service that meets a unique need for such service under the

early intervention program. Approved providers shall submit to the department of health, information and documentation of the health insurers and health maintenance organizations with which the provider holds an agreement or contract. A provider's approval with the department of health to deliver evaluations or early intervention services shall terminate if the provider fails to provide such information or documentation acceptable to the department of health of its contracts or agreements with such health insurers or plans as requested by the department; provided, however, that if this chapter appropriates sufficient additional funds to support provision of services to children under the early intervention program without the need to require that providers enter into contracts or agreements with a sufficient number of health insurers or health maintenance organizations as determined by the commissioner of health, then this language shall be considered null and void as of March 31, 2013.

Notwithstanding any inconsistent provision of law, rule or regulation, for early intervention program purposes, commencing on and after January 1, 2014, payments made by any health insurers or health maintenance organization for screenings, evaluations and services provided under the early intervention program shall be at rates negotiated by the health insurer or health maintenance organization and provider, if applicable; provided, however, that if the health insurer or health maintenance organization maintains a network of providers and extraordinary circumstances exist in which there is a clear showing that a child has a demonstrated need, as determined by the health insurer or health maintenance organization, if applicable, for a screening, evaluation or service rendered by a provider who is not within the health insurer or health maintenance organization's network, payment to such out of network provider shall be made in accordance with the out of network coverage, if any, that is available under the health insurance policy, plan or contract.

Payments made by any health insurers or health maintenance organizations shall be considered payments in full for such services and the provider shall not seek additional payment from the municipality, child, or his or her parents for any portion of the costs of said services. Nothing herein shall prohibit an insurer or health maintenance organization from applying a copayment, coinsurance or deductible as set forth in the policy, plan or contract. Payments for copayments, coinsurance or deductibles shall be made in accordance with paragraph (b) of subdivision 3 of section 2559 of the public health law. When payment under a health insurance policy, plan or contract is not available or benefits have been exhausted, providers shall seek payment for services in accordance with section 2557 of the public health law, provided, however, that if the service provided is a covered benefit under the policy, plan or contract and payment has been denied on grounds other than that benefits have been exhausted, the provider shall exhaust all appeals of said denial prior to claiming payment to the municipality for the service in accordance with section 2557 of the public health law. Providers shall not discontinue or delay services to eligible children pending payment of the claim or determinations of any appeal denials. Payments made for early intervention services under an insurance policy, plan or contract, including under the medical assistance program or the child health insurance program under title I-A of article 25 of the public health law or from other governmental third party payors, shall not be applied by the health insurer or health maintenance organization against any maximum lifetime or annual limits specified in the insurance policy, plan or contract; provided, however, that if this chapter appropriates sufficient additional funds to support provision of services to children under the early intervention program without the need for providers to accept as payment in full for screenings, evaluations and services under the early intervention program, payment received by the

health insurer or health maintenance organization pursuant to agreements negotiated between the provider and health insurer or health maintenance organization, if applicable, and without the need for providers to exhaust all available appeals prior to claiming payment from a municipality in accordance with section 2557 of the public health law, then this language shall be considered null and void as of March 31, 2013.

Notwithstanding any inconsistent provision of law, rule or regulation, for purposes of the child health insurance program established in title I-A of article 25 of the public health law, commencing on January 1, 2014, "covered health care services" as defined in subdivision 7 of section 2510 of the public health law shall mean: the services of physicians, optometrists, nurses, nurse practitioners, midwives and other related professional personnel which are provided on an outpatient basis, including routine well-child visits; diagnosis and treatment of illness and injury; inpatient health care services; laboratory tests; diagnostic x-rays; prescription and non-prescription drugs and durable medical equipment; radiation therapy; chemotherapy; hemodialysis; emergency room services; hospice services; emergency, preventive and routine dental care, including medically necessary orthodontia but excluding cosmetic surgery; emergency, preventive and routine vision care, including eyeglasses; speech and hearing services; and, inpatient and outpatient mental health, alcohol and substance abuse services as defined by the commissioner in consultation with the superintendent. "Covered health care services" shall also include early intervention services provided pursuant to title II-A of article 25 of the public health law up to the scope and level of coverage for the same services provided pursuant to subdivision 7 of section 2510 of the public health law, as defined by the commissioner of health. "Covered health care services" shall not include drugs, procedures and supplies for the treatment of erectile dysfunction when

provided to, or prescribed for use by, a person who is required to register as a sex offender pursuant to article 6-C of the correction law, provided that any denial of coverage of such drugs, procedures or supplies shall provide the patient with the means of obtaining additional information concerning both the denial and the means of challenging such denial; provided, however if this chapter appropriates sufficient additional funds to support provision of services to children under the early intervention program without the need to include early intervention services as covered health services under the definition of "covered health care services" for purposes of the child health insurance program, then this language shall be considered null and void as of March 31, 2013.

Notwithstanding any inconsistent provision of law, rule or regulation, for early intervention program purposes, commencing on October 1, 2013, a health maintenance organization, as defined in subdivision 1 of section 4401 of the public health law, shall demonstrate that it maintains an adequate network of providers who are approved, in accordance with title II-A of article 25 of the public health law, to deliver evaluations and early intervention program services, by showing to the satisfaction of the commissioner of health that (i) there are a sufficient number of geographically accessible participating providers; and (ii) there are sufficient providers in each area of specialty of practice to meet the needs of the enrollment population. No subscriber contract or benefit package shall exclude coverage for otherwise covered services solely on the basis that the services constitute early intervention program services under title II-A of article 25 of the public health law. Where a subscriber contract or benefit package provides coverage for a service that is provided under the early intervention program and is otherwise covered under the subscriber contract or benefit package, such coverage shall not be applied against any maximum annual or lifetime monetary limits set forth in such

subscriber contract or benefit package. Visit limitations and other terms and conditions of the subscriber contract or benefit package will continue to apply to early intervention services. For policies and contracts issued, renewed, modified, altered or amended on or after October 1, 2013, any visits used for early intervention program services shall not reduce the number of visits otherwise available to the enrollee, the enrollee's parents and family members who are covered under the subscriber contract or benefit package for such service that are not provided under the early intervention program. The health maintenance organization shall provide the municipality and service coordinator with information on the extent of benefits available to an enrollee under such subscriber contract or benefit package within 15 days of the health maintenance organization's receipt of written request and notice authorizing such release. Each health maintenance organization shall further provide the municipality and service coordinator a list, updated quarterly, containing the names of participating providers in the health maintenance organization's network who are approved, in accordance with title II-A of article 25 of the public health law, to deliver evaluations and early intervention program services; in addition, no health maintenance organization shall refuse to issue a subscriber contract or benefit package or refuse to renew a subscriber contract or benefit package solely because the applicant or enrollee is receiving services under the early intervention program. Health maintenance organizations shall accept claims submitted for payment under the subscriber contract or benefit package from a provider through the department of health's fiscal agent and data system for such claiming. Health maintenance organizations shall, in a manner and format as required by the department of health, provide the department with information on claims submitted for screenings, evaluations and early intervention services provided to children under the early intervention program and

disposition of such claims. For policies and contracts issued, renewed, modified, altered or amended on or after October 1, 2013, health maintenance organizations shall, for services rendered to enrollees under the early intervention program, authorize such provision of services in settings that are natural or typical for a same-aged infant or toddler without a disability, which shall include the home. The determination of the appropriate location or setting wherein services are to be rendered shall be made by the individualized family service plan participants in accordance with section 2545 of the public health law. Commencing on and after January 1, 2014, where a subscriber contract or benefit package provides coverage for a screening, evaluation or service provided under the early intervention program, payment for such screening, evaluation or service shall be made at rates negotiated by the health maintenance organization and provider; provided, however, that if extraordinary circumstances exist in which there is a clear showing that a child has a demonstrated need, as determined by the health maintenance organization, for a screening, evaluation or service rendered by a provider who is not within the health maintenance organization's network, payment to such out of network provider shall be made in accordance with the out of network coverage, if any, that is available under the subscriber contract or benefit package; provided, further that, if this chapter appropriates sufficient additional funds to support provision of services to children under the early intervention program without the need to require that health maintenance organization maintain an adequate network of providers who are approved under title II-A of article 25 of the public health law to deliver early intervention services and to provide coverage and accept claims in the manner set forth herein, then this language shall be considered null and void as of March 31, 2013.

Notwithstanding any inconsistent provision of law, rule or regulation, for early

intervention program purposes, commencing on October 1, 2013, where a policy of accident and health insurance, including a contract issued pursuant to articles 43 and 47 of the insurance law, subject to the provisions of section 3235-a of the insurance law, utilizes a network of providers, the insurer shall demonstrate to the superintendent of financial services, in consultation with the department of health, that it maintains an adequate network of providers who are approved to deliver evaluations and early intervention program services in accordance with title II-A of article 25 of the public health law by documenting that (i) there are a sufficient number of geographically accessible participating providers; and (ii) there are sufficient providers in each area of specialty of practice to meet the needs of the enrollment population. For policies and contracts issued, renewed, modified, altered or amended on or after October 1, 2013, any visits used for early intervention program services shall not reduce the number of visits otherwise available to the covered person, the covered person's parents and family members who are covered under the policy or contract for such service that are not provided under the early intervention program. Insurers subject to the provisions of section 3235-a of the insurance law shall provide municipalities and service coordinators as defined by section 2541 of the public health law, with information on the extent of benefits available to the covered person within fifteen days of the insurer's receipt of written request and notice authorizing such release. Insurers shall also provide municipalities and service coordinators with a list, updated quarterly, containing the names of providers in the insurer's network who are approved by the commissioner of health in accordance with title II-A of article 25 of the public health law to deliver evaluations and services in the early intervention program. Nothing herein shall be deemed to limit the superintendent of financial service's authority to impose network adequacy requirements on

insurers in general. For policies and contracts issued, renewed, modified, altered or amended on or after October 1, 2013, insurers shall, for services rendered to covered person's under the early intervention program, authorize such provision of services in settings that are natural or typical for a same-aged infant or toddler without a disability, which shall include the home. The determination of the appropriate location or setting wherein services are to be rendered shall be made by the individualized family service plan participants in accordance with section 2545 of the public health law. Commencing on and after January 1, 2014, where a policy of accident and health insurance, including a contract issued pursuant to articles 43 and 47 of the insurance law, that is subject to the provisions of section 3235-a of the insurance law, provides coverage for a health, diagnostic or developmental screening, evaluation or service provided under the early intervention program, payment shall be made at rates negotiated by the insurer and provider, if applicable, provided, however, that if extraordinary circumstances exist in which there is a clear showing that a covered person has a demonstrated need for a screening, evaluation or service rendered by a provider who is not within the health insurer's network, payment to such provider shall be made in accordance with the out of network coverage, if any, that is available under the policy or contract; provided, however, that if this chapter appropriates sufficient additional funds to support provision of services to children under the early intervention program without the need to require insurers to maintain an adequate network of providers, if applicable, who are approved to deliver services in the early intervention program in accordance with title II-A of article 25 of the public health law and make payment to providers in accordance with rates negotiated between the health insurer and provider, if applicable, and to provide such information to municipalities and providers as required herein, then this

language shall be considered null and void as of March 31, 2013.

Funding authority from this account used for State administration of the medical assistance program may be transferred to State Operations appropriations within the aforementioned programs at amounts agreed upon by the commissioner of health, and the New York state division of the budget.

Notwithstanding section 40 of state finance law or any other law to the contrary, all medical assistance appropriations made

from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 50 percent for the period April 1, 2013 to March 31, 2014; and the remaining amount for the period April 1, 2014 to March 31, 2015.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of alcoholism and substance abuse services and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2013 through March 31, 2014, shall not exceed $16,477,019,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2014 through March 31, 2015, shall not exceed $17,098,774,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2013 through March 31, 2015 exceed $33,575,793,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to a chapter establishing such fund. The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to

cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation plan that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the

limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation plan; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the states.

The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

The commissioner may revise the medicaid savings allocation plan subsequent to the provisions of notice and prior to implementation but need provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

provided below and state share medicaid

The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as defined by the commissioner, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service

or particular geographic regions of the states.

The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

Notwithstanding section 40 of state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 50 percent for the period April 1, 2013 to March 31, 2014; and the remaining amount for the period April 1, 2014 to March 31, 2015.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of alcoholism and substance abuse services and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2013 through March 31, 2014, shall not exceed $16,477,019,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2014 through March 31, 2015, shall not exceed $17,098,774,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2013 through March 31, 2015 exceed $33,575,793,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for

any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to a chapter establishing such fund. The director of the budget, in consultation with the commissioner of health, shall assess on monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation plan that meets the other

criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation plan; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the states.

The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

The commissioner may revise the medicaid savings allocation plan subsequent to the provisions of notice and prior to implementation but need provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this paragraph if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation plan is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation plan from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation plan, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including,

but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h). The department of health shall prepare a monthly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision 1 of this section; and (b) the actions taken to implement any medicaid savings allocation plan implemented pursuant to subdivision 4 of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such monthly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

For the purpose of making payments to providers of medical care pursuant to section 367-b of the social services law, and for payment of state aid to municipalities where payment systems through fiscal intermediaries are not operational, to reimburse such providers for costs attributable to the provision of care to patients eligible for medical assistance. Payments from this appropriation to general hospitals related to indigent care pursuant to article 28 of the public health law respectively, when combined with federal funds for services and expenses for the medical assistance program pursuant to title XIX of the federal social security act or its successor program, shall equal the amount of the funds received related to health care reform act allowances and surcharges pursuant to article 28 of the public health law and deposited to this account less any such amounts withheld pursuant to subdivision 21 of section 2807-c of the public health law. Notwithstanding any inconsistent provision of law, the moneys

hereby appropriated may be increased or decreased by interchange or transfer with any appropriation of the department of health with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Notwithstanding any provision of law to the contrary, the portion of this appropriation covering fiscal year 2013-14 shall supersede and replace any duplicative (i) reappropriation for this item covering fiscal year 2013-14, and (ii) appropriation for this item covering fiscal year 2013-14 set forth in chapter 53 of the laws of 2012 1,633,000,000

The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation plan that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become avail-

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the states.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation plan from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation plan, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The director of the budget, in consultation with the commissioner of health,

shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as defined by the commissioner, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation plan that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation plan; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the states.

The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation plan from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation plan, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying or discontinuing medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

(re. $9,500,000,000)

By chapter 53, section 1, of the laws of 2011, as amended by chapter 53, section 1, of the laws of 2012:

For services and expenses for the medical assistance program, including administrative expenses for local social services districts, pursuant to title XIX of the federal social security act or its successor program.

Notwithstanding section 40 of state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 50.90 percent for the period April 1, 2011 to March 31, 2012; and the remaining amount for the period April 1, 2012 to September 15, 2013.

The moneys hereby appropriated are to be available for payment of aid heretofore accrued to municipalities, and to providers of medical services pursuant to section 367-b of the social services law, and for payment of state aid to municipalities and to providers of family care where payment systems through the fiscal intermediaries are not operational, shall be available to the department net of disallowances, refunds, reimbursements, and credits.

Notwithstanding any other provision of law, the money hereby appropriated may be increased or decreased by interchange, with any appropriation of the department of health and the office of medicaid inspector general and may be increased or decreased by transfer or suballocation between these appropriated amounts and appropriations of the office of mental health, office for people with developmental disabilities, the office of alcoholism and substance abuse services, the department of family assistance office of temporary and disability assistance, office of children and family services, the department of financial services, which shall mean prior to October 3, 2011, the department of insurance and the state office for the aging with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Notwithstanding any inconsistent provision of law, in lieu of payments authorized by the social services law, or payments of federal funds otherwise due to the local social services districts for programs provided under the federal social security act or the federal food stamp act, funds herein appropriated, in amounts certified by the state commissioner of temporary and disability assistance or the state commissioner of health as due from local social services districts each month as their share of payments made pursuant to section 367-b of the social services law may be set aside by the state comptroller in an interest-bearing account in order to ensure the orderly and prompt payment of providers under section 367-b of the social services law pursuant to an estimate provided by the commissioner of health of each local social services district's share of payments made pursuant to section 367-b of the social services law.

Notwithstanding any other provision of law, rule or regulation, to the contrary, for the period April 1, 2011 through March 31, 2013, all medicaid payments made for services provided on and after April 1, 2011, shall, except as hereinafter provided, be subject to a uniform 2 percent reduction and such reduction shall be applied, to the extent practicable, in equal amounts during the fiscal year, provided, however, that an alternative method may be considered at the discretion of the commissioner of health and the director of the budget based upon consultation with the health care industry including but not limited to, a uniform reduction in medicaid rates of payment or other reductions provided that any method selected achieves no more than $702,000,000 in medicaid state share savings, except as hereinafter provided, for services provided on and after April 1, 2011 through March 31, 2013. Any alternative methods to achieve the reduction must be provided in writing and shall be filed with the senate finance committee and the assembly ways and means committee not less than 30 days before the date of which implementation is expected to begin. Nothing in this section shall be deemed to prevent all or part of such alternative reduction plan from taking effect retroactively, to the extent permitted by the federal centers for medicare and medicaid services.

The following shall be exempt from reductions pursuant to this section:

(i) any reductions that would violate federal law including, but not limited to, payments required pursuant to the federal medicare program;

(ii) any reductions related to payments pursuant to article 32, article 31 and article 16 of the mental hygiene law;

(iii) payments the state is obligated to make pursuant to court orders or judgments;

(iv) payments for which the non-federal share does not reflect any state funding; and

(v) at the discretion of the commissioner of health and the director of the budget, payments with regard to which it is determined by the commissioner of health and the director of the budget that application of reductions pursuant to this section would result, by opera-

tion of federal law, in a lower federal medical assistance percentage applicable to such payments.

(vi) payments made with regard to the early intervention program pursuant to public health law section 2540.

Reductions to medicaid payments or medicaid rates of payments made pursuant to this section shall be subject to the receipt of all necessary federal approvals.

Not less than 30 days prior to the conclusion of each state fiscal year in which the provisions of this section apply, the department of health shall prepare and submit a report to the legislature that details the actions taken to implement the medicaid state share reduction established pursuant to this section. Such report shall be provided to the chair of the senate finance committee and the assembly ways and means committee. Provided, however, if this chapter appropriates sufficient additional funds to support medicaid payments or medicaid rates of payments, the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011.

Notwithstanding paragraph (c) of subdivision 10 of section 2807-c of the public health law, section 21 of chapter 1 of the laws of 1999, or any other contrary provision of law, in determining rates of payments by state governmental agencies effective for services provided for the period April 1, 2011 through March 31, 2013, for inpatient and outpatient services provided by general hospitals, for inpatient services and adult day health care outpatient services provided by residential health care facilities pursuant to article 28 of the public health law, except for residential health care facilities or units of such facilities that provide services primarily to children under twenty-one years of age, for home health care services provided pursuant to article 36 of the public health law by certified home health agencies, long term home health care programs and AIDS home care programs, for personal care services provided pursuant to section 365-a of the social services law, hospice services provided pursuant to article 40 of the public health law, foster care services provided pursuant to article 6 of the social services law, the commissioner of health shall apply no greater than zero trend factors attributable to the 2011 and 2012 calendar years in accordance with paragraph (c) of subdivision 10 of section 2807-c of the public health law, provided, however, that such no greater than zero trend factors for such calendar years shall also be applied to rates of payment for personal care services for such period provided in those local social service districts, including New York city, whose rates of payment for such services are established by such local social service districts pursuant to a rate-setting exemption issued by the commissioner of health to such local social service districts in accordance with applicable regulations, and provided further, however, that for rates of payment for assisted living program services provided for the period April 1, 2011 through March 31, 2013, trend factors attributable to such 2011 and 2012 calendar years shall be established at no greater than zero percent, provided, however, that if this chapter provides sufficient additional funding to cover the cost of trend factor adjustments to

the rates enumerated in this section, then provisions of this section shall be deemed null and void as of March 31, 2011.

Notwithstanding paragraph (c) of subdivision 10 of section 2807-c of the public health law, section 21 of chapter 1 of the laws of 1999, or any other contrary provision of law, in determining rates of payments by state governmental agencies effective for services provided for the period January 1, 2013 through March 31, 2013, for inpatient and outpatient services provided by general hospitals, for inpatient services and adult day health care outpatient services provided by residential health care facilities pursuant to article 28 of the public health law, except for residential health care facilities or units of such facilities that provide services primarily to children under twenty-one years of age for home health care services provided pursuant to article 36 of the public health law by certified home health agencies, long term home health care programs and AIDS home care programs, for personal care services provided pursuant to section 365-a of the social services law, hospice services provided pursuant to article 40 of the public health law, foster care services provided pursuant to article 6 of the social services law, the commissioner of health shall apply no greater than zero trend factors attributable to the 2013 calendar year in accordance with paragraph (c) of subdivision 10 of section 2807-c of the public health law, provided, however, that such no greater than zero trend factors for such calendar years shall also be applied to rates of payment for personal care services for such period provided in those local social service districts, including New York city, whose rates of payment for such services are established by such local social service districts pursuant to a rate-setting exemption issued by the commissioner of health to such local social service districts in accordance with applicable regulations, and provided further, however, that for rates of payment for assisted living program services provided for the period January 1, 2013 through March 31, 2013, trend factors attributable to such 2013 calendar year shall be established at no greater than zero percent, provided, however, that if this chapter provides sufficient additional funding to cover the cost of trend factor adjustments to the rates enumerated in this section, then provisions of this section shall be deemed null and void as of March 31, 2011.

Notwithstanding any provision of law to the contrary and subject to the availability of federal financial participation, for the period April 1, 2011 through March 31, 2013, clinics certified pursuant to articles 16, 31 or 32 of the mental hygiene law shall be subject to targeted medicaid reimbursement rate reductions in accordance with the provisions of this section. Such reductions shall be based on utilization thresholds which may be established either as provider-specific or patient-specific thresholds. Provider specific thresholds shall be based on average patient utilization for a given provider in comparison to a peer based standard to be determined for each service.

The commissioners of the office of mental health, the office for persons with developmental disabilities, and the office of alcoholism and substance abuse services, in consultation with the commis-

sioner of health, are authorized to waive utilization thresholds for patients of clinics certified pursuant to article 16, 31, or 32 of the mental hygiene law who are enrolled in specific treatment programs or otherwise meet criteria as may be specified by such commissioners. When applying a provider specific threshold, rates will be reduced on a prospective basis based on the amount any provider is over the determined threshold level. Patient-specific thresholds will be based on annual thresholds determined for each service over which the per visit payment for each visit in excess of the standard during a twelve month period may be reduced by a predetermined amount. The thresholds, peer based standards and the payment reductions shall be determined by the department of health, with the approval of the division of the budget, and in consultation with the office of mental health, the office for people with developmental disabilities and the office of alcoholism and substance abuse services, and any such resulting rates shall be subject to certification by the appropriate commissioners pursuant to subdivision (a) of section 43.02 of the mental hygiene law. The base period used to establish the thresholds shall be the 2009 calendar year. The total annualized reduction in payments shall be no less than $10,900,000 for Article 31 clinics, no less than $2,400,000 for Article 16 clinics, and no less than $13,250,000 for Article 32 clinics. Provided, however if this chapter provides sufficient additional funding to cover the cost of targeted medical reimbursement rate reductions enumerated in this section, then the provisions of this section shall be deemed null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013, the commissioner of health is authorized, in consultation with the commissioners of the office of mental health, office of alcoholism and substance abuse services, and office for people with developmental disabilities to: establish, in accordance with applicable federal law and regulations, standards for the provision of health home services to enrollees with chronic conditions in the program of medical assistance for needy persons; establish payment methodologies for health home services based on factors including but not limited to the complexity of the conditions providers will be managing, the anticipated amount of patient contact needed to manage such conditions, and the health care cost savings realized by provision of health home services; establish the criteria under which such an enrollee will be designated as being eligible to receive health home services; and assign any enrollee designated as an eligible individual to a provider of health home services. Until such time as the commissioner of health obtains necessary waivers and/or approvals under the federal social security act, enrollees assigned to providers of health home services will be allowed to opt out of such services. In addition, upon enrollment an enrollee shall be offered an option of at least two providers of health home services to the extent practicable. In addition to such payments made for health home services, the commissioner of health is authorized to pay additional amounts to providers of health home services that meet process or outcome standards specified by the commissioner. Payment for

such health home services and such additional payments will be made with state funds only, to the extent that such funds are appropriated therefore, until such time as federal financial participation in the costs of such services is available. The commissioner of health is authorized to submit amendments to the state plan for medical assistance and/or submit one or more applications for waivers of the federal social security act, to obtain federal financial participation in the costs of health home services. Notwithstanding any limitations imposed by section 364 - l of the social services law, the commissioner is authorized to allow entities participating in demonstration projects established pursuant to such section to provide health home services. Notwithstanding any law, rule, or regulation to the contrary, the commissioners of the department of health, the office of mental health, and the office of alcoholism and substance abuse services are authorized to jointly establish a single set of operating and reporting requirements and a single set of construction and survey requirements for entities that can demonstrate experience in the delivery of health, and mental health and/or alcohol and substance abuse services and the capacity to offer integrated delivery in each location approved by the commissioner, and meet the standards for providing and receiving payment for health home services. In establishing a single set of operating and reporting requirements and a single set of construction and survey requirements for entities described in this subdivision, the commissioners of the department of health, the office of mental health, and the office of alcoholism and substance abuse services are authorized to waive any regulatory requirements as are necessary to avoid duplication of requirements and to allow the integrated delivery of services in a rational and efficient manner. Provided, however, if this chapter appropriates sufficient additional funds to provide coverage for persons with chronic conditions under the program of medical assistance for needy persons without the savings to be achieved through the provision of health home services, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013: coverage under the Medicaid program for enteral formula therapy and nutritional supplements are limited to coverage only for nasogastric, jejunostomy, or gastrostomy tube feeding or for treatment of an inborn metabolic disorder or to address growth and developmental problems in children, or, subject to standards established by the commissioner of health, for persons with a diagnosis of HIV infection, AIDS or HIV-related illness or other diseases and conditions; coverage under the medicaid program for prescription footwear and inserts is limited to coverage only when used as an integral part of a lower limb orthotic appliance, as part of a diabetic treatment plan, or to address growth and development problems in children; coverage under the medicaid program for compression and support stockings is limited to coverage only for pregnancy or treatment of venous stasis ulcers; and the commissioner of health is authorized to require prior authorization for prescriptions of

opioid analgesics in excess of four prescriptions in a thirty-day period. Provided, however, if this chapter appropriates sufficient additional funds to allow medicaid coverage of such services without imposing such limitations, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through march 31, 2013, when Medicaid eligible persons are also beneficiaries under part B of title XVIII of the federal social security act and payment under part B would exceed the amount that would be paid by Medicaid if the person were not eligible under part B or a qualified Medicare beneficiary, the amount payable under the Medicaid program shall be twenty percent of the amount of any coinsurance liability of such eligible person pursuant to federal law if they were not eligible for Medicaid or were not a qualified Medicare beneficiary, but only with respect to services covered under title eleven of article five of the social services law; provided however that amounts payable with respect to items and services covered under such title and provided to eligible persons who are also beneficiaries under part B or to qualified medicare beneficiaries by an ambulance service under the authority of an operating certificate issued pursuant to article thirty of the public health law, a psychologist licensed under article one hundred fifty-three of the education law, or a facility under the authority of an operating certificate issued pursuant to article sixteen, thirty-one or thirty-two of the mental hygiene law, and with respect to outpatient hospital and clinic items and services covered under such title and provided by a facility under the authority of an operating certificate issued pursuant to article twenty-eight of the public health law, shall not be less than the amount of any co-insurance liability of such eligible persons or such qualified medicare beneficiaries, or for which such eligible persons or such qualified medicare beneficiaries would be liable under federal law were they not eligible for medical assistance or were they not qualified medicare beneficiaries with respect to such benefits under part B.

Provided, however, if this chapter appropriates sufficient additional funds to provide medical assistance payments under subparagraph (iii) of paragraph (d) of subdivision one of section three hundred sixty-seven-a of the social services law with respect to services not covered under title eleven of article five of the social services law, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013, amounts payable under section three hundred sixty-seven-a of the social services law with respect to hospital outpatient services or diagnostic and treatment center services pursuant to article twenty-eight of the public health law provided to Medicaid eligible persons who are also beneficiaries under part B of title XVIII of the federal social security act or provided to qualified medicare beneficiaries under part B of title XVIII of such act shall not

exceed the approved medical assistance payment level less the amount payable under part B. Provided, however, if this chapter appropriates sufficient additional funds to provide medical assistance payments under section three hundred sixty-seven-a of the social services law with respect to hospital outpatient services or diagnostic and treatment center services provided to Medicaid eligible persons who are also beneficiaries under part B without such limitation, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013:

Such regional entities shall also be responsible for promoting appropriate care and service utilization while safeguarding against unnecessary utilization of such care and services and assuring that payments are consistent with the efficient and economical delivery of quality care. In exercising this responsibility, the commissioners of the office of mental health and the office of alcoholism and substance abuse services are authorized to contract, after consultation with the commissioner of health and the impacted local governmental units, with regional behavioral health organizations or other entities. Such contracts may include responsibility for: receipt, review, and determination of prior authorization requests for behavioral health care and services, consistent with criteria established or approved by the commissioners of mental health and alcoholism and substance abuse services, and authorization of appropriate care and services based on documented patient medical need.

Initial designations of such plan or provider systems should be made no later than April first, two thousand thirteen, provided, however, such designations shall be contingent upon a determination by such state commissioners that the entities to be designated have the capacity and financial ability to provide services in such plans or provider systems, and that the region has a sufficient population and service base to support such plans and systems. Once designated, the commissioner of health shall make arrangements to enroll such enrollees in such plans or integrated provider systems and to pay such plans or provider systems on a capitated or other basis to manage, coordinate, and pay for behavioral and physical health medical assistance services for such enrollees.

(b) Notwithstanding any inconsistent provision of section one hundred twelve and one hundred sixty-three of the state finance law, and section one hundred forty-two of the economic development law, or any other law to the contrary, the designations of such plans and provider systems, and any resulting contracts with such plans,

Oversight of such contracts with such plans, providers or provider systems shall be the joint responsibility of such state commissioners, and for contracts affecting a city with a population of over one million, also with such city's local social services district and local governmental unit, as such term is defined in the mental hygiene law.

Provided, however, if this

chapter appropriates sufficient additional funds to provide coverage for behavioral health care and services under the program of medical assistance for needy persons without the savings to be achieved by contracting for the prior authorization and coordination of the provision of such services, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011.

Notwithstanding any contrary provision of law, for the period April 1, 2011 through March 31, 2013, with regard to adjustments to inpatient rates of payment made pursuant to section 2808 of the public health law for inpatient services provided by residential health care facilities for the period April 1, 2010 through March 31, 2012 and the period April 1, 2012 through March 31, 2013, the commissioner of health and the director of the budget shall, upon a determination by such commissioner and such director that such rate adjustments shall, prior to the application of any applicable adjustment for inflation, result in an aggregate increase in total medicaid rates of payment for such services for either such state fiscal year, including payments made pursuant to subparagraph (i) of paragraph (d) of subdivision 2-c of section 2808 of the public health law, make such proportional adjustments to such rates as are necessary to reduce such total aggregate rate adjustments within each such year such that the aggregate total for each such year reflects no such increase or decrease, and provided further, however, that adjustments made pursuant to this paragraph shall not be subject to subsequent correction or reconciliation, and provided further, however, that if this chapter provides sufficient additional funding to cover the cost of such rate adjustments to the rates enumerated in this paragraph, then provisions of this paragraph shall be deemed null and void as of March 31, 2011.

Notwithstanding any contrary provision of law, rule or regulation, for the period April 1, 2011 through March 31, 2013, the capital cost component of medicaid rates of payment for services provided by residential health care facilities may not include any payment factor for return on or return of equity, and provided further, however, that for that period no adjustment to rates of payment may be made pursuant to paragraph (d) of subdivision 20 of section 2808 of the public health law as in effect on March 31, 2011, provided, however, that if this chapter provides sufficient additional funding to cover the cost of the adjustments to the rates enumerated in this section, then provisions of this section shall be deemed null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law or regulation to the contrary, for the period April 1, 2011 through March 31, 2013, the commissioner of health shall not be required to revise certified rates of payment established pursuant to the public health law prior to April 1, 2013, based on consideration of rate appeals filed by residential health care facilities pursuant to section 2808 of the public health law or based upon adjustments to capital cost reimbursement as a result of approval by the commissioner of health of an application for construction under section 2802 of the public health law, in excess of aggregate amount of $50,000,000 for the state fiscal year beginning April 1, 2011, and $80,000,000 for the state fiscal year beginning April 1, 2012, provided, however, that in revising such rates within such fiscal limits the commissioner of health may prioritize rate appeals for facilities which the commissioner of health determines are facing significant financial hardship and, further, the commissioner of health is authorized to enter into agreements with such facilities to resolve multiple pending rate appeals based upon a negotiated aggregate amount and may offset such negotiated aggregate amounts against any amounts owed by the facility to the department of health, including, but not limited to, amounts owed pursuant to section 2807-d of the public health law, provided further, however, that such rate adjustment made pursuant to this section remain fully subject to approval by the director of the budget in accordance with the provisions of subdivision two of section 2807 of the public health law.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013, payments under the medicaid program to reserve a bed in a residential health care facility while a medicaid recipient is temporarily hospitalized or on leave of absence from the facility shall be made as follows: payments for reserved bed days shall be made at 95 percent of the medicaid rate otherwise payable to the facility for services provided on behalf of such recipient; payment for reserved bed days during temporary hospitalizations may not exceed fourteen days in any twelve month period; payment for reserved bed days for non-hospitalization leaves of absence may not exceed ten days in any twelve month period. Provided, however, if this chapter appropriates sufficient additional funds to allow medicaid payments for reserved bed days pursuant to subdivision 25 of section 2808 of the public health law, then the provisions of this

paragraph shall not apply and shall be considered null and void as of March 31, 2011 ... 7,420,543,000 ..... (re. $95,500,000)

For services and expenses of the medical assistance program including other long term care services.

Notwithstanding any inconsistent provision of law or regulation to the contrary, for the period April 1, 2011 through March 31, 2013, for participating providers, meaning certified home health agencies, long term home health agencies and personal care providers with total medicaid reimbursements exceeding $50,000,000 per calendar year, every service or item within a claim submitted by a participating provider shall be reviewed and verified by a verification organization prior to submission of a claim to the department of health provided that the verification organization shall declare each service or item to be verified or unverified and provided that each participating provider shall receive and maintain reports for the verification organization which shall contain data on verified items or services including whether a service appeared on a conflict or exception report before verification and how that conflict or exception was resolved and items or services that were not verified, including conflict and exception report data for these services and provided that every service or item within a claim submitted by a participating provider shall be reviewed and verified by a verification organization prior to submission of a claim to the department of health provided that the verification organization shall declare each service or item to be verified or unverified. Provided, however, if this chapter appropriates sufficient additional funds to support participating providers of medical assistance program items subject to preclaim review otherwise provided for in the public health law, than the provisions of this section shall be deemed null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013:

1. The amount of personal care services covered by the medicaid program shall not exceed eight hours per week for individuals whose needs are limited to nutritional and environmental support functions.

2. The commissioner of health is authorized to adopt standards for the provision and management of personal care services covered by the medicaid program for individuals whose need for such services exceeds a specified level to be determined by the commissioner of health.

3. The commissioner of health is authorized to provide assistance to persons receiving personal care services covered by the medicaid program who are transitioning to receiving care from a managed long term care plan certified pursuant to section 4403-f of the public health law.

4. Provided, however, if this chapter appropriates sufficient additional funds to allow for the payment of personal care services at the level provided for in paragraph (e) of subdivision 2 of section 365-a of the social services law, then the provisions of this para-

graph shall not apply and shall be considered null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law or regulation and subject to the availability of federal financial participation,

(a) for the period April 1, 2011 through March 31, 2013, rates of payment by government agencies for services provided by certified home health agencies, except for such services provided to children under eighteen years of age and other discrete groups as may be determined by the commissioner, shall reflect ceiling limitations determined in accordance with this section, provided, however, that at the discretion of the commissioner such ceilings may, as an alternative, be applied to payments for services provided for the period April 1, 2011 through March 31, 2012, except for such services provided to children and other discrete groups as may be determined by the commissioner. In determining such payments or rates of payment, agency ceilings shall be established. Such ceilings shall be applied to payments or rates of payment for certified home health agency services as established pursuant to this section and applicable regulations. Ceilings shall be based on a blend of: (i) an agency's 2009 average per patient medicaid claims, weighted at a percentage as determined by the commissioner, and; (ii) the 2009 statewide average per patient medicaid claims adjusted by a regional wage index factor and an agency patient case mix index, weighted at a percentage as determined by the commissioner. Such ceilings will be effective April 1, 2011 through March 31, 2012. An interim payment or rate of payment adjustment effective April 1, 2011, shall be applied to agencies with projected average per patient medicaid claims, as determined by the commissioner, to be over their ceilings. Such agencies shall have their payments or rates of payment reduced to reflect the amount by which such claims exceed their ceilings.

(b) Ceiling limitations determined pursuant to subdivision (a) of this section shall be subject to reconciliation. In determining payment or rate of payment adjustments based on such reconciliation, adjusted agency ceilings shall be established. Such adjusted ceilings shall be based on a blend of: (i) an agency's 2009 average per patient medicaid claims adjusted by the percentage of increase or decrease in such agency's patient case mix from the 2009 calendar year to the annual period April 1, 2011 through March 31, 2012, weighted at a percentage as determined by the commissioner; and (ii) the 2009 statewide average per patient medicaid claims adjusted by a regional wage index factor and the agency's patient case mix index for the annual period April 1, 2011 through March 31, 2012, weighted at a percentage as determined by the commissioner. Such adjusted agency ceiling shall be compared to actual medicaid paid claims for the period April 1, 2011 through March 31, 2012. In those instances when an agency's actual per patient medicaid claims are determined to exceed the agency's adjusted ceiling, the amount of such excess shall be due from each such agency to the state and may be recouped by the department in a lump sum amount or through reductions in the medicaid payments due to the agency. In those instances where an interim payment or rate of payment adjustment was applied to an

agency in accordance with paragraph (a), and such agency's actual per patient medicaid claims are determined to be less than the agency's adjusted ceiling, the amount by which such medicaid claims are less than the agency's adjusted ceiling shall be remitted to each such agency by the department in a lump sum amount or through an increase in the medicaid payments due to the agency.

(c) Interim payment or rate of payment adjustments pursuant to this section shall be based on medicaid paid claims, as determined by the commissioner, for services provided by agencies in the base year 2009. Amounts due from reconciling rate adjustments shall be based on medicaid paid claims, as determined by the commissioner, for services provided by agencies in the base year 2009 and medicaid paid claims, as determined by the commissioner, for services provided by agencies in the reconciliation period April 1, 2011 through March 31, 2012. In determining case mix, each patient shall be classified using a system based on measures which may include, but not be limited to, clinical and functional measures, as reported on the federal Outcome and Assessment Information Set (OASIS), as may be amended.

(d) The commissioner may require agencies to collect and submit any data required to implement the provisions of this section.

(e) Payments or rate of payment adjustments determined pursuant to this section shall, for the period April 1, 2011 through March 31, 2012, be retroactively reconciled utilizing the methodology in paragraph (b) of this section and utilizing actual paid claims from such period.

(f) Notwithstanding any inconsistent provision of this section, payments or rate of payment adjustments made pursuant to this section shall not result in an aggregate annual decrease in medicaid payments to providers subject to this section that is in excess of $200,000,000, as determined by the commissioner and not subject to subsequent adjustment, and the commissioner shall make such adjustments to such payments or rates of payment as are necessary to ensure that such aggregate limits on payment decreases are not exceeded.

Notwithstanding any inconsistent provision of law or regulation and subject to the availability of federal financial participation, for the period April 1, 2012 through March 31, 2013, payments by government agencies for services provided by certified home health agencies, except for such services provided to children under eighteen years of age and other discreet groups as may be determined by the commissioner, shall be based on episodic payments. In establishing such payments, a statewide base price shall be established for each sixty day episode of care and adjusted by a regional wage index factor and an individual patient case mix index. Such episodic payments may be further adjusted for low utilization cases and to reflect a percentage limitation of the cost for high-utilization cases that exceed outlier thresholds of such payments. Episodic payments shall be based on medicaid paid claims, as determined and adjusted by the commissioner to achieve savings comparable to the prior state fiscal year, for services provided by all certified home health agencies in the base year 2009. The commissioner may require

agencies to collect and submit any data required to implement this subdivision.

Notwithstanding any contrary law, rule or regulation, for the period April 1, 2011 through March 31, 2013 medicaid rates of payments for services provided by certified home health agencies, by long term home health care programs or by an AIDS home care program, to patients diagnosed with Acquired Immune Deficiency Syndrome (AIDS) shall reflect no separate payment for home care nursing services.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013:

1. The commissioner of health is authorized to submit the appropriate waivers, including but not limited to those authorized pursuant to sections eleven hundred fifteen and nineteen hundred fifteen of the federal social security act or successor provisions, and any other waivers necessary to require, on or after April first, two thousand twelve, medical assistance recipients who are twenty-one years of age or older and who require community-based long term care services, as specified by the commissioner, for more than one hundred and twenty days, to receive such services through a managed long term care plan certified pursuant to section forty-four hundred three-f of the public health law or other program model that meets guidelines specified by the commissioner that support coordination and integration of services. Such other program models may include long term home health care programs that comply with such guidelines. Copies of such original waiver applications and amendments thereto shall be provided to the chairs of the senate finance committee, the assembly ways and means committee, and the senate and assembly health committees simultaneously with their submission to the federal government.

2. With respect to persons in receipt of long term care services prior to enrollment, the guidelines shall require the managed long term care plan to contract with agencies currently providing such services, in order to promote continuity of care. In addition, the guidelines shall require managed long term care plans to offer and cover consumer directed personal assistance services for eligible individuals who elect such services pursuant to section three hundred sixty-five-f of the social services law. The commissioner shall seek input from representatives of home and community based long term care services providers, recipients, and the Medicaid managed care advisory review panel, among others, to further evaluate and promote the transition of persons in receipt of home and community-based long term care services in to managed long term care plans and other care coordination models and to develop guidelines for such care coordination models. The guidelines shall be finalized and posted on the department's website no later than November fifteen, two thousand eleven.

3. With respect to persons required to enroll in managed long term care or other care coordination model pursuant to a waiver described in paragraph 1:

(a) Medical assistance recipients who are Native Americans shall not be required to enroll in a managed long term care plan or other care coordination model.

(b) The following medical assistance recipients shall not be eligible to participate in a managed long term care program or other care coordination model:

(i) a person who is expected to be eligible for medical assistance for less than six months, for a reason other than that the person is eligible for medical assistance only through the application of excess income toward the cost of medical care and services;

(ii) a person who is eligible for medical assistance benefits only with respect to tuberculosis-related services;

(iii) a person receiving hospice services at time of enrollment;

(iv) a person who has primary medical or health care coverage available from or under a third-party payor which may be maintained by payment, or part payment, of the premium or cost sharing amounts, when payment of such premium or cost sharing amounts would be cost-effective, as determined by the social services district;

(v) a person receiving family planning services pursuant to subparagraph eleven of paragraph (a) of subdivision one of section three hundred sixty-six of the social services law;

(vi) a person who is eligible for medical assistance pursuant to paragraph (v) of subdivision four of section three hundred sixty-six of the social services law.

(c) The following medical assistance recipients shall not be eligible to participate in a managed long term care program or other care coordination model until program features and reimbursement rates are approved by the commissioner of health and, where appropriate, the commissioner of the office for persons with developmental disabilities:

(i) a person enrolled in a managed care plan pursuant to section three hundred sixty-four-j of the social services law;

(ii) a participant in the traumatic brain injury waiver program;

(iii) a participant in the nursing home transition and diversion waiver program;

(iv) a person enrolled in the assisted living program;

(v) a person enrolled in home and community based waiver programs administered by the office for persons with developmental disabilities.

(d) Persons required to enroll in the managed long term care program or other care coordination model shall have no less than thirty days to select a managed long term care provider, and shall be provided with information to make an informed choice. Where a participant has not selected such a provider, the commissioner of health shall assign such participant to a managed long term care provider, taking into account quality, capacity and geographic accessibility.

(vii) Managed long term care provided and plans certified or other care coordination model established pursuant to this paragraph shall comply with the provisions of paragraphs (d), (i), and (t) and subparagraphs (a)(iii) and (e)(iv) of subdivision four of section three hundred sixty-four-j of the social services law.

4. An entity shall not need a designation by the majority leader of the senate, the speaker of the assembly, or the commissioner of health in order to apply for a certificate of authority as a managed long term care plan.
5. Managed long term care plans may be authorized by the department of health to cover primary care and acute care services. If a managed long term care plan does not cover primary, specialty, and acute care services, it must demonstrate a readiness and capability to coordinate such services.
6. Managed long term care enrollment applications will be processed by the department of health or its designee, and not by local departments of social services.
7. The commissioner of health is authorized to issue certificates of authority to up to seventy-five managed long term care plans. Provided, however, if this chapter appropriates sufficient additional funds to allow Medicaid payment for services on a fee-for-service basis without the savings to be achieved by requiring enrollment of Medicaid recipients in managed long term care plans or other care coordination models, and by streamlining the process for enrolling participants in managed long term care plans, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011 .....

4. Applicants for medicaid and pregnant women applying for presumptive eligibility under the medicaid program shall be required to choose a managed care provider at the time of application; if the participant does not choose such a provider, the commissioner of health shall assign the applicant to a managed care provider in accordance with subparagraphs (ii) through (v) of paragraph (f) of subdivision 4 of section 364-j of the social services law. Such contracts may provide for medicaid payments on a capitated basis for nursing facility, home care or other long term care services of a duration and scope determined by the commissioner of health.

Provided, however, if this chapter appropriates sufficient additional funds to allow such drugs to continue to be excluded as a benefit available to medical assistance and family health plus recipients through such comprehensive health services plans, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013, the commissioner of health is authorized to designate some or all of the drugs manufactured or marketed by a pharmaceutical

manufacturer as non-preferred drugs under the preferred drug program established pursuant to section 272 of the public health law if: the commissioner of health has previously designated such pharmaceutical manufacturer as one with whom the commissioner is negotiating a manufacturer agreement, and included the drugs it manufactures or markets on the preferred drug list; and the commissioner has not reached a manufacturer agreement with such manufacturer. Provided, however, if this chapter appropriates sufficient additional funds to require the commissioner of health to designate as non-preferred all of the drugs manufactured or marketed by a manufacturer with whom the commissioner has been unable to reach a manufacturer agreement, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013, for those drugs which may not be dispensed without a prescription as required by section 6810 of the education law and for which payment is authorized under the medical assistance program pursuant to subdivision 2 of section 365-a of the social services law, payments for such drugs and dispensing fees shall be as follows:

1. If the drug dispensed is a multiple source prescription drug for which an upper limit has been set by the federal centers for medicare and medicaid services, payment for the drug shall be the lower of: (a) an amount equal to the specific upper limit set by such federal agency for the multiple source prescription drug; (b) the estimated acquisition cost of such drug to pharmacies which, for purposes of this subparagraph, shall mean the average wholesale price of a prescription drug based on the package size dispensed from, as reported by the prescription drug pricing service used by the department, less twenty-five percent thereof; (c) the maximum acquisition cost, if any, established pursuant to paragraph (e) of this subdivision; (d) the dispensing pharmacy's usual and customary price charged to the general public; or (e) the average acquisition cost if available.

2. If the drug dispensed is a multiple source prescription drug or a brand-name prescription drug for which no specific upper limit has been set by such federal agency, payment for the drug shall be the lower of the estimated acquisition cost of such drug to pharmacies, the average acquisition cost if available, or the dispensing pharmacy's usual and customary price charged to the general public. For sole and multiple source brand name drugs, estimated acquisition cost means the average wholesale price of a prescription drug based upon the package size dispensed from, as reported by the prescription drug pricing service used by the department, less seventeen percent thereof, or the wholesale acquisition cost of a prescription drug based upon package size dispensed from, as reported by the prescription drug pricing service used by the department, minus zero and forty one hundredths percent thereof, and updated monthly by the department. For multiple source generic drugs, estimated acquisition cost means the lowest of the average acquisition cost if available, the average wholesale price of a

prescription drug based on the packaged size dispensed from, as reported by the prescription drug pricing service used by the department, less twenty-five percent thereof, or the maximum acquisition cost, if any, established pursuant to paragraph (e) of this subdivision.

3. (a) For prescription drugs categorized as generic by the prescription drug pricing service used by the department, the dispensing fee shall be three dollars and fifty cents per prescription.

(b) For prescription drugs categorized as generic by the prescription drug pricing service used by the department, the dispensing fee shall be four dollars and fifty cents per prescription if dispensed by a privately owned licensed pharmacy that is not affiliated with a chain pharmacy, is not owned or operated by a publicly traded company, and has a single location in a county within the state having a population of 125,000 or less, based on the most recent United States census data.

(c) For prescription drugs categorized as brand-name prescription drugs by the prescription drug pricing service used by the department, three dollars and fifty cents per prescription, provided, however, that for brand name prescription drugs reimbursed pursuant to subparagraph (ii) of paragraph (a-1) of subdivision four of section three hundred sixty-five-a of this title, the dispensing fee shall be four dollars and fifty cents per prescription.

4. The commissioner of health shall have the authority to establish the amount of payments and dispensing fees for drugs covered under the medical assistance program; provided, however, the commissioner shall not change the amounts of or method for such payments or dispensing fees on or after April first, two thousand eleven unless notice is given sixty days in advance of such change to the chairpersons of the senate finance committee, assembly ways and means committee, senate health committee, and assembly health committee. Provided, however, if this chapter appropriates sufficient additional funds to allow the medical assistance program to continue to pay for drugs and dispensing fees in the amounts described in subdivision 9 of section 367-a of the social services law, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013, the commissioner of health may designate therapeutic classes of drugs, including classes with only one drug, as all preferred drugs in the medicaid preferred drug program established pursuant to section 272 of the public health law prior to any review that may be conducted by the pharmacy and therapeutics committee created pursuant to section 271 of the public health law. In addition, if a non-preferred drug is prescribed and does not meet the criteria for approval of a non-preferred drug under subdivision 3 of section 273 of the public health law, after providing a reasonable opportunity for the prescriber to reasonably present his or her justification for prior authorization, prior authorization will be denied if the preferred drug program determines that the use of the non-preferred

is not warranted. Provided, however, if this chapter appropriates sufficient additional funds to allow the medicaid program to pay for non-preferred drugs which have been prescribed but whose use the preferred drug program has determined to be unwarranted, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013, the following drugs shall not be exempt from inclusion in the preferred drug program established pursuant to section 272 of the public health law: atypical anti-psychotics; anti-depressants; anti-retrovirals used in the treatment of HIV/AIDS; and anti-rejection drugs used for the treatment of organ and tissue transplants. Provided, however, if this chapter appropriates sufficient additional funds to allow such drugs to continue to be exempt from the prior authorization requirements of the preferred drug program, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011 .....

The director of the budget, in consultation with the commissioner of health, shall assess on monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation plan that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to

the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation plan; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the states.

The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

The commissioner may revise the medicaid savings allocation plan subsequent to the provisions of notice and prior to implementation but need provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this paragraph if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation plan is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation plan from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation plan, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or

suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h). The department of health shall prepare a monthly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision 1 of this section; and (b) the actions taken to implement any medicaid savings allocation plan implemented pursuant to subdivision 4 of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such monthly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

Notwithstanding any inconsistent provision of law, the moneys hereby appropriated may be increased or decreased by interchange or transfer with any appropriation of the department of health with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Notwithstanding subdivisions 5-a and 15 of section 355 of education law, for state financial assistance, net of disallowances, for operating expenses, including funds required to reimburse base aid costs for the 2012-13 and 2013-14 academic years, pursuant to regulations developed jointly with the city university trustees and approved by the director of the budget, and subject to the availability of appropriations therefor.

Provided, however, notwithstanding any other provision of law, rule, or regulation to the contrary, $3,000,000 of this appropriation shall be available for payment of the next generation NY job linkage program incentive fund awards distributed to community colleges on a pro-rata basis in accordance with a methodology and in a form and manner developed by the director of the budget, in consultation with the state university and city university, based on measures of student success for all students enrolled in programs that confer a credit-bearing certificate, an associate of occupational studies degree, or an associate of applied science degree, including but not limited to:

(1) The number of students who are employed following degree or certificate completion and their wage gains, if any, as determined by the department of labor, which

shall be given the greatest weighting of all measures of student success;

(2) The number of on-time degree completions, on-time certificate completions and student transfers to other institutions of higher education;

(3) The number of degree and certificate completions that do not meet the on-time requirement of the preceding item (2), which shall receive less weight than the preceding item (2);

(4) The number of degree and certificate completions under the preceding items (2) and (3) by a student considered academically at-risk due to economic disadvantage or other factor of underrepresentation within the field of study; and

(5) The number of students who make adequate progress towards completion of a degree or certificate, which may include accelerated completion of a developmental education program.

Provided further, however, on or before December 1, 2013, or an alternative date as determined by the director of the budget in consultation with the state university, the state university trustees shall submit a plan for approval by the director of the budget to allocate amounts available for payment of the next generation NY job linkage program incentive fund awards pursuant to this appropriation.

Provided further, however, notwithstanding any other law, rule, or regulation to the contrary, full funding for aidable community college enrollment for the college fiscal years 2013-14 and heretofore as provided under this appropriation is determined by the operating aid formulas defined in rules and regulations developed jointly by the boards of trustees of the state and city universities and approved by the director of the budget provided that local sponsors may use funds contained in reserves for excess student revenue for operating support of a community college program even though said expenditures may cause expenses and student revenues to exceed one-third of the college's net operating costs for the college fiscal year 2013-14 provided that such funds do not cause the college's

revenues from the local sponsor's contributions in aggregate to be less than the comparable amounts for the previous community college fiscal year and further provided that pursuant to standards and regulations of the state university trustees and the city university trustees for the college fiscal year 2013-14, community colleges may increase tuition and fees above that allowable under current education law if such standards and regulations require that in order to exceed the tuition limit otherwise set forth in the education law, local sponsor contributions either in the aggregate or for each full-time equivalent student shall be no less than the comparable amounts for the previous community college fiscal year.

Provided further, however, notwithstanding any other law, rule, or regulation to the contrary, funds appropriated herein for aidable community college enrollment attributable to programs that confer a credit-bearing certificate, an associate of occupational studies degree, or an associate of applied science degree, for the college fiscal year 2013-14 shall be limited to enrollment in a program that meets the following conditions:

(1) The program is a partnership between the community college and one or more employers to train and employ students in a specific occupation; or

(2) The program (a) prepares students for an occupation that meets current or emerging regional workforce needs based on a list provided by the department of labor based on available labor market data or identified as such by the applicable regional economic development council, and (b) has an advisory committee made up of members of whom the majority are employers in the occupation or sector, or a related sector, that employ or commit to employ workers in the region where the community college is located, and such committee serves to advise the community college on the program's curriculum, recruitment, placement and evaluation so that it remains up-to-date with employer needs.

Provided further, however, enrollment in programs that fail to meet either of the

requirements of the foregoing conditions (1) or (2) shall count in the determination of aidable college enrollment in the 2013-14 community college fiscal year only to the extent a student was enrolled in the same program and was counted in the determination of aidable college enrollment during, or prior to, the 2012-13 community college fiscal year.

Provided further, however, on or before November 1, 2013, the state university trustees shall submit a report to the director of the budget which includes an accounting of aidable college enrollment for purposes of determining amounts payable pursuant to this appropriation for programs that confer a credit-bearing certificate, an associate of occupational studies degree, or an associate of applied science degree, in such a form and manner as the director of the budget may require to verify compliance with conditions (1) or (2) of the foregoing and approve or deny payment for such programs thereof and provided further that, prior to submitting such report, the chancellor shall assist the director of the budget in an evaluation of whether there are additional workforce and vocational programs that shall be considered, in future years, for the purposes of the immediately preceding calculation and the calculation for the next generation NY job linkage program incentive fund 431,103,400
