AN ACT to amend the education law, in relation to establishing a geometry and algebra II/trigonometry regents prep course for New York school districts that have less than sixty-five percent of their students passing the geometry and algebra II/trigonometry regents

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Legislative findings. The legislature hereby finds that it  
2 is necessary to increase the percentage of students passing the geometry  
3 and algebra II/trigonometry regents in New York school districts. The  
4 geometry and algebra II/trigonometry regents examination for high school  
5 students is one of five major regents examinations required for high  
6 school students to obtain a general high school diploma. The legislature  
7 further finds that over twenty counties have averaged less than sixty-  
8 five percent of their students passing the geometry and algebra  
9 II/trigonometry regents examination. The legislature therefore enacts  
10 this legislation establishing a geometry and algebra II/trigonometry  
11 regents prep course to prepare students for the mathematics regents by  
12 reviewing previous regents exams and materials.
