AN ACT to amend the general business law and the agriculture and markets law, in relation to the labeling of genetically engineered foods

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Legislative findings and intent. The legislature finds that New York state consumers have the right to know whether the foods they purchase have been entirely genetically engineered or partially produced with genetic engineering so they can make informed purchasing decisions. Labeling is necessary to ensure that New York consumers are fully and reliably informed about the products they purchase and consume. Further the legislature finds that:

(a) Currently, there is no federal law that requires food producers to identify whether foods were produced with genetic engineering. At the same time, the United States Food and Drug Administration (FDA) does not require safety studies of such foods. Unless these foods contain a known

allergen, the FDA does not require the developers of genetically engineered foods to consult with the agency. Consultations with the FDA are entirely voluntary;

(b) Mandatory identification of foods produced with genetic engineering can provide a critical method for tracking any potential short-term and long-term health effects of consuming foods produced with genetic engineering;

(c) Polls consistently show that the vast majority of the public wants to know if their food has been produced with genetic engineering;

(d) More than sixty countries, including Japan, South Korea, China, Australia, New Zealand, Thailand, Russia, the European Union member states, and other key United States trading partners, have laws mandating disclosure of genetically engineered foods;

(e) A variety of genetically engineered crops are commercially cultivated and sold in the United States, including corn, canola, soybean, cotton, sugar beets, alfalfa, and papaya. It has been estimated that 60-70% of packaged grocery products contain some materials produced with genetic engineering, typically derived from genetically engineered soy, sugar beets, and/or corn. Consumers should be provided with the information necessary to make informed decisions when choosing food to buy for themselves and their families;

(f) Without disclosure, consumers with certain dietary restrictions may unknowingly consume such food in violation of such dietary restrictions;

(g) Preserving the identity, quality, and reliability of agricultural products is of prime importance to our state's fiscal health;

(h) The cultivation of genetically engineered crops can cause serious environmental impacts. For example, most genetically engineered crops are designed to withstand weed-killing herbicides. Because genetically engineered crops are more resistant to herbicides, their cultivation has resulted in the application of millions of additional pounds of herbicides to the nation's farmland. The massive increase in the use of herbicides has led to the emergence of herbicide-resistant weeds, which have infested farm fields and roadsides, complicating weed control for farmers and encouraging the use of increasingly toxic and more dangerous herbicides. Toxic herbicides damage the vitality of the soil, contaminate drinking water supplies, and pose health risks to consumers and farm workers. New York consumers should have the ability to avoid purchasing foods produced in ways that can lead to such environmental harm;

(i) Conventional, non-organic farmers have a right to choose what crops they grow and many conventional farmers want to grow traditional crops developed without genetic engineering. Identifying seeds and seed stock produced with genetic engineering would protect the farmers' right to know what they are purchasing and protect their right to choose what they grow;

(j) Identifying foods produced with genetic engineering will help protect our state's export market because many of our trading partners have bans on the import and cultivation of genetically engineered seed and food as well as laws mandating the labeling of genetically engineered seed and foods;

(k) It is the intent of this act to ensure that New York consumers and farmers are fully and reliably informed about whether the food and seed they purchase and eat were produced with genetic engineering so they may choose for themselves whether to purchase and eat or use such food, seed, and seed stock;

(l) It is the intent of this act to enable improved tracking of genetically engineered food consumption and of any potential health impacts; and

(m) It is the intent of this act only to regulate food for human consumption offered for retail sale within New York state.

S 2. The general business law is amended by adding a new section 391-t to read as follows:

(J) "RETAILER" MEANS A PERSON OR BUSINESS ENGAGED IN SELLING FOOD FROM INDIVIDUALS OR BUSINESSES TO THE END-USER.

2. LABELING OF GENETICALLY ENGINEERED FOODS. (A) ANY FOOD FOR HUMAN CONSUMPTION OFFERED FOR RETAIL SALE IN NEW YORK IS MISBRANDED IF IT IS ENTIRELY GENETICALLY ENGINEERED OR PARTIALLY PRODUCED WITH GENETIC ENGINEERING AND THAT FACT IS NOT DISCLOSED AS FOLLOWS:

(I) IN THE CASE OF A RAW AGRICULTURAL COMMODITY THAT IS NOT SEPARATELY PACKAGED OR LABELED, THE WORDS "PRODUCED WITH GENETIC ENGINEERING" OR ANY OTHER DERIVATIVE OF THOSE WORDS, THE INITIALS "GE", "GM", OR "GMO", OR DERIVATIVE OF THOSE PHRASES, SHALL BE PLACED ON THE CONTAINER USED FOR PACKAGING, HOLDING, AND/OR TRANSPORT IN A CLEAR AND CONSPICUOUS MANNER BY THE MANUFACTURER, AND MAINTAINED BY THE DISTRIBUTOR, AND DISPLAYED IN A CLEAR AND CONSPICUOUS MANNER ON THE RETAIL STORE SHELF OR BIN IN WHICH SUCH COMMODITY IS OFFERED FOR SALE BY THE RETAILER.

(II) IN THE CASE OF PROCESSED FOOD CONTAINING SOME PRODUCTS OF GENETIC ENGINEERING, THE MANUFACTURER MUST LABEL THE FOOD, IN A CLEAR AND CONSPICUOUS MANNER ON THE PACKAGE OF SUCH FOOD, WITH THE WORDS "PRODUCED WITH GENETIC ENGINEERING" OR ANY OTHER DERIVATIVE OF THOSE WORDS, THE INITIALS "GE", "GM", "GMO", OR DERIVATIVE OF THOSE PHRASES.

(III) IN THE CASE OF ANY SEED OR SEED STOCK, THE MANUFACTURER OR OTHER ENTITY RESPONSIBLE FOR PRODUCING THE SEED MUST LABEL THE SEED OR SEED STOCK CONTAINER, THE SALES RECEIPT, AND ANY OTHER REFERENCE TO IDENTIFICATION, OWNERSHIP, OR POSSESSION, IN A CLEAR AND CONSPICUOUS MANNER WITH THE WORDS "PRODUCED WITH GENETIC ENGINEERING" OR ANY OTHER DERIVATIVE OF THOSE WORDS, THE INITIALS "GE", "GM", "GMO", OR DERIVATIVE OF THOSE PHRASES.

(B) THIS SECTION SHALL NOT BE CONSTRUED TO REQUIRE EITHER THE LISTING OR IDENTIFICATION OF ANY INGREDIENTS THAT WERE GENETICALLY ENGINEERED, NOR THAT THE PHRASE "PRODUCED WITH GENETIC ENGINEERING" OR ANY OTHER DERIVATIVE OF THOSE WORDS, THE INITIALS "GE", "GM", "GMO", OR DERIVATIVE OF THOSE PHRASES BE PLACED IMMEDIATELY PRECEDING ANY COMMON NAME OR PRIMARY PRODUCT DESCRIPTOR OF A FOOD.

(C) ANY PROCESSED FOOD THAT WOULD BE SUBJECT TO THIS SECTION SOLELY BECAUSE IT INCLUDES ONE OR MORE MATERIALS PRODUCED WITH GENETIC ENGINEERING IS NOT MISBRANDED PROVIDED THAT THE GENETICALLY ENGINEERED MATERIALS IN THE AGGREGATE DO NOT ACCOUNT FOR MORE THAN NINE-TENTHS OF ONE PERCENT OF THE TOTAL WEIGHT OF THE PROCESSED FOOD.

(D) THIS SUBDIVISION DOES NOT APPLY TO ANY OF THE FOLLOWING:

(I) FOOD CONSISTING ENTIRELY OF, OR DERIVED ENTIRELY FROM, AN ANIMAL THAT HAS NOT ITSELF BEEN GENETICALLY ENGINEERED, REGARDLESS OF WHETHER THE ANIMAL HAS BEEN FED WITH ANY FOOD PRODUCED WITH GENETIC ENGINEERING OR TREATED WITH ANY DRUG OR VACCINE THAT HAS BEEN PRODUCED WITH GENETIC ENGINEERING;
