- AN ACT to amend the public health law, in relation to requirements for collective negotiations by health care providers with certain health benefit plans in certain counties, and providing for the repeal of such provisions upon the expiration thereof

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Statement of legislative intent. The legislature finds that 1 2 collective negotiation by competing health care providers for the terms 3 and conditions of contracts with health plans can result in beneficial 4 results for health care consumers. The legislature further finds 5 instances where health plans dominate the market to such a degree that 6 fair and adequate negotiations between health care providers and the 7 plans are adversely affected, so that it is necessary and appropriate to 8 provide for a demonstration to examine the risks and benefits associated 9 with a system of collective action on behalf of health care providers. Consequently, the legislature finds it appropriate and necessary in the 10 demonstration service area to displace competition with regulation of 11 health plan-provider agreements and authorize collective negotiations on 12 13 the terms and conditions of the relationship between health care plans 14 and health care providers so the imbalances between the two will not 15 result in adverse conditions of health care.
