AN ACT to amend the civil service law, in relation to long term care  
counseling

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEM-  
BLY, DO ENACT AS FOLLOWS:

1     Section 1. Legislative intent. The legislature hereby finds that  
2     understanding and planning for one's own long term care needs is crit-  
3     ically important and will continue to be important given demographic  
4     changes, medical technology which prolongs life, the cost of long term  
5     care and Medicaid's stake in its financing. Given these factors, the  
6     workplace can play a significant educational and counseling role. Fami-  
7     lies will continue to face long term care issues and it is incumbent  
8     upon the state to aid state, municipal and other public employees to  
9     understand long term care and its impact on an individual's health and  
10    wellness as well as help those workers by providing information on where  
11    to go to find assistance and support should a family member require long  
12    term care services. The workplace can be instrumental in counseling at  
13    the time of hiring, during employment and prior to retirement in provid-  
14    ing educational resources to enable employees to understand their  
15    options and encourage their own planning for long term care. This strat-  
16    egy will help the individual and their family prepare for and understand  
17    their risk should long term care services be required. This strategy  
18    will also have a positive impact on state and local governments' Medi-  
19    caid spending if individuals prepare for their long term care with tools  
20    such as long term care insurance or reverse mortgages. These tools will  
21    enable individuals to pay up front for their long-term care expenses and  
22    delay application to receive such financing under the Medicaid program.

EXPLANATION--Matter in ITALICS (underscored) is new; matter in brackets  
[ ] is old law to be omitted.
