For purposes of this subdivision, the term "conservation easement" means a perpetual and permanent conservation easement as defined in article forty-nine of the environmental conservation law that serves to protect open space, scenic, natural resources, biodiversity, agricultural, watershed and/or historic preservation resources. Any conservation easement for which a tax credit is claimed under this subdivision shall be filed with the department of environmental conservation, as provided for in article forty-nine of the environmental conservation law and such conservation easement shall comply with the provisions of title three of such article, and the provisions of subdivision (h) of section 170 of the internal revenue code. Deductions of land for open space through the execution of conservation easements for the purpose of fulfilling density requirements to obtain subdivision or building permits shall not be considered a conservation easement under this subdivision.

(3) Land. For purposes of this subdivision, the term "land" means a fee simple title to real property located in this state, with or without improvements thereon; rights of way; water and riparian rights; easements; privileges and all other rights or interests of any land or description in, relating to or connected with real property, excluding buildings, structures, or improvements.

For purposes of this subdivision, the term "public or private conservation agency" means any state, local, or federal governmental body; or any private not-for-profit charitable corporation or trust which is authorized to do business in the state of New York, is organized and operated to protect land for natural resources, conservation or historic preservation purposes, is exempt from federal income taxation under section 501(c)(3) of the internal revenue code, and has the power to acquire, hold and maintain land and/or interests in land for such purposes.
