S 3. This act shall take effect July 1, 2013.

FISCAL NOTE.--Insofar as this bill would amend the Retirement and Social Security Law, it is estimated that there would be an additional annual cost of approximately \$43,000 above the approximately \$9 million current annual cost of this benefit. This cost would be shared by the State of New York and all participating employers of the New York State and Local Police and Fire Retirement System.

Summary of relevant resources:

Data: March 31, 2012 Actuarial Year End File with distributions of membership and other statistics displayed in the 2012 Report of the Actuary and 2012 Comprehensive Annual Financial Report.

Assumptions and Methods: 2010, 2011 and 2012 Annual Report to the Comptroller on Actuarial Assumptions, Codes Rules and Regulations of the State of New York: Audit and Control.

Market Assets and GASB Disclosures: March 31, 2012 New York State and Local Retirement System Financial Statements and Supplementary Information.

Variations of Benefit Liabilities and Actuarial Assets: summarized in the 2012 Actuarial Valuations report.

I am a member of the American Academy of Actuaries and meet the Qualification Standards to render the actuarial opinion contained.

This estimate, dated January 7, 2013 and intended for use only during the 2013 Legislative Session, is Fiscal Note No. 2013-37, prepared by the Actuary for the New York State and Local Police and Fire Retirement System.

FISCAL NOTE.-- PROVISIONS OF PROPOSED LEGISLATION - OVERVIEW: With respect to the City of New York (the "City"), this proposed legislation would amend General Municipal Law ("GML") Section 208-f.c to increase certain Special Accidental Death Benefits ("SADB") for line-of-duty widows/widowers and/or children of former uniformed employees of the City and the New York City Health and Hospitals Corporation and certain

former employees of the Triborough Bridge and Tunnel Authority who were members of certain New York City Retirement Systems ("NYCRS").

The Effective Date of the proposed legislation would be July 1, 2013.

IMPACT ON BENEFITS - SADB RECIPIENTS: With respect to the NYCRS, the proposed legislation would impact the SADB payable to certain survivors of members of the:

- * New York City Employees' Retirement System ("NYCERS"), or
- * New York City Police Pension Fund ("POLICE"), or
- * New York City Fire Department Pension Fund ("FIRE"), and

who were employed by one of the following employers in certain positions:

- * New York City Police Department - Uniformed Position,
- * New York City Fire Department - Uniformed Position,
- * New York City Housing Authority - Uniformed Position,
- * New York City Transit Authority - Uniformed Position,
- * New York City Department of Correction - Uniformed Position,
- * New York City - Uniformed Position as Emergency Medical Technician ("EMT"),
- * New York City Health and Hospitals Corporation - Uniformed Position as EMT, or
- * Triborough Bridge and Tunnel Authority - Bridge and Tunnel Position.

DESCRIPTION OF BENEFITS PAYABLE: Under the GML, the basic SADB is defined to equal:

The salary of the deceased member at date of death (or, in certain instances, a greater salary based on rank or other status) ("Final Salary"), less:

- * Any death benefit as adjusted by any Supplementation or Cost-of-Living Adjustment ("COLA") paid by the NYCRS to the member's survivors,
- * Any death benefit paid by Social Security to the member's survivors, and
- * Any Worker's Compensation benefit paid to the member's survivors.

The SADB is paid to the deceased member's surviving widow or widower, if alive. If the widow/widower is no longer alive, then the SADB is paid to the deceased member's children until age eighteen or while attending school until age twenty-three.

The GML also provides that the SADB is subject to escalation based on the calendar year of death of the member. Each year since Calendar Year 1977 the SADB has been increased by an additional cumulative, incremental percentage of Final Salary. For example, for a covered member deceased in Calendar Year 1979, the SADB cumulative percentage is 165.2% of Final Salary as of July 1, 2012.

Under the proposed legislation, the additional, incremental percentage of Final Salary to be effective July 1, 2013 would be 3.0%.

FINANCIAL IMPACT - EMPLOYER PAYMENTS: With respect to the NYCRS, as these SADB are provided on a pay-as-you-go basis, the additional annual employer payments expected to be paid during the first year, if the proposed legislation is enacted, would equal approximately \$2.5 million.

Note: These additional payments represent an increase of approximately 4.6% in the estimated SADB payments during the first year.

The SADB payments are made by the NYCRS who are reimbursed by the City.

Where previously the State of New York (the "State") reimbursed the City for most GML 208.f payments, it is the understanding of the Actuary that since 2009 the State has limited its reimbursement to a fixed amount. Should this amount not be increased, then the additional cost

of this proposed legislation would be borne entirely by the City of New York.

FINANCIAL IMPACT - ACTUARIAL PRESENT VALUES OF BENEFITS ("APVB"): With respect to the survivors of deceased NYCERS members who would be impacted by this proposed legislation, under the actuarial assumptions used in the June 30, 2011 (Lag) actuarial valuations of the NYCERS, including an Actuarial Interest Rate ("AIR") assumption of 7.0% per annum, the enactment of this proposed legislation would increase APVB by approximately \$29.5 million as of June 30, 2013.

Based on the same demographic actuarial assumptions but with an AIR assumption of 4.0% per annum, the enactment of this proposed legislation would increase APVB by approximately \$40.1 million as of June 30, 2013.

OTHER COSTS: The enactment of this proposed legislation would also be expected to result in modest increases in administrative expenses of NYCERS, POLICE, FIRE, the employers and certain New York City agencies.

CENSUS DATA: The financial impact of the proposed legislation is based upon the census data for such widows, widowers and children provided by the NYCERS and adjusted, as necessary, to prepare the computations and for consistency with other data.

The following table shows, by Retirement System, the number of deceased members with eligible survivors as of June 30, 2012 and the estimated annual SADB rate prior to the increase proposed to be effective as of July 1, 2013.

Table 1

SADB Census Data as of June 30, 2012

(\$ Millions)

Retirement System	Number of Deceased Members with Eligible Survivors	Annual SADB Rate Prior to Proposed July 1, 2013 Increase
NYCERS	27	\$ 1.1
POLICE	310	16.1
FIRE	607	37.5
Total	944	\$ 54.7

ACTUARIAL ASSUMPTIONS AND METHODS: Additional APVB have been computed based on the actuarial assumptions and methods in effect for the June 30, 2011 (Lag) actuarial valuations of NYCERS, POLICE and FIRE used to determine the Preliminary Fiscal Year 2013 employer contributions, including an AIR assumption of 7.0% per annum (net of Investment Expenses).

The demographic actuarial assumptions were adopted by the Board of Trustees of each NYCERS during Fiscal Year 2012 and the AIR assumption was enacted by the New York State Legislature and Governor as Chapter 3 of the Laws of 2013 ("Chapter 3/13").

Additional APVB have also been developed using an AIR assumption of 4.0% per annum that could be more consistent with the potential cost of debt issued by the State of New York or the City of New York under a long-term Consumer Price Inflation ("CPI") assumption of 2.5% per year.

ECONOMIC VALUE OF BENEFITS: The actuarial assumptions used in the June 30, 2011 (Lag) actuarial valuations of the NYCERS are appropriate for budgetary models and for determining annual employer contributions to the NYCERS.

However, these actuarial assumptions used to determine employer contributions do not develop risk-adjusted, economic values of benefits. In the current economic environment of low U.S. Treasury security yields, such risk-adjusted, economic values of benefits could be significantly greater than the APVB developed herein.

STATEMENT OF ACTUARIAL OPINION: I, Robert C. North, Jr., am the Chief Actuary for the New York City Retirement Systems. I am a Fellow of the Society of Actuaries and a Member of the American Academy of Actuaries. I meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein.

FISCAL NOTE IDENTIFICATION: This estimate is intended for use only during the 2013 Legislative Session. It is Fiscal Note 2013-05R, dated March 19, 2013, prepared by the Chief Actuary for the New York City Employees' Retirement System, the New York City Police Pension Fund and the New York City Fire Department Pension Fund.
