- AN ACT to establish the New York state automatic identification technology privacy task force

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Legislative intent. The legislature finds that new technol-1 ogies can have a profound impact on people and social systems. 2 The use 3 of new technologies can be very beneficial, but care must be taken to 4 ensure that such technologies are used responsibly. Automated systems 5 used to identify, track, record, store and transfer data, commonly б referred to as automatic identification technology, are increasingly 7 being used by public and private entities, including retailers, manufac-8 turers, and hospitals. The legislature recognizes that as the price of 9 automatic identification technology decreases, the employment of this 10 technology is expected to increase rapidly. The legislature further recognizes that automatic identification technologies may have privacy 11 implications affecting consumers and the general public. The legislature 12 13 further recognizes that such technology has numerous applications beneficial to public and private entities and affecting both consumers 14 and the general public. The legislature further recognizes that understand-15 16 ing various applications and potential privacy concerns regarding auto-17 matic identification technology is an area that needs study and review 18 in order to determine what protections, if any, are needed to protect 19 personal privacy.

EXPLANATION--Matter in ITALICS (underscored) is new; matter in brackets
[] is old law to be omitted.
