AN ACT to amend the public health law, the tax law, the general business law and the penal law, in relation to medical use of marihuana

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Legislative findings and intent. The legislature finds that
2 thousands of New Yorkers have serious medical conditions that can be
3 improved by medically-approved use of marihuana. The law should not
4 stand between them and treatment necessary for life and health. This
5 legislation follows the well-established public policy that a controlled
6 substance can have a legitimate medical use. Many controlled substances
7 that are legal for medical use (such as morphine and steroids) are ille-
8 gal for any other use. The purposes of article 33 of the public health
9 law include allowing legitimate medical use of controlled substances in
10 health care, including palliative care. This legislation establishes a
11 medical model of care which regulates medical marihuana as a recommended
12 medicine in keeping with recognized medical public health and safety
13 standards. This policy and this legislation do not in any way diminish

EXPLANATION--Matter in *ITALICS* (underscored) is new; matter in brackets
[] is old law to be omitted.

LBD01604-08-3

1 New York state's strong public policy and laws against illegal drug use,
2 nor should it be deemed in any manner to advocate, authorize, promote,
3 or legally or socially accept the use of marihuana for children or
4 adults, for any non-medical use. This legislation is an appropriate
5 exercise of the state's legislative power to protect the health of its
6 people under article 17 of the state constitution and the tenth amend-
7 ment of the United States constitution. Furthermore, the legislature
8 finds that New York state has a significant and ongoing economic and
9 non-regulatory interest in the financial viability of organizations that
10 sell marihuana for medical use. The legislature finds that the financial
11 viability of such organizations would be greatly diminished and threat-
12 ened by labor-management conflict, such as a strike at a facility that
13 cultivates marihuana, especially because of the need for enhanced secu-
14 rity concerning the products. Replacements during a strike would be
15 difficult to arrange and cause delay far more significant than a strike
16 elsewhere. Accordingly, the legislature finds that the state has a
17 substantial and compelling proprietary interest in this matter, and
18 finds that labor peace is essential for any organization to conduct
19 business relating to the sale of medical marihuana.

20 It is the legislative intent that this act be implemented consistently
21 with these findings and principles, through a reasonable and workable
22 system with appropriate oversight; strong "seed to sale" regulation to
23 prevent diversion, abuse, and other illegal conduct; reasonable access
24 to and appropriate use of medical marihuana by certified patients; eval-
25 uation; and continuing research.

26 S 2. Article 33 of the public health law is amended by adding a new
27 title 5-A to read as follows:
