April 25, 2013

Introduced by M. of A. SKARTADOS -- read once and referred to the
Committee on Ways and Means

AN ACT to amend the tax law, in relation to creating a tax credit for
people who deliver broadband services to a target group of subscrib-
ers; and providing for the repeal of such provisions upon expiration
thereof

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEM-
BLY, DO ENACT AS FOLLOWS:

1 Section 1. This act shall be known and may be cited as the "Broadband
2 Internet Access Act of 2013".
3 S 2. Legislative intent. The telecommunications revolution is trans-
4 forming virtually every aspect of American life. Encouraging rapid
5 development of broadband infrastructure, and ensuring the ubiquitous
6 availability of current and next generation broadband capacity, is an
7 urgent priority of the legislature. Increasing the speed at which Ameri-
8 cans can access the internet is necessary to ensure the economic expan-
9 sion of the state of New York. End users from all parts of the state,
10 including urban, rural and low income areas, should be afforded a choice
11 among carriers, high-speed access to a wide array of audio and data
12 applications, and the opportunity to take advantage of the prospects
13 created by the deployment and use of current and next generation broad-
14 band facilities. Accordingly, it is appropriate for the legislature to
15 take action to accelerate the deployment of current and next generation
16 broadband capability in the state of New York.
17 S 3. The tax law is amended by adding a new section 39 to read as
18 follows:
