40 S 4. This act shall take effect immediately.

FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would grant additional service credit for certain members of public retirement systems who rendered service in 1983 and 1984 in a position created or filled pursuant to the federal Emergency Jobs Appropriations Act of 1983. Members would be required to make any contribution which would have been made during such period of service, together with interest thereon.

The exact number of members who would be affected by this bill cannot be readily determined.

Insofar as this bill would affect the New York State and Local Employee's Retirement System (ERS) and the New York State and Local Police and Fire Retirement System (PFRS), if this bill is enacted, there would be a past service cost which would depend upon the number of members affected and upon each member's age, salary, credited service, plan coverage and tier.

ERS costs: It is estimated that the one time cost will average approximately 15% of compensation for each additional year of service. This cost would be reduced by the member contributions, which vary according to tier coverage, and will range between 0% to 6% of compensation. Pursuant to Section 25 of the Retirement and Social Security Law, these costs would be borne by the State of New York, and would require an itemized appropriation by the State of New York sufficient to pay the costs of the provision.

PFRS costs: It is estimated that the past service cost will average approximately 20% of an affected members' compensation for each year of additional service. This cost would be reduced by the member contributions, which vary according to tier coverage, and will range between 0% to 6% of compensation. These costs would be shared by the State of New York and all participating employers in the PFRS.
