June 17, 2013

Introduced by M. of A. PERRY, LENTOL, BRENNAN, BARRON, MOSLEY, CAMARA, MILLMAN, COLTON, ROBINSON, JACOBS, CYMBROWITZ, MAISEL, ABBATE, ESPINAL, BROOK-KRASNY -- read once and referred to the Committee on Ways and Means

AN ACT to amend part Q of chapter 56 of the laws of 2013 amending the education law and other laws relating to funding to SUNY Downstate Medical Center, in relation to a sustainability plan for a hospital

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Legislative intent. The legislature hereby finds and
2 declares that a strong academic medical center which controls its own
3 and its affiliated clinical facilities is the central organizing principle
4 of urban health care in America in 2013. SUNY Downstate Medical
5 Center must fully maintain its public status and be the lead institution
6 in meeting the significant unmet health care needs in Brooklyn including
7 providing expanded primary and ambulatory care in the neighborhoods that
8 need it the most. All other states' experience, as well as the last
9 seven years of experience in Brooklyn, indicates that if SUNY Downstate
10 does not take leadership of this mission it will not get done.
11 Over the next three years, SUNY Downstate Hospital should develop up
12 to four decentralized, freestanding primary and ambulatory care satellites.
13 Funding for these satellites is anticipated from monetizing the
14 net asset value of real estate acquired with the Long Island College
15 Hospital while still operating Long Island College Hospital as a health
16 care facility. Two thirds of the net asset value of the Long Island
17 College Hospital real estate will be devoted to subsidy of SUNY Downstate
18 Hospital and Long Island College Hospitals' operations during a
19 three year transition and development period.
20 The implementation of this legislation will make SUNY Downstate Hospital
21 sustainable and restore the state subsidy to its historic level. Its
22 implementation is an alternative to closing LICH and laying off a mini-

1 mum of 600 health care workers in Brooklyn which has one of the highest
2 unemployment rates in New York. It makes no sense to lay off health care
3 workers if they can be retrained to provide the primary care that
4 central and western Brooklyn desperately needs.

5 S 2. Part Q of chapter 56 of the laws of 2013 amending the education
6 law and other laws relating to funding to SUNY Downstate Medical Center,
7 is amended by adding a new section 5-a to read as follows:
