45 PART CC

This act shall be known and may be cited as the "Rockland Section 1. 47 Bergen Flood Mitigation act".

S 2. The legislature finds and declares that the states of New York 48 and New Jersey and their respective citizens share a common concern to 49 50 protect their personal safety and property through the identification and remediation of potential flood hazards along the tributaries and 51 watersheds of the Hackensack River, Mahwah River, Ramapo River, 52

River, and Sparkill Brook/Creek that cross the interstate border region. The identification and remediation of potential flood hazards requires a 3 comprehensive approach. A bi-state comprehensive flood prevention approach will also help ensure the preservation and maintenance of the environmentally beneficial impacts of the tributaries 5 6 watersheds of the Hackensack River, Mahwah River, Ramapo River, Saddle 7 River, and Sparkill Brook/Creek. A bi-state approach will encourage open 8 space and recreational opportunities along the tributaries 9 watersheds of the Hackensack River, Mahwah River, Ramapo River, Saddle 10 River, and Sparkill Brook/Creek. The legislature further finds that 11 there has been a long history of cooperation among state and local governmental entities and various private organizations and individuals 12 13 in the vicinity of the tributaries and watersheds of the Hackensack 14 River, Mahwah River, Ramapo River, Saddle River, and 15 Brook/Creek.

The legislature therefore determines that there is a need to endorse and formalize that bi-state cooperative effort to identify and remediate potential flood hazards and to protect the natural, scenic and recreational opportunities of the tributaries and watersheds of the Hackensack River, Mahwah River, Ramapo River, Saddle River, and Sparkill Brook/Creek. The legislature further determines that the creation of a bi-state task force is an appropriate means to accomplish these very important goals.
