AN ACT to amend the public health law, the tax law, the general business law and the penal law, in relation to medical use of marihuana

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Legislative findings and intent. The legislature finds that
2 thousands of New Yorkers have serious medical conditions that can be
3 improved by medically-approved use of marihuana. The law should not
4 stand between them and treatment necessary for life and health. This
5 legislation follows the well-established public policy that a controlled
6 substance can have a legitimate medical use. Many controlled substances
7 that are legal for medical use (such as morphine and steroids) are ille-
8 gal for any other use. The purposes of article 33 of the public health
9 law include allowing legitimate medical use of controlled substances in
10 health care, including palliative care. This legislation establishes a
11 medical model of care which regulates medical marihuana as a recommended
12 medicine in keeping with recognized medical public health and safety

standards. This policy and this legislation do not in any way diminish New York state's strong public policy and laws against illegal drug use, nor should it be deemed in any manner to advocate, authorize, promote, or legally or socially accept the use of marihuana for children or adults, for any non-medical use. This legislation is an appropriate exercise of the state's legislative power to protect the health of its people under article 17 of the state constitution and the tenth amendment of the United States constitution. Furthermore, the legislature finds that New York state has a significant and ongoing economic and non-regulatory interest in the financial viability of organizations that sell marihuana for medical use. The legislature finds that the financial viability of such organizations would be greatly diminished and threatened by labor-management conflict, such as a strike at a facility that cultivates marihuana, especially because of the need for enhanced security concerning the products. Replacements during a strike would be difficult to arrange and cause delay far more significant than a strike elsewhere. Accordingly, the legislature finds that the state has a substantial and compelling proprietary interest in this matter, and finds that labor peace is essential for any organization to conduct business relating to the sale of medical marihuana.

It is the legislative intent that this act be implemented consistently with these findings and principles, through a reasonable and workable system with appropriate oversight; strong "seed to sale" regulation to prevent diversion, abuse, and other illegal conduct; reasonable access to and appropriate use of medical marihuana by certified patients; evaluation; and continuing research.

S 2. Article 33 of the public health law is amended by adding a new title 5-A to read as follows:
