22 which he or she would have been entitled had his or her current member-

24 the purposes of granting retirement credit to members of a public
25 retirement system other than the New York city teachers' retirement

5 whose original date of membership was prior to July first, nineteen
6 hundred seventy-three shall be entitled to all the rights, benefits and
7 privileges to which he or she would have been entitled had he or she
8 been in active service on June thirtieth, nineteen hundred seventy-

20 provided further, that any retirees qualifying under this act shall have
21 their retirement allowance recalculated from July 1, 2013 or the date of

FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would amend subdivisions 2 and 4 of Section 645 of the Retirement and Social Security Law to extend the tier reinstatement provisions to any retiree of a public retirement system. The retiree must be alive as of the effective date of the bill in order to be eligible. This bill only applies to payments made on or after the effective date of this act.

The annual cost to the employers of members of the New York State Teachers' Retirement System for this benefit is estimated to be \$6.0 million or .04% of payroll if this bill is enacted.

The source of this estimate is Fiscal Note 2013-30 dated May 9, 2013 prepared by the Actuary of the New York State Teachers' Retirement System and is intended for use only during the 2013 Legislative Session. I, Richard A. Young, am the Actuary for the New York State Teachers' Retirement System. FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would allow certain living retirees of New York public retirement systems who retired prior to December 16, 1999 and who previously were members of a New York public retirement system to be deemed to have become members of the systems from which they retired as of the original date of such previous ceased membership. Tier 3 and 4 retirees of the New York State and Local Employees' Retirement System or the New York State Teachers' Retirement System who become Tier 1 or 2 retirees and who have already purchased their previous service would receive a refund of these contributions. No benefits will be deemed to have accrued prior to the effective date of this act.

In addition, this bill would also affect retirees who had a previous ceased membership with a public employee retirement system other than the NYS&LERS or the NYS&LPFRS.

If this bill is enacted, insofar as this bill affects the New York State and Local Employees' Retirement System (ERS), approximately 1,434

retirees of the ERS will be affected. The estimated past service cost would be approximately \$15.1 million.

Pursuant to section 25 of the Retirement and Social Security Law, this ERS past service cost would be borne by the State of New York and would require an itemized appropriation by the State of New York sufficient to pay the cost of the provision. The State may amortize this past service cost over a period of 5 years. The first year cost, including interest would be approximately \$3.5 million.

Insofar as this bill would affect employers in the New York State and Local Police and Fire Retirement System (PFRS), the estimated additional costs would be negligible. These costs would be shared by the State of New York and the participating employers in the PFRS.
