2013-2014 Regular Sessions

IN SENATE

May 16, 2013

Introduced by Sen. MARCELLINO -- read twice and ordered printed, and when printed to be committed to the Committee on Finance

AN ACT to amend the executive law, in relation to coastal risk management zones; to amend the environmental conservation law, in relation to the assessment and protection of coastlines against coastal hazards; and to amend the village law, the town law, the general city law and the public service law, in relation to coastal protection

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Short title. This act shall be known and may be cited as 2 the "Coastal Risk Management Zone Protection Act."

3 S 2. Legislative findings and intent. The legislature hereby finds 4 that sea level rise and coastal flooding from storm surge are already 5 affecting and will increasingly affect New York's entire ocean and 6 estuarine coastline.

7 The legislature also finds that coastal areas in New York are of tremendous economic and social importance to the state, that large 8 9 numbers of residences and businesses are located along the shoreline, with each shoreline area constituting a unique and essential part of the 10 11 character of New York, and that shoreline areas are diverse and interconnected and share New York's rich agriculture, commercial, economic 12 13 and environmental history and resources. The likelihood that powerful 14 storms will hit New York State's coastline is very high, as is the asso-15 ciated threat to human life and coastal infrastructure. This vulnerabil-16 ity will increase in area and magnitude over time.

The legislature further finds that natural shoreline features, such as wetlands, aquatic vegetation, dunes and barrier beaches, currently provide large-scale services, such as flood protection, storm buffering, fisheries habitat, recreational facilities and water filtration, at almost no cost. These services would be prohibitively expensive to replicate with human-built systems. New York is losing tidal marshes at

a rapid pace and with them the natural infrastructure that protects the 1 2 shore from floods, wave attack and erosion. Sea level rise and coastal 3 cause all shoreline ecosystems to become more frequently hazards will 4 inundated. Low-lying locations will become permanently submerged. Habitats and the species associated with them may migrate landward; this migration, however, will be impeded by the density of development on 5 6 7 much of the state's shoreline and the widespread hardening of that 8 shoreline.

9 The legislature also finds that current investment and land-use plan-10 ning practices by both New York state and local governments are encouraging development in areas at high risk of coastal flooding and erosion. 11 12 The legislature further finds that existing maps of New York state's coast that identify communities, habitats and infrastructure at greatest 13 14 of flooding and erosion, including those of the Federal Emergency risk 15 Management Agency, are inaccurate, out of date, not detailed enough for 16 planning and regulatory purposes and fail to incorporate historic and 17 projected sea level rise.

18 The legislature finds that there are low-cost, high-benefit actions, 19 including those recommended in the report by the New York state Sea 20 Level Rise Task Force, commissioned by the New York state legislature, 21 that can be taken now to reduce vulnerability along New York state's 22 coastline.

23 Therefore, the legislature finds that the purpose of this act is to 24 provide guidance and to encourage public and private interests to act 25 collectively to: integrate and coordinate existing efforts to address 26 sea level rise and coastal hazards; identify and make recommendations to 27 mitigate harms from sea level rise and coastal hazards; make recommendations on methods to protect the value of existing public and private 28 29 investment that has already been made in vulnerable coastal regions; and provide direction for state and local governments to protect, preserve 30 and properly manage the unique challenges of sea level rise and coastal 31 32 hazards along New York state's coastline for the benefit of existing and 33 future generations.

34 S 3. Section 911 of the executive law is amended by adding three new 35 subdivisions 8, 9 and 10 to read as follows:

36 8. "SEA LEVEL RISE" MEANS THE MEAN INCREASE IN SEA LEVEL RELATIVE TO 37 SHORELINE, CALCULATED YEARLY, WITHIN A DEFINED AREA.

9. "COASTAL RISK MANAGEMENT ZONE" MEANS AREAS AT SIGNIFICANT RISK 38 OF 39 COASTAL FLOODING DUE TO STORMS AND AREAS PROJECTED TO BE AT HIGH RISK OF 40 PROJECTED SEA LEVEL RISE AND FUTURE STORMS. COASTAL FLOODING DUE TO COASTAL RISK MANAGEMENT ZONES WILL BE IDENTIFIED BY 41 THE SECRETARY OF ACCORDING TO THE PURPOSES AND POLICIES IDENTIFIED IN SECTION NINE 42 STATE 43 HUNDRED FOURTEEN-A OF THIS ARTICLE, AND ARE AS SHOWN ON THE COASTAL RISK 44 MANAGEMENT ZONE MAP ON FILE IN THE OFFICE OF THE SECRETARY OF STATE AS 45 REOUIRED IN SECTION NINE HUNDRED FOURTEEN-A OF THIS ARTICLE.

10. "COASTAL HAZARDS" MEANS THE RANGE OF ENVIRONMENTAL PROCESSES AND
47 EVENTS THAT MAY AFFECT COASTLINES OR HUMAN ACTIVITY NEAR COASTLINES, AND
48 IT INCLUDES BUT IS NOT LIMITED TO SEA LEVEL RISE, RISING GROUNDWATER,
49 COASTAL FLOODING, STORM SURGE, COASTAL STORMS, OR SALTWATER INTRUSION.

50 S 4. Section 912 of the executive law is amended by adding a new 51 subdivision 17 to read as follows:

52 17. TO FACILITATE ADAPTATION TO SEA LEVEL RISE AT THE STATE AND LOCAL 53 LEVEL, PARTICULARLY WITHIN COASTAL AREAS.

54 S 5. The executive law is amended by adding a new section 914-a to 55 read as follows:

15

1 S 914-A. COASTAL RISK MANAGEMENT ZONES. 1. THE COASTAL RISK MANAGEMENT 2 ZONE IS HEREBY ADOPTED AS PART OF THIS ARTICLE AS THOUGH FULLY INCORPO-3 RATED HEREIN. SUCH ZONES DELINEATE THE AREA WITHIN WHICH THE COASTAL 4 RISK MANAGEMENT POLICIES AND PURPOSES SHALL APPLY.

5 2. THE COASTAL RISK MANAGEMENT ZONE SHALL INCLUDE, AT A MINIMUM, THOSE 6 AREAS DESIGNATED BY THE FEDERAL EMERGENCY MANAGEMENT AGENCY (FEMA) TO 7 INCLUDE COASTAL HIGH-HAZARD AREAS AS IDENTIFIED BY FEMA AND DEFINED BY 8 SECTION 9.4, CHAPTER ONE, IN TITLE 44 OF THE CODE OF FEDERAL REGU-9 LATIONS, AS SUCH DESIGNATIONS ARE AMENDED FROM TIME TO TIME; HOWEVER, 10 NOTHING IN THIS SECTION LIMITS THE COASTAL RISK MANAGEMENT ZONE TO AREAS 11 SO DESIGNATED.

12 3. THE DEPARTMENT OF ENVIRONMENTAL CONSERVATION SHALL IDENTIFY WITHIN 13 THE COASTAL RISK MANAGEMENT ZONE:

(A) COASTAL AREAS AT GREATEST RISK FROM SEA LEVEL RISE,

(B) AREAS AT RISK FROM STORM SURGE WITH CURRENT SEA LEVELS, AND

16 (C) AREAS THAT ARE LIKELY TO BE AT RISK FROM STORM SURGE DUE TO SEA 17 LEVEL RISE IN THE FUTURE THROUGH YEAR TWO THOUSAND ONE HUNDRED.

18 A REPRESENTATION OF THESE AREAS OF RISK, ALONG WITH THE METHODOLOGY 19 AND CRITERIA FOR ASSIGNING GIVEN LEVELS OF RISK, SHALL BE MADE AVAILABLE 20 TO LOCAL GOVERNMENTS AND THE PUBLIC.

NINE HUNDRED ELEVEN OF THE EXECUTIVE LAW, IN CLOSE PROXIMITY TO THE 2 3 SITE. 4 S 20. Subdivisions 1 and 4 of section 34-0101 of the environmental 5 conservation law, as added by chapter 841 of the laws of 1981, is 6 amended to read as follows: 7 Certain sections of the coastline of the state of New York are 1. 8 prone to erosion from action of the adjacent water bodies. Such erosion may be caused by the action of waves, currents running along the shore, 9 10 tides, wind-driven water and ice as well as human activities such as 11 construction and shipping. Such areas are also prone to erosion caused by the wind, runoff of rain water along the surface of the land, or groundwater seepage as well as by human activities such as construction, 12 or 13 14 navigation and certain forms of recreation. COASTAL HAZARDS, AS DEFINED 15 SECTION NINE HUNDRED ELEVEN OF THE EXECUTIVE LAW, MAY INCREASE THE IN 16 SPEED OF SUCH EROSION OR EXACERBATE ITS EFFECTS. 17 4. Programs to build erosion protective structures, either with 18 private or public funds, are costly, often only partially effective over time, and may even be harmful to adjacent or nearby properties, and in 19 20 some sections of the state major erosion protective structures of great 21 length would be required to effectively reduce future damages due to 22 IN ADDITION, COASTAL HAZARDS, AS DEFINED IN erosion. SECTION NINE HUNDRED ELEVEN OF THE EXECUTIVE LAW, OFTEN RENDER SUCH PROTECTIVE STRUC-23 TURES INEFFECTIVE OR LESS EFFECTIVE THAN INTENDED. 24 25 S 21. Subdivision 1 of section 34-0102 of the environmental conserva-26 tion law, as added by chapter 841 of the laws of 1981, is amended to 27 read as follows: 28 Those areas of the state's coastline most prone to erosion hazards 1. 29 should be identified. SUCH IDENTIFICATIONS SHALL BE MADE WITH CONSIDER-30 ATION OF THE EFFECTS OF COASTAL HAZARDS ON COASTLINE VULNERABILITY TΟ 31 EROSION. 32 22. Subdivisions 2, 3 and 8 of section 34-0103 of the environmental S 33 conservation law, as added by chapter 841 of the laws of 1981, are 34 amended to read as follows: "Coastal erosion" or "erosion" shall mean loss or displacement of 35 2. land along the coastline due to the action of waves, currents running 36 37 along the shore, tides, wind-driven water or water-borne ice or other impacts of coastal storms. It shall also mean loss or displacement of land along the coastline due to the action of wind, runoff of surface 38 39 40 waters, or groundwater seepage, AND LOSS OR DISPLACEMENT OF SUCH LAND DUE TO COASTAL HAZARDS, AS DEFINED IN SECTION NINE HUNDRED ELEVEN OF THE 41 42 EXECUTIVE LAW. erosion hazard area" or "erosion hazard area" shall mean 43 3. "Coastal 44 those areas of the coastline: 45 (a) Which are determined as likely to be subject to erosion within a forty-year period. The inland boundary of such areas shall be determined 46 47 the basis of shoreline recession analysis, SEA LEVEL RISE PROJECon 48 TIONS, and other pertinent studies and surveys by starting at the bluff edge or most landward point of active erosion and measuring along a line which is normal to the line of mean high water a distance which is forty 49 50 51 times the long-term average annual rate of shoreline recession, where 52 such average annual recession rate is at least one foot; or 53 (b) Which constitute natural protective features, the alteration of which might reduce or destroy the protection afforded other lands 54 55 against erosion, or lower the reserves of sand or other natural materi-56 als available to replenish storm losses through natural processes.

The erosion hazard area is to be identified as provided in section 1 2 34-0104 of this article and shall be the area within which new activ-3 ities or development shall be reviewed to effectuate the policies and 4 purposes of this article to minimize damage caused by erosion to struc-5 tures and to prevent damage to natural protective features caused by 6 activities or development, as provided for in section 34-0108 of this 7 article. 8 8. "Natural protective features" shall mean without limitation, beachdunes, shoals, bars, spits, barrier islands, bluffs and wetlands; 9 es, 10 AREAS WITHIN COASTAL BARRIER BREACHES AND WASHOVERS AND THEIR ASSOCIATED 11 SANDY SHOALS, AS WELL AS associated natural vegetation shall also be considered as part of such natural protective features. 12 23. Subdivision 4 of section 34-0104 of the environmental conserva-13 S 14 tion law, as amended by chapter 556 of the laws of 1985, is amended to 15 read as follows: 16 4. The commissioner may 19 revise erosion hazard area maps not sooner than twelve months after the 20 occurrence of a major man made or natural event or a major coastal storm 21 if he determines that topographical changes or loss of structural 22 protection at the end of such a twelve month period and as a result of 23 such event or such storm justify, pursuant to the regulations of the department, adjustment of the erosion hazard area boundary by twenty-24 25 five feet or more. Following such review, the commissioner shall adjust the boundaries of such erosion hazard area to effect any additions, 26 27 deletions or technical changes, or to reflect any changes due to erosion, accretion, SEA LEVEL RISE, COASTAL HAZARDS, or other natural or 28 29 man-made changes. The commissioner shall follow the procedures set forth subdivisions two and three of this section with respect to any lands 30 in which are proposed to be added to or deleted from an erosion hazard area 31 32 because of an adjustment of the boundaries of such erosion hazard area 33 pursuant to this subdivision. 34 S 24.
