AN ACT to amend the public service law, the public buildings law, the real property tax law and the public authorities law, in relation to expansion of natural gas service

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Legislative intent. The legislature hereby finds and
2 declares that the extension of natural gas lines within the state has
3 multiple benefits to New Yorkers, including a reduction in pollution
4 with the resultant health benefits, increased economic activity with the
5 creation of jobs through improved energy infrastructure, energy cost
6 savings to consumers, and improved energy efficiency.
7 Natural gas is the cleanest burning fossil fuel. It has a positive
8 impact on the environment by cutting emissions of particulate matter.
9 These emissions have been linked to heart and lung conditions and
10 contribute to asthma rates, particularly in urban areas.
11 Natural gas prices are at a low point and will result in increased
12 disposable income for consumers and improved operational efficiency for
13 business. Extending the state's natural gas line infrastructure will
14 create a positive business environment for manufacturers and other businesses that are looking to stabilize their energy costs. Natural gas
15 line extensions will spur economic development in the business sector
16 and create jobs.
