Introduced by Sen. MAZIARZ -- read twice and ordered printed, and when printed to be committed to the Committee on Racing, Gaming and Wagering

AN ACT to amend the racing, pari-mutuel wagering and breeding law, in relation to requiring transfer of all veterinary records of a claimed racehorse from the owner to the claimant within forty-eight hours from the time the claim is finalized

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Legislative Intent. The legislature hereby finds and
2 declares that it is in the best public policy interests of the state,
3 its businesses and its citizens to ensure that, to the greatest extent
4 possible, the letter and spirit of its thoroughbred racing regulations
5 aimed at protecting the health of New York's racehorses as well as the
6 jockeys, trainers, and owners, are enforced and enacted for any person
7 doing business in the New York state racing industry.
8 Measures to improve safety and health are necessary responses to the
9 "New York Task Force on Racehorse Health and Safety" established as a
10 result of the fatalities of twenty-one racehorses at Aqueduct Race Track
11 during a four month period in 2011 and 2012. The task force stated that
12 because horses are regularly sold in claiming races and due to the lack
13 of transferring veterinary records at the time of sale, "horses are put
14 at increased risk of repeated, and potentially unnecessary invasive
15 joint therapies." This increased risk was evidenced in the official
16 report by the task force which noted the deaths of two racehorses could
17 have been prevented because "it is unlikely that the trainer was aware
18 of any medical treatments that may have occurred prior to his claiming
19 the horse. This may have compromised the trainer's ability to make
20 informed decisions with regard to medication administrations."
21 Despite recommendations by the task force, little has been done to
22 mitigate the problems even though the policy change is in the interest
23 of the New York Racing Association, and the New York State Racing and
24 Wagering Board. The policy change has also obtained wide-spread support
25 from the American Association of Equine Practitioners, who stated in the

1 official report, "AAEP supports the position that when a horse is sold,
2 any known invasive surgery, disease, injury or congenital defect, which
3 is not apparent, should be disclosed to the intended buyer by the owner
4 and/or agent." This state of affairs places unnecessary danger on the
5 racehorses and the jockeys of all the horses in claiming races across
6 the state. This legislature further declares that it is in the best
7 interest of the state to adopt policies that promote the health and
8 safety of racehorses through improved disclosure and sharing of veteri-
9 narian records.

10 S 2. The racing, pari-mutuel wagering and breeding law is amended by
