Introduced by Sen. LAVALLE -- read twice and ordered printed, and when printed to be committed to the Committee on Environmental Conservation

AN ACT to establish the "Long Island water quality control act"; and to amend the environmental conservation law, in relation to the Long Island commission on aquifer protection

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. This act shall be known and may be cited as the "Long
2 Island water quality control act".
3 S 2. Legislative intent. Long Island's water resources are unique in
4 the region, unusual in the nation, and of exceptional importance to the
5 state of New York because of the economic, environmental and public
6 health values that Long Island's water resources provide to the millions
7 of people who live and recreate on Long Island.
8 Long Island has been designated as a federal sole source aquifer; nine
9 special groundwater protection areas have been established across the
10 region; and three estuary based watershed planning efforts have been
11 created - in the Peconic Bay, the Long Island Sound, and the state-de-
12 signated South Shore Estuary Reserve.
13 In spite of these designations and other planning efforts, Long
14 Island's water resources have continued to be impacted by increasing
15 quantities of nutrients, pathogens, pesticides, volatile organic contam-
16 inants and saltwater intrusion, as well as a number of emerging threats
17 such as prescription drugs and sea level rise.
18 In response to these environmental impacts, the region has already
19 experienced an increasing number of harmful algal blooms and other docu-
20 mented declines in key biological indicators which demonstrate continued
21 and increasing stress on the region's groundwater resources and coastal
22 ecosystems.
23 Continued water quality and coastal habitat decline, will result in
24 more harmful algal blooms, shellfishing closures, beach closures, and
25 fishing restrictions, along with the further contamination of private
26 and public wells. These impacts will inevitably have significant nega-

tive effects on the tourism economy of Long Island--and on the quality of life and public health for the millions of residents of the region.

S 3. Article 15 of the environmental conservation law is amended by adding a new title 35 to read as follows:

20 DETECTIONS IN LONG ISLAND GROUNDWATER AS RECOGNIZED IN THE SUFFOLK COUN-
21 TY DEPARTMENT OF HEALTH WATER QUALITY MONITORING CONDUCTED BETWEEN TWO
22 THOUSAND ONE AND TWO THOUSAND TEN, AND MAKE SPECIFIC RECOMMENDATIONS TO
23 PREVENT AND/OR REMEDIATE FUTURE PESTICIDE CONTAMINATION. PRIOR TO FINAL-
24 IZING SUCH REPORT, AND FOLLOWING ADEQUATE PUBLIC NOTICE, THE DEPARTMENT

5 S 15-2907. Water resources management strategy; development purpose.

6 1. Not later than January first, nineteen hundred eighty-seven, the
7 department [of environmental conservation], with the participation of
8 the department of health and whenever possible, regional planning and
9 development boards, shall develop and submit a complete statewide water
10 resources management strategy to the water resources planning council
11 for its review and adoption. This strategy shall be composed of substate
12 water resources management strategies which recognize the natural bound-
13 aries of the water resource basins, watersheds, and aquifers and exist-
14 ing significant deficiencies of water supply, and which organize these
15 in the most practical and manageable manner. Each substate management
16 strategy shall analyze the present and future demographic, natural
17 resource, economic development, water quality, and conservation require-
18 ments of public and private water systems and develop regional manage-
19 ment strategies to meet the water resources requirements of residential,

25 new sources or facilities. Such strategies shall also include evalu-
26 ations and recommendations as to the feasibility of including hydroelec-
27 tric energy generation facilities as part of the modifications, restora-
28 tion, and expansion or development of new or existing resources or
29 facilities. The strategy shall also contain recommendations regarding
30 implementation of these strategies by the department of health, the
31 department [of environmental conservation], other appropriate state
32 agencies, local governments and special districts. In addition, the
33 departments shall submit to the council substate water resources manage-
34 ment strategies as soon as such strategies are developed. The depart-

36 the strategies and receive the council's recommendations and directions.
37 Such substate strategies shall also be available for public inspection
38 as soon as such strategies are developed.

39 2. NOT LATER THAN JANUARY FIRST, TWO THOUSAND SEVENTEEN, THE DEPART-
40 MENT, WITH THE PARTICIPATION OF THE DEPARTMENT OF HEALTH AND WHENEVER
41 POSSIBLE, REGIONAL PLANNING AND DEVELOPMENT BOARDS, SHALL DEVELOP AND
42 SUBMIT A COMPLETE LONG ISLAND WATER RESOURCES MANAGEMENT STRATEGY TO THE
43 WATER RESOURCES PLANNING COUNCIL FOR ITS REVIEW AND ADOPTION. THIS STRA-
44 TEGY SHALL BE COMPOSED OF WATER RESOURCES MANAGEMENT STRATEGIES WHICH
45 RECOGNIZE THE NATURAL BOUNDARIES OF THE WATER RESOURCE BASINS,
46 WATERSHEDS, AND AQUIFERS AND EXISTING SIGNIFICANT DEFICIENCIES OF WATER
47 SUPPLY, AND WHICH ORGANIZE THESE IN THE MOST PRACTICAL AND MANAGEABLE
48 MANNER. EACH MANAGEMENT STRATEGY SHALL ANALYZE THE PRESENT AND FUTURE
49 DEMOGRAPHIC, NATURAL RESOURCE, ECONOMIC DEVELOPMENT, WATER QUALITY, AND
50 CONSERVATION REQUIREMENTS OF PUBLIC AND PRIVATE WATER SYSTEMS AND DEVEL-
51 OP MANAGEMENT STRATEGIES TO MEET THE WATER RESOURCES REQUIREMENTS OF
52 RESIDENTIAL, AGRICULTURAL, INDUSTRIAL AND COMMERCIAL USERS AS WELL AS
53 ASSURE THE HIGHEST POSSIBLE QUALITY AND QUANTITY OF THESE RESOURCES.

54 STRATEGIES SHALL ANALYZE THE EFFICIENCY AND CAPACITY OF EXISTING WATER
55 SUPPLY SOURCES AND FACILITIES AND SHALL CONTAIN RECOMMENDATIONS FOR
56 APPROPRIATE MODIFICATIONS, RESTORATION, AND EXPANSION OR DEVELOPMENT OF

1 NEW SOURCES OR FACILITIES. SUCH STRATEGIES SHALL ALSO INCLUDE EVALU-
2 ATIONS AND RECOMMENDATIONS. THE STRATEGY SHALL ALSO CONTAIN RECOMMENDA-
3 TIONS REGARDING IMPLEMENTATION OF THESE STRATEGIES BY THE DEPARTMENT OF
4 HEALTH, THE DEPARTMENT, OTHER APPROPRIATE STATE AGENCIES, LOCAL GOVERN-
5 MENTS AND SPECIAL DISTRICTS. IN ADDITION, THE DEPARTMENTS SHALL SUBMIT
6 TO THE COUNCIL WATER RESOURCES MANAGEMENT STRATEGIES AS SOON AS SUCH
7 STRATEGIES ARE DEVELOPED. THE DEPARTMENTS SHALL ALSO REPORT REGULARLY TO
8 THE COUNCIL ON THE DEVELOPMENT OF THE STRATEGIES AND RECEIVE THE COUN-
9 CIL'S RECOMMENDATIONS AND DIRECTIONS. SUCH STRATEGIES SHALL ALSO BE
10 AVAILABLE FOR PUBLIC INSPECTION AS SOON AS SUCH STRATEGIES ARE DEVEL-
11 OPED.

12 S 10. This act shall take effect on the ninetieth day after it shall
13 have become a law.
