AN ACT to amend the general business law and the penal law, in relation to establishing a statewide database to maintain and track coded ammunition and establishing penalties for individuals who violate such provisions; and to amend the state finance law, in relation to establishing the ammunition coding system database fund

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Legislative findings. The legislature hereby finds that
2 each year in the United States more than thirty percent of all homicides
3 involving a gun go unsolved. Handgun ammunition accounts for approxi-
4 mately eighty percent of all ammunition sold within the United States.
5 Current technology for matching a bullet used in a crime to the gun that
6 fired it has worked moderately well for years, but presupposes that the
7 weapon was recovered by law enforcement. Ammunition coding is a new and
8 effective way for law enforcement to quickly identify persons of inter-
9 est in gun crime investigations.
