AN ACT to amend the New York state urban development corporation act, in relation to creating the dairy farm improved energy efficiency program

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Legislative findings. The legislature hereby finds and
2 declares that due to their remote locations at the end of the electric
3 grid infrastructure, farms are more difficult to service by electric
4 utilities. Strengthening the energy systems of individual farms and
5 developing micro-grids in remote areas will enhance the overall reli-
6 ability of the electric system. The legislature further finds that
7 assisting dairy farms with high efficiency lighting, high efficiency
8 pumping and cooling equipment, and other energy management systems, will
9 result in significant energy savings and increased milk yields. The
10 legislature hereby declares that providing low cost tools to farmers
11 will help them become more efficient and reduce their cost of doing
12 business. Advancing new technologies will also help to accelerate the
13 development of the energy services industry, thus providing new and
14 expanded job opportunities for New Yorkers.

15 Therefore, the legislature seeks to provide funds to encourage energy
16 efficient dairy farms through grants and low interest loans for approved
17 projects to stimulate the New York state dairy industry.

18 S 2. Section 1 of chapter 174 of the laws of 1968, constituting the
19 New York state urban development corporation act, is amended by adding a
20 new section 16-w to read as follows:

EXPLANATION--Matter in ITALICS (underscored) is new; matter in brackets
[] is old law to be omitted.
