2013-2014 Regular Sessions

SENATE-ASSEMBLY

February 7, 2013

IN SENATE -- Introduced by Sen. LAVALLE -- read twice and ordered printed, and when printed to be committed to the Committee on Local Government

IN ASSEMBLY -- Introduced by M. of A. THIELE, LOSQUADRO, HENNESSEY -- read once and referred to the Committee on Local Governments

AN ACT to amend the general municipal law, in relation to establishing the Enterprise Park at Calverton Reuse and Revitalization District

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Legislative findings and intent. The former Calverton Naval Weapons Industrial Reserve Plant in the town of Riverhead, county of Suffolk (hereinafter "EPCAL"), was formerly owned by the Navy and leased by the Grumman Corporation. In 1998, Northrop Grumman closed nearly all facilities located on Long Island and chose not to renew its lease for the EPCAL site causing economic dislocation and unemployment for residents of the town of Riverhead and the surrounding region. The Navy conveyed 2900 acres to the town of Riverhead Community Development Agency ("CDA") for no consideration conditioned upon the town's reuse of the property for economic development.

In 2011, the town and CDA re-dedicated their efforts and invested significant funds to update, develop and implement a reuse and revitalization plan to meet the current economic, market and site conditions. The town and CDA, with the assistance of a firm with expertise in planning and environmental analysis for large scale revitalization and development projects, updated the real estate market study; retained experts in the field of engineering, survey and topographical analysis; retained experts in the fields of sewer and water; and met with state, regional and local departments, agencies and special interest groups to identify, address, remedy or mitigate all concerns and potential adverse impacts related to the town and CDA's goal of economic development at

the EPCAL site. The comprehensive and extensive analysis of economic, market, environmental, traffic, sewer, water, and myriad other factors, together with participation of state, regional, local departments, agencies, and special interest groups, including but not limited to New York state department of transportation, New York state department of environmental conservation, Suffolk county planning and public works departments, town of Riverhead planning, engineering, water and sewer departments resulted in a reuse and revitalization plan that meets the economic and urban renewal goals of the original conveyance and will assist the state, county, and town to recapture potential investment, growth and employment opportunities for this region.

It is the purpose of this act to promote the expeditious and orderly conversion and redevelopment of EPCAL for uses including, but not limited to, housing, industrial, institutional, educational, governmental, recreational, conservational, commercial or manufacturing uses, in order to prevent further blight, economic dislocation and additional unemployment, and to aid in strengthening the New York state economy, the regional economy and the economy of the town of Riverhead. It is also the purpose of this act to provide an interim governmental structure for EPCAL which will assume specified local authority and duties, in recognition of the state and local partnership necessary for the successful redevelopment of EPCAL.
