FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would allow certain members in the New York State and Local Employees' Retirement System (NYS&LERS) who have rendered a minimum of ten years of creditable service to purchase a maximum of five years of additional service credit for a period of time during which no actual service was rendered. This type of service is commonly referred to as "air time". The full cost of such service will be paid by the member. The purchase of "air time" will not be available to any member who may retire at half pay after completion of 20 or 25 years of creditable service without regard to age.

If this bill is enacted, the cost to purchase "air time" will depend on the member's plan, tier, age, salary, current service and the amount of "air time" that will be purchased. There could be costs to the NYS&LERS on behalf of members whose salary increases subsequent to purchasing this "service" exceed our expectations, or for members who survive beyond their life expectancy. There will also be administrative costs to the NYS&LERS.

This bill would provide members with a favorable alternative to purchasing annuities in the private market. The NYS&LERS would, effectively, be providing 7.5% annual interest.
