53 to which the state holds title, and so far as possible the names of the  
54 owners of the adjoining lands. Every map when completed shall be

6 particular county of the state shall be transmitted to and filed in the  
7 office of the clerk of such county, or in the office in such county  
8 wherein conveyances are required by law to be recorded and such filing  
9 shall constitute a notice to all persons of the state's title to and  
10 ownership of said lands. A transcript of such maps certified as correct  
11 by the officer with whom such map or maps shall be filed shall be  
12 received as presumptive evidence of the state's title to the canal lands  
13 as of the date designated on such maps in all judicial or legal  
14 proceedings.

15 S 14. Section 30 of the canal law, as amended by chapter 335 of the  
16 laws of 2001, is amended to read as follows:

17 S 30. Contracts for improvement, maintenance or repair of the canal  
18 system. Upon the completion and final approval of the plans and specifi-  
19 cations for the improvement, maintenance or repair to the canal system,  
20 contracts therefor shall be executed IN ACCORDANCE WITH THE PROVISIONS  
21 OF ARTICLE NINE OF THE STATE FINANCE LAW, PROVIDED, HOWEVER, THAT IF  
22 ARTICLE NINE OF THE STATE FINANCE LAW SHALL NOT BE APPLICABLE, CONTRACTS  
23 SHALL BE EXECUTED as provided herein.

24 1. Advertising for proposals. The [corporation] COMMISSIONER shall  
25 advertise for proposals in accordance with plans and specifications  
26 prepared by [it] THE DEPARTMENT for such improvement, maintenance or  
27 repair of the canal system as the [corporation] COMMISSIONER deems it  
28 expedient to have performed by contract. The advertisement shall be  
29 limited to a brief description of the work proposed to be done, with an  
30 announcement stating where the maps, plans and specifications may be  
31 seen, the terms and conditions under which the proposals will be  
32 received, the time and place where the same will be opened, the amount  
33 of the draft or certified check to accompany the proposal, and such  
34 other matters as the [corporation] COMMISSIONER may deem advisable to  
35 include therein. Such advertisement shall be published at least once in  
36 each week for two successive weeks in a newspaper published at the coun-  
37 ty seat of the county in which such canal work is to be performed and in  
38 such other newspapers as the [corporation] COMMISSIONER may designate.  
39 If no newspaper is published at such county seat, then the publication  
40 of the advertisement shall be in such newspaper or newspapers within the  
41 county as the [corporation] COMMISSIONER may select. If no newspaper is  
42 published in the county, the publication of the advertisement shall be  
43 in such newspaper or newspapers in an adjoining county as may be  
44 selected by the [corporation] COMMISSIONER. Failure of such newspaper,  
45 published in such county or adjoining county, to publish such advertise-  
46 ment as provided in this subdivision or as directed by the [corporation]  
47 COMMISSIONER shall not invalidate the publication of advertisement for  
48 proposals provided such advertisement is published in another newspaper  
49 or trade publication, which will be most likely to give adequate notice  
50 to contractors of the work contemplated and of the invitation to submit  
51 proposals therefor, at least once in each week for any two successive  
52 weeks preceding the date on which proposals described in such advertise-  
53 ment are to be received and opened.

54 2. Proposals. Each proposal shall specify the correct gross sum for  
55 which the work will be performed and shall also include the amount to be  
56 charged for each item specified on the proposal estimate sheet. The

1 [corporation] COMMISSIONER may prescribe and furnish forms for the  
2 submission of such proposals and may prescribe the manner of submitting  
3 the same which shall not be inconsistent herewith. Accompanying each  
4 proposal there shall be a certified check or bank cashier's check for  
5 the amount of the bid deposit, to be fixed by the [corporation] COMMIS-  
6 SIONER and specified in the advertisement for proposals. The checks of  
7 the two low bidders shall be deposited by the [corporation] COMMISSIONER  
8 in a special account. Provided, however, that if prior to or upon  
9 receipt of said checks by the [corporation] COMMISSIONER a bidder who is  
10 one of the two low bidders shall have duly filed a bond as hereinafter  
11 provided, the [corporation] COMMISSIONER shall forthwith return to said  
12 bidder his OR HER aforesaid check without depositing the same. If alter-  
13 nate proposals are taken, the checks of the two low bidders of all  
14 alternate proposals shall be deposited. All checks other than those of  
15 the two low bidders shall be returned promptly by the [corporation]  
16 COMMISSIONER. Notwithstanding the provisions of any general or special  
17 law, the money represented by the checks of the two low bidders shall be  
18 paid from the special account when the contractor has duly executed and  
19 delivered to the [corporation] COMMISSIONER the contract and the bond or  
20 bonds required by law for the performance of the work of a public  
21 improvement for the state of New York, or upon the rejection of all  
22 bids. The low bidder, in the discretion of the [corporation] COMMISSION-  
23 ER, and the second low bidder, as a matter of right, may at any time  
24 after the opening of the respective proposals, file with the [corpo-  
25 ration] COMMISSIONER a bond, the principal amount of which shall at  
26 least equal the amount of the respective bidder's check, theretofore  
27 deposited with his OR HER proposal, in the form prescribed by the  
28 [corporation] COMMISSIONER, with sufficient sureties, to be approved by  
29 the [corporation] COMMISSIONER, conditioned that the said bidder will  
30 execute a contract and furnish such performance or other bonds as may be  
31 required by law in accordance with the terms of the bidder's said  
32 proposal. If a bidder complies with [the aforesaid] SUCH provisions, the  
33 [corporation] COMMISSIONER shall forthwith return the money represented  
34 by the check of such bidder.

35 In case the bidder to whom the contract shall be awarded shall fail to  
36 execute such contract and bond, the moneys represented by such check  
37 shall be regarded as liquidated damages and shall be forfeited to the  
38 state and shall be deposited by the [corporation] COMMISSIONER with the  
39 commissioner of taxation and finance to the credit of the general fund.  
40 The gross sums indicated on the proposals when opened shall be publicly  
41 read. The [corporation] COMMISSIONER shall keep the bids for the several  
42 items of the proposals confidential until an award of the contract is  
43 made, after which the proposals shall be subject at all reasonable times  
44 to public inspection.

45 3. Award of contract. The contract for the improvement, maintenance or  
46 repair of any part of the canal system shall be awarded to the lowest  
47 responsible bidder, as will best promote the public interest. No  
48 contract shall be awarded to a bidder other than the lowest responsible  
49 bidder without the written approval of the comptroller. The lowest bid  
50 shall be deemed to be that which specifically states the lowest gross  
51 sum for which the entire work will be performed, including all the items  
52 specified in the estimate therefor. The lowest bid shall be determined  
53 by the [corporation] COMMISSIONER on the basis of the gross sum for  
54 which the entire work will be performed, arrived at by a correct compu-  
55 tation of all the items specified in the estimate therefor at the unit  
56 prices contained in the bid.

1 4. Rejection of proposals. The [corporation] COMMISSIONER may reject  
2 any or all proposals and may advertise for new proposals as provided in  
3 this section, if, in [its] HIS OR HER opinion, the best interest of the  
4 state [and the corporation] will thereby be promoted.

5 5. Form of contract. The [corporation] COMMISSIONER shall prescribe  
6 the form of contract and may include [therein] such matters the [corpo-  
7 ration] COMMISSIONER may deem advantageous to the state [and the corpo-  
8 ration].

9 6. Bond of contractor. Each contractor before entering into a contract  
10 for such improvement, maintenance or repair of the canal system shall  
11 execute a bond in the form prescribed by the [corporation] COMMISSIONER,  
12 with sufficient sureties, to be approved by the [corporation] COMMIS-  
13 SIONER, on condition that it will perform the work in accordance with  
14 the terms of the contract and the plans and specifications, and that it  
15 will commence and complete the work within the time prescribed in the  
16 contract. The bond shall also provide against any direct or indirect  
17 damages that shall be suffered or claimed on account of such  
18 construction or improvement during the time thereof, and until the work  
19 is finally accepted.

20 7. Payments on contracts, state taxes. The contract shall provide for  
21 partial payments as the work progresses as hereinafter provided:

22 (a) Ten per centum shall be retained from each progress payment or  
23 estimate until the contract work is fifty per centum completed, after  
24 which no further moneys shall be retained from any progress payments or  
25 estimates paid thereafter, and when the entire contract work has been  
26 completed and accepted, the [corporation] COMMISSIONER shall, pending  
27 the payment of the final estimate, pay not to exceed fifty per centum of  
28 the amount of the retained percentage.

29 (b) Whenever in the judgment of the [corporation] COMMISSIONER the  
30 withholding of the retained percentage on account of the closing of the  
31 working season would be an injustice to the contractor, the [corpo-  
32 ration] COMMISSIONER may, provided the district engineer certifies that  
33 the essential items in the contract have been completed in accordance  
34 with the terms of the contract and the provisions of this chapter,  
35 direct the district engineer to include in the final account such uncom-  
36 pleted items and pay therefor at the item prices in the contract upon  
37 the contractor depositing with the [corporation] COMMISSIONER securities  
38 equal to double the value of such uncompleted work. The deposit may be  
39 used by the [corporation] COMMISSIONER to complete the uncompleted  
40 portion of the contract and shall be returned to the contractor if it  
41 completes the uncompleted portion within a specified number of working  
42 days after it has been notified to proceed with the work.

43 (c) No certificates approving or authorizing a partial or final  
44 payment shall be made by the [corporation] COMMISSIONER until [it] HE OR  
45 SHE is satisfied that all laborers employed on the work have been paid  
46 for their services for the last payroll period preceding the said  
47 partial or final payment. The [corporation] COMMISSIONER may, if [it] HE  
48 OR SHE deems necessary, require an affidavit to such effect from the  
49 contractor or [it] HE OR SHE may depend on any other source which [it]  
50 HE OR SHE deems proper for such information.

51 (d) Contracts in force at the date of the enactment of this subdivi-  
52 sion may, in the discretion of the [corporation] COMMISSIONER, be  
53 amended to provide for the withholding and the payments contemplated by  
54 the provisions of paragraph (a) of this subdivision, if the surety or  
55 sureties upon the performance and labor and material bonds given by a  
56 contractor upon any such contract shall consent in writing thereto.

1 (e) No such certificate authorizing or approving the first partial  
2 payment or any final payment to a foreign contractor shall be made  
3 unless such contractor shall furnish satisfactory proof that all taxes  
4 due the commissioner of taxation and finance by such contractor under  
5 the provisions of or pursuant to a law enacted pursuant to the authority  
6 of article nine, nine-A, twelve-A, twenty-one, twenty-two, twenty-eight,  
7 twenty-nine or thirty of the tax law have been paid. The certificate of  
8 the commissioner of taxation and finance to the effect that all such  
9 taxes have been paid shall be, for purpose of this paragraph, conclusive  
10 proof of the payment of such taxes. The term "foreign contractor" as  
11 used in this subdivision means, in the case of an individual, a person  
12 who is not a resident of this state, in the case of a partnership, one  
13 having one or more partners not a resident of this state, and in the  
14 case of a corporation, one not organized under the laws of this state.

15 8. Contingencies and extra work. Whenever the [corporation] COMMIS-  
16 SIONER determines that from any unforeseen cause the terms of any  
17 contract should be altered to provide for contingencies or extra work,  
18 [it] HE OR SHE may, if funds are available for payment of the cost ther-  
19 eof, issue an order on contract therefor to the contractor, a copy of  
20 which shall be filed with the director of the budget and the state comp-  
21 troller. The estimated expenditure pursuant to the order on contract  
22 shall not increase the total amount of the primary contract until the  
23 estimated expenditure shall have been approved by the [corporation]  
24 COMMISSIONER and a duplicate of such approval shall have been filed with  
25 the comptroller. No such extra work shall be commenced or undertaken  
26 until the [corporation] COMMISSIONER has issued an order on contract as  
27 herein provided.

28 When such order on contract provides for similar items of work or  
29 materials which increase or decrease the itemized quantity provided for  
30 in the primary contract, the price to be paid therefor shall not exceed  
31 the unit bid price in the primary contract for such items. Agreed prices  
32 for new items of work or materials may be incorporated in the order on  
33 contract as the [corporation] COMMISSIONER may deem them to be just and  
34 fair and beneficial to the state[, including the corporation].

35 Whenever the [corporation] COMMISSIONER also determines that in the  
36 cases herein provided it is impracticable for [it] HE OR SHE to ascer-  
37 tain in advance the just and fair prices to be paid by the state for new  
38 items of work or materials, the order on contract therefor may provide  
39 for performance of the work and the furnishing of the materials and  
40 equipment, in which event the contractor shall keep and shall make  
41 available at all times to the [corporation] COMMISSIONER such accounting  
42 records, data and procedure as may be required by the [corporation]  
43 COMMISSIONER.

44 S 15. Section 31 of the canal law, as amended by chapter 335 of the  
45 laws of 2001, is amended to read as follows:

46 S 31. Patented materials or articles. In the improvement, maintenance,  
47 or repair of the canal system, no patented material or article or any  
48 other material or article shall be specified, contracted for, or  
49 purchased, except under such circumstances that there can be fair and  
50 reasonable opportunity for competition, the conditions to secure which,  
51 shall be prescribed by the [corporation] COMMISSIONER.

52 S 16. Section 32 of the canal law, as amended by chapter 335 of the  
53 laws of 2001, is amended to read as follows:

54 S 32. Performance of contracts. The performance of every contract for  
55 the improvement, maintenance or repair of the canal system shall be  
56 under the supervision and control of the [corporation] COMMISSIONER, and

1 it shall be [its] HIS OR HER duty to see that every such contract is  
2 performed in accordance with the provisions of the contract and with the  
3 plans and specifications forming a part thereof. If the [corporation]  
4 COMMISSIONER shall determine that the work upon any contract for the  
5 improvement, maintenance or repair of the canal system is not being  
6 performed according to the contract or for the best interest of the  
7 state[, including the corporation], the execution of the work by the  
8 contractor may be temporarily suspended by the [corporation] COMMISSION-  
9 ER, who may then proceed with the work under [its] HIS OR HER own direc-  
10 tion in such manner as will accord with the contract specifications and  
11 be for the best interest of the state [including the corporation,]; or  
12 [it] HE OR SHE may terminate the contractor's employment under the  
13 contract while it is in progress, and thereupon, proceed with the work,  
14 in affirmance of the contract, by contract negotiated or publicly let,  
15 by the use of [its] HIS OR HER own forces, by calling upon the surety to  
16 complete the work in accordance with the plans and specifications or by  
17 a combination of any such methods; or [it] HE OR SHE may cancel the  
18 contract and readvertise and relet the work as provided in section thir-  
19 ty of this article. Any excess in the cost of completing the contract  
20 beyond the price for which it was originally awarded shall be charged to  
21 and paid by the contractor failing to perform the work or by such  
22 contractor's surety. Where the estimate for the completion of a  
23 cancelled contract is in excess of the balance of the amount originally  
24 set aside by the state [including the corporation,] to provide for the  
25 improvement, maintenance or repair of the canal system, or a part there-  
26 of, together with any amount otherwise provided, the [corporation]  
27 COMMISSIONER is authorized to set aside from any funds available for the  
28 improvement, maintenance or repair of the canal system, or a part there-  
29 of, an additional sum equal to such excess and to pay such excess in the  
30 first instance, pending recovery of excess cost from the defaulting  
31 contractor and surety, as provided in this section. Every contract for  
32 the improvement, maintenance or repair of the canal system, or a part  
33 thereof, shall reserve to the [corporation] COMMISSIONER the right to  
34 suspend or cancel the contract as above provided, and to complete the  
35 work thereunder by contract negotiated or publicly let or by the use of  
36 [its] HIS OR HER own forces, or affirm the contract and thereupon to  
37 complete the work thereunder according to any of the methods above  
38 provided as the [corporation] COMMISSIONER may determine.

39 S 17. Section 33 of the canal law, as amended by chapter 335 of the  
40 laws of 2001, is amended to read as follows:

41 S 33. Acceptance of work. Upon the completion of the improvement,  
42 maintenance or repair of any part of the canal system under a contract  
43 let, as provided in this article, the [corporation] COMMISSIONER shall  
44 cause the same to be inspected, and upon the filing [in the office of  
45 the corporation] WITH THE DEPARTMENT of a certificate stating that the  
46 work has been well and faithfully performed, in accordance with the  
47 terms of the contract, and all legal modifications thereof, the work  
48 shall be deemed accepted and certificates for final payment on the  
49 contract executed.

50 S 18. Section 34 of the canal law, as amended by chapter 335 of the  
51 laws of 2001, is amended to read as follows:

52 S 34. Exemption of materials or equipment from execution. All materi-  
53 als or equipment furnished or partly procured on a defaulted contract  
54 with the [corporation] COMMISSIONER, shall be exempt from execution, but  
55 the [corporation] COMMISSIONER shall pay the moneys due for such materi-  
56 al or equipment to any judgment creditor of the contractor under whose

1 execution such materials or equipment might otherwise have been sold, on  
2 production to [it] HIM OR HER of due proof that such execution would  
3 have so attached, and such payments shall be valid payments on the  
4 contract.

5 S 19. Section 40 of the canal law, as amended by chapter 335 of the  
6 laws of 2001, is amended to read as follows:

7 S 40. Acquisition of property. 1. The acquisition of property neces-  
8 sary for purposes of the improvement, use, maintenance, control, manage-  
9 ment or repair of the canal system, shall be pursuant to the provisions  
10 of the eminent domain procedure law by the [corporation or by the]  
11 commissioner [of transportation at the request of the corporation].

12 2. The commissioner [of transportation or the corporation as the case  
13 may be,] shall cause to be prepared an accurate acquisition map of any  
14 property which he or [it] SHE may deem necessary for purposes connected  
15 with the canal system or of any property in and to which he or [it] SHE  
16 may deem the acquisition or exercise of an easement, interest or right  
17 to be necessary for such purposes, indicating and describing in each  
18 case the particular easement, interest or right. On the approval of such  
19 map by the commissioner [of transportation or the corporation as the  
20 case may be,] he or [it] SHE shall acquire such property, easements,  
21 interests or rights pursuant to the provisions of the eminent domain  
22 procedure law.

23 3. If the [corporation] COMMISSIONER shall determine, prior to the  
24 filing of such copy of the map in the office of the county clerk or  
25 register as aforesaid, that changes, alterations or modifications of  
26 such map as filed in the [main office of the corporation] DEPARTMENT  
27 should be made, the [corporation] COMMISSIONER shall, subject to the  
28 provisions of article two of the eminent domain procedure law, if appli-  
29 cable, direct the preparation of an amended map, either by preparing a  
30 new map or by making changes on the original tracing of such map, with a  
31 notation indicating such changes. On the approval of such amended map by  
32 the [corporation] COMMISSIONER, it shall be filed in the [main office of  
33 the corporation] DEPARTMENT in the same manner as the original map was  
34 filed, and the amended map shall thereupon in all respects and for all  
35 purposes supersede the map previously filed.

36 4. If the [corporation] COMMISSIONER shall determine, prior to the  
37 filing of such copy of the map in the office of the county clerk or  
38 register as aforesaid, that such map should be withdrawn, the [corpo-  
39 ration] COMMISSIONER shall file a certificate of withdrawal in the  
40 offices of the [corporation] DEPARTMENT and department of law. Upon the  
41 filing of such certificate of withdrawal, the map to which it refers  
42 shall be canceled and all rights thereunder shall cease and terminate.

43 5. The commissioner [of transportation or the corporation as the case  
44 may be,] shall deliver to the attorney general a copy of such acquisi-  
45 tion map whereupon it shall be the duty of the attorney general to  
46 advise and certify to the commissioner [of transportation or the corpo-  
47 ration] the names of the owners of the property, easements, interests or  
48 rights described in the said acquisition map, including the owners of  
49 any right, title or interest therein pursuant to the requirements of  
50 section four hundred three of the eminent domain procedure law.

51 6. If, at or after the vesting of title to such property in the people  
52 of the state of New York as provided for in the eminent domain procedure  
53 law, the commissioner [of transportation or the corporation as the case  
54 may be] shall deem it necessary to cause the removal of an owner or  
55 other occupant from such property [it] HE OR SHE may cause such owner or  
56 other occupant to be removed therefrom by proceeding in accordance with

1 section four hundred five of the eminent domain procedure law. The  
2 proceedings shall be brought in the name of the commissioner [of trans-  
3 portation or the corporation as agent of the state]. If any person  
4 proceeded against shall contest the petition by an answer, the attorney  
5 general shall be notified, and he OR SHE thereafter shall represent the  
6 petitioner in the proceedings. No execution shall issue for costs, if  
7 any awarded against the state[,] OR the commissioner [of transportation  
8 or the corporation], but they shall be part of the costs of the acquisi-  
9 tion and be paid in like manner. Proceedings may be brought separately  
10 against one or more of the owners or other occupants of a property, or  
11 one proceeding may be brought against all or several of the owners or  
12 other occupants of any or all property within the territorial jurisdic-  
13 tion of the same justice or judge; and judgment shall be given for imme-  
14 diate removal of persons defaulting in appearance or in answering, or  
15 withdrawing their answers, if any, without awaiting the trial or deci-  
16 sion of issues raised by contestants, if any.

17 7. Upon making any agreement provided for in section three hundred  
18 four of the eminent domain procedure law, the commissioner [of transpor-  
19 tation or the corporation as the case may be] shall deliver to the comp-  
20 troller such agreement and a certificate stating the amount due such  
21 owner or owners thereunder on account of such appropriation of his, HER  
22 or their property and the amounts so fixed shall be paid pursuant to all  
23 relevant provisions of the public authorities law, the eminent domain  
24 procedure law and the state finance law.

25 8. Application for reimbursement of incidental expenses as provided in  
26 section seven hundred two of the eminent domain procedure law shall be  
27 made to the [corporation] DEPARTMENT upon forms prescribed by the  
28 [corporation] COMMISSIONER and shall be accompanied by such information  
29 and evidence as the [corporation] COMMISSIONER may require. Upon  
30 approval of such application, the [corporation] COMMISSIONER shall  
31 deliver a copy thereof, to the comptroller together with a certificate  
32 stating the amount due thereof, and the amount so fixed shall be paid  
33 out of funds available for the acquisition of property under this  
34 section.

35 9. The [corporation] COMMISSIONER shall establish and may from time to  
36 time amend rules and regulations authorizing the payment of actual  
37 reasonable and necessary moving expenses of occupants of property  
38 acquired pursuant to this section; of actual direct losses of tangible  
39 personal property as a result of moving or discontinuing a business or  
40 farm operation, but not exceeding an amount equal to the reasonable  
41 expenses that would have been required to relocate such property, as  
42 determined by the [corporation] COMMISSIONER; and actual reasonable  
43 expenses in searching for a replacement business or farm; or in hardship  
44 cases for the advance payment of such expenses and losses. For the  
45 purposes of making payment of such expenses and losses only the term  
46 "business" means any lawful activity conducted primarily for assisting  
47 in the purchase, sale, resale, manufacture, processing or marketing of  
48 products, commodities, personal property or services by the erection and  
49 maintenance of an outdoor advertising display or displays, whether or  
50 not such display or displays are located on the premises on which any of  
51 the above activities are conducted. Such rules and regulations may  
52 further define the terms used in this subdivision. In lieu of such actu-  
53 al reasonable and necessary moving expenses, any such displaced owner or  
54 tenant of residential property may elect to accept a moving expense  
55 allowance, plus a dislocation allowance, determined in accordance with a  
56 schedule prepared by the [corporation] COMMISSIONER and made a part of

1 such rules and regulations. In lieu of such actual reasonable and neces-  
2 sary moving expenses, any such displaced owner or tenant of commercial  
3 property who relocates or discontinues his OR HER business or farm oper-  
4 ation may elect to accept a fixed relocation payment in an amount equal  
5 to the average annual net earnings of the business or farm operation,  
6 except that such payment shall be not less than two thousand five  
7 hundred dollars nor more than ten thousand dollars. In the case of a  
8 business, no such fixed relocation payment shall be made unless the  
9 [corporation] COMMISSIONER finds and determines that the business cannot  
10 be relocated without a substantial loss of its existing patronage, and  
11 that the business is not part of a commercial enterprise having at least  
12 one other establishment, which is not being acquired by the state or the  
13 United States, which is engaged in the same or similar business. In the  
14 case of a business which is to be discontinued but for which the find-  
15 ings and determinations set forth above cannot be made, the [corpo-  
16 ration] COMMISSIONER may prepare an estimate of what the actual reason-  
17 able and necessary moving expenses, exclusive of any storage charges,  
18 would be if the business were to be relocated and enter into an agreed  
19 settlement with the owner of such business for an amount not to exceed  
20 such estimate in lieu of such actual reasonable and necessary moving  
21 expenses. Application for payment under this subdivision shall be made  
22 to the [corporation] DEPARTMENT upon forms prescribed by [it] THE  
23 COMMISSIONER and shall be accompanied by such information and evidence  
24 as the [corporation] COMMISSIONER may require. Upon approval of such  
25 application, the [corporation] COMMISSIONER shall deliver a copy thereof  
26 to the comptroller together with a certificate stating the amount due  
27 thereunder, and the amount so fixed shall be paid out of the state trea-  
28 sury after audit by the comptroller from moneys appropriated for the  
29 acquisition of property under this section. As used in this subdivision,  
30 the term "commercial property" shall include property owned by an indi-  
31 vidual, family, partnership, corporation, association or a nonprofit  
32 organization and includes a farm operation. As used in this subdivision,  
33 the term "business" means any lawful activity, except a farm operation,  
34 conducted primarily for the purchase, sale, lease and rental of personal  
35 and real property, and for the manufacture, processing or marketing of  
36 products, commodities, or any other personal property; for the sale of  
37 services to the public; or by a nonprofit organization.

38 10. Authorization is hereby given for the reimbursement to the person  
39 or other entity entitled thereto, as determined by the [corporation]  
40 COMMISSIONER, of an amount, separately computed and stated, representing  
41 the following incidental expenses to the owner of property acquired  
42 pursuant to this section:

43 (a) Any recording fees, transfer taxes and other similar expenses in  
44 connection with the acquisition of the property by the state[, including  
45 the corporation,] or in connection with the transfer of the property to  
46 the state[, including the corporation]; and

47 (b) Any penalty costs, incurred by the owner of property acquired by  
48 the state[, including the corporation,] for prepayment of any pre-exist-  
49 ing recorded mortgage entered into in good faith encumbering such prop-  
50 erty.

51 In the event that there shall be a final judgment by a court of compe-  
52 tent jurisdiction that the commissioner [of transportation or the corpo-  
53 ration as the case may be,] was not legally authorized to acquire prop-  
54 erty, or a portion of such property, pursuant to this section; or the  
55 commissioner [or the corporation] denies that there was any taking of  
56 property, makes no offer to settle the value of the claim for such prop-

erty and there shall be a final judgment by a court of competent jurisdiction that the commissioner [or the corporation] did in fact take such property; or the procedure to acquire such property is abandoned by the commissioner [or the corporation]; authorization is hereby given for the reimbursement to the person or other entity entitled thereto, as determined by the commissioner [or the corporation], of an amount, separately computed and stated, for reasonable costs, disbursements and expenses, including reasonable attorney, appraisal and engineering fees, actually incurred by such person or other entity because of the acquisition procedure.

Application for either of such reimbursements shall be made to the [corporation] DEPARTMENT upon forms prescribed by [it] THE COMMISSIONER and shall be accompanied by such information and evidence as the [corporation] COMMISSIONER may require. Upon approval of such application, the [corporation] COMMISSIONER shall deliver a copy thereof to the controller together with a certificate stating the amount due thereunder, and the amount so fixed shall be paid out of funds available for this purpose.

11. Authorization is hereby given to the [corporation] COMMISSIONER to make supplemental relocation payments, separately computed and stated, to displaced owners and tenants of residential property acquired pursuant to this section who are entitled thereto, as determined by such [corporation] COMMISSIONER. The [corporation] COMMISSIONER may establish and from time to time amend rules and regulations providing for such supplemental relocation payments. Such rules and regulations may further define the terms used in this subdivision. In the case of property acquired pursuant to this section which is improved by a dwelling actually owned and occupied by the displaced owner for not less than one hundred eighty days immediately prior to initiation of negotiations for the acquisition of such property, such payment to such owner shall not exceed fifteen thousand dollars. Such payment shall be the amount, if any, which, when added to the acquisition payment equals the average price, established by the [corporation] COMMISSIONER on a class, group or individual basis, required to obtain a comparable replacement dwelling that is decent, safe and sanitary to accommodate the displaced owner, reasonably accessible to public services and places of employment and available on the private market, but in no event shall such payment exceed the difference between acquisition payment and the actual purchase price of the replacement dwelling. Such payment shall include an amount which will compensate such displaced owner for any increased interest costs which such person is required to pay for financing the acquisition of any such comparable replacement dwelling. Such amount shall be paid only if the dwelling acquired pursuant to this section was encumbered by a bona fide mortgage which was a valid lien on such dwelling for not less than one hundred eighty days prior to the initiation of negotiations for the acquisition of such dwelling. Such amount shall be equal to the excess in the aggregate interest and other debt service costs of that amount of the principal of the mortgage on the replacement dwelling which is equal to the unpaid balance of the mortgage on the acquired dwelling, over the remaining term of the mortgage on the acquired dwelling, reduced to discounted present value. The discount rate shall be the prevailing interest rate paid on savings deposits by commercial banks in the general area in which the replacement dwelling is located. Any such mortgage interest differential payment shall, notwithstanding the provisions of section twenty-six-b of the general construction law, be in lieu of and in full satisfaction of the require-

ments of such section. Such payment shall include reasonable expenses incurred by such displaced owner for evidence of title, recording fees and other closing costs incident to the purchase of the replacement dwelling, but not including prepaid expenses. Such payment shall be made only to a displaced owner who purchases and occupies a replacement dwelling which is decent, safe and sanitary within one year subsequent to the date on which he OR SHE is required to move from the dwelling acquired pursuant to this section or the date on which he OR SHE receives from the state final payment of all costs of the acquired dwelling, whichever occurs later, except advance payment of such amount may be made in hardship cases. In the case of property acquired pursuant to this section from which an individual or family, not otherwise eligible to receive a payment pursuant to the above provisions of this subdivision, is displaced from any dwelling thereon which has been actually and lawfully occupied by such individual or family for not less than ninety days immediately prior to the initiation of negotiations for the acquisition of such property, such payment to such individual or family shall not exceed four thousand dollars. Such payment shall be the amount which is necessary to enable such individual or family to lease or rent for a period not to exceed four years, a decent, safe and sanitary dwelling of standards adequate to accommodate such individual or family in areas not generally less desirable in regard to public utilities and public and commercial facilities and reasonably accessible to his OR HER place of employment, but shall not exceed four thousand dollars, or to make the down payment, including reasonable expenses incurred by such individual or family for evidence of title, recording fees, and other closing costs incident to the purchase of the replacement dwelling, but not including prepaid expenses, on the purchase of a decent, safe and sanitary dwelling of standards adequate to accommodate such individual or family in areas not generally less desirable in regard to public utilities and public and commercial facilities, but shall not exceed four thousand dollars, except if such amount exceeds two thousand dollars, such person must equally match any such amount in excess of two thousand dollars, in making the down payment. Such payments may be made in installments as determined by the [corporation] COMMISSIONER. Application for payment under this subdivision shall be made to the [corporation] DEPARTMENT upon forms prescribed by [such corporation] THE COMMISSIONER and shall be accompanied by such information and evidence as the [corporation] COMMISSIONER may require. Upon approval of such application, the [corporation] COMMISSIONER shall deliver a copy thereof to the comptroller, together with a certificate stating the amount due thereunder, and the amount so fixed shall be paid out of funds available for such purpose.

12. The owner of any property, easements, interests or rights appropriated, may present to the court of claims a claim for the value of such property appropriated and for legal damages as provided by law for the filing of claims with the court of claims. Payment of such awards and judgments of the court of claims shall be made in the manner now prescribed by law.

13. If the work of improvement, maintenance, control, management or repair of the canal system causes damage to property not acquired as above provided, the state shall be liable therefor, but this provision shall not be deemed to create any liability not already existing by statute. Claims for such damage may be adjusted by the [corporation] COMMISSIONER, if the amounts thereof can be agreed upon with the persons making such claims, and any amount so agreed upon shall be paid as a

1 part of the cost of such improvement, maintenance, control, management  
2 or repair as prescribed by this section. If the amount of any such claim  
3 is not agreed upon, such claim may be presented pursuant to the eminent  
4 domain procedure law to the court of claims which is hereby authorized  
5 to hear such claim and determine if the amount of such claim or any part  
6 thereof is a legal claim against the state, and, if it so determines, to  
7 make an award and enter judgment thereon against the state, provided,  
8 however, that such claim is filed with the court of claims within three  
9 years after the accrual of such claim.

10 14. Notwithstanding any other provision of this section, the [corpo-  
11 ration or the] commissioner [of transportation at the request of the  
12 corporation] shall have the power to acquire by grant or purchase, in  
13 the name of the people of the state of New York, any property which he  
14 or [the corporation] SHE deems necessary for any of the purposes  
15 provided for in this section, and payment therefor, if any, shall be  
16 made in the manner prescribed in this section for the payment of  
17 adjusted appropriation claims, provided, however, that no real property  
18 shall be so acquired unless the title thereto shall be approved by the  
19 attorney general.

20 15. The expense of the acquisition of property, including the cost of  
21 making surveys, preparing descriptions and maps of property to be  
22 acquired, and of administrative duties in connection therewith, serving  
23 notices of appropriation, publication, making appraisals and agreements  
24 and of searches ordered and examinations and readings and approval of  
25 titles made by the attorney general, and expenses incurred by the  
26 [corporation or the] commissioner [of transportation at the request of  
27 the corporation] and attorney general in proceedings for the removal of  
28 owners or occupants, shall be deemed a part of the cost of operation of  
29 the respective offices where such employees are engaged or of the  
30 department having charge of such matters and shall be paid from moneys  
31 appropriated for the operation of such offices. If a special fund has  
32 been set up to provide for the acquisition of property, then such  
33 expense involved may be made payable from such fund.

34 16. Notwithstanding the provisions of any general, special or local  
35 law, the [corporation or the] commissioner [of transportation at the  
36 request of the corporation], his or [its] HER officers, agents or  
37 contractors when engaged on work connected with the canal system, as  
38 described in subdivision one of this section, may, pursuant to the  
39 provisions of the eminent domain procedure law, enter upon any property  
40 for the purpose of making surveys, test pits, test borings, or other  
41 investigations and also for temporary occupancy during construction.  
42 Claims for any damage caused by such entry, work or occupation not  
43 exceeding two thousand five hundred dollars may be adjusted by agreement  
44 by the [corporation or the] commissioner [of transportation at the  
45 request of the corporation] with the owner of the property affected as  
46 determined by him or [such corporation] HER by reasonable investigation  
47 without appropriating such property. Upon making any such adjustment and  
48 agreement, the [corporation or the] commissioner [of transportation]  
49 shall deliver to the comptroller such agreement and a certificate stat-  
50 ing the amount due such owner and the amount so fixed shall be paid out  
51 of the funds available for such purpose.

52 17. If the [corporation] COMMISSIONER shall determine subsequent to  
53 the acquisition of a temporary easement right in property and subsequent  
54 to the filing of a description and map of such property in the office of  
55 the county clerk or register, as aforesaid, that the purposes for which  
56 such easement right was acquired have been accomplished and that the use

1 and occupancy of said property for canal purposes are no longer neces-  
2 sary, and that, therefore, the term of such easement should be further  
3 limited, or if the appropriation of such easement was for an indefinite  
4 period, that such period should be fixed and determined, or that the  
5 period of such easement has by its terms expired, the [corporation]  
6 COMMISSIONER shall make [its] HIS OR HER certificate that the use and  
7 occupancy of such property for canal purposes are no longer necessary,  
8 that the property in which such easement right was acquired is surren-  
9 dered back to the affected owner of said property and that such easement  
10 right is thereupon terminated, released and extinguished. The [corpo-  
11 ration] COMMISSIONER shall cause a copy of such certificate to be filed  
12 in the office of the department of state. Upon the filing of such  
13 certificate in the office of the department of state all rights acquired  
14 by the state in such property shall cease and determine. The [corpo-  
15 ration] COMMISSIONER shall cause a copy of such certificate together  
16 with notice of the filing thereof in the office of the department of  
17 state to be mailed to the owner or owners of the property affected, as  
18 certified by the attorney general, if the place of residence of such  
19 owner or owners is known or can be ascertained by a reasonable effort. A  
20 further copy of such certificate and notice of filing shall be filed in  
21 the office of the recording officer of each county wherein the property  
22 affected is situated. On the filing of such certificate and notice with  
23 such officer it shall be the duty of such officer to record same in the  
24 books used for recording deeds in the office of such officer.

25 18. Notwithstanding any other provision of this section, the [corpo-  
26 ration] COMMISSIONER shall have the power to acquire by grant or  
27 purchase, in the name of the people of the state of New York, any prop-  
28 erty which [it] HE OR SHE deems necessary for any of the purposes  
29 provided for in this section and may also acquire for such purposes from  
30 the Palisades interstate park commission, in the name of the people of  
31 the state of New York, such lands and such easements, licenses, permits  
32 and other rights over lands as the said commission is authorized to  
33 grant, sell, exchange or convey. When the acquisition by appropriation,  
34 grant or purchase of property deemed necessary for canal purposes would  
35 result in substantial consequential damages to the owner's remaining  
36 property, due to loss of access, severance or control of access, the  
37 [corporation] COMMISSIONER, for and on behalf of the people of the state  
38 of New York, may acquire by purchase or grant all or any portion of such  
39 remaining property. Payment therefor, if any, shall be made in the  
40 manner prescribed in this section for the payment of adjusted appropri-  
41 ation claims, provided, however, that no real property shall be so  
42 acquired unless the title thereto shall be approved by the attorney  
43 general.

44 S 20. Section 41 of the canal law, as amended by chapter 335 of the  
45 laws of 2001, is amended to read as follows:

46 S 41. Acquisition of cemeteries. Whenever in the judgment of the  
47 [corporation] COMMISSIONER, it is necessary for the purposes of improv-  
48 ing, maintaining or repairing the canal system, to appropriate any prop-  
49 erty occupied by graves, burial places, cemeteries or other places of  
50 interment of human remains, the [corporation] COMMISSIONER may acquire  
51 such property in the manner and by the method prescribed by this arti-  
52 cle. [It] HE OR SHE shall cause the removal of all such remains to any  
53 other cemetery or burial place, whether private or public, as the board  
54 of trustees or governing body of such burial place or burial ground  
55 shall designate. All removals and transportation of such human remains  
56 shall be done in accordance with the provisions of the public health

1 law. Whenever any person or persons legally entitled to direct as to the  
2 disposition of any human remains exhumed or to be exhumed from any ceme-  
3 tery, burial place or graves as herein provided, desires to remove the  
4 same for reinterment to any burial plot or cemetery not within the same  
5 county from which such remains were exhumed, such person or persons so  
6 entitled to designate such other burial place or plot shall be permitted  
7 to remove such exhumed remains from such county subject to the written  
8 consent of the [corporation] COMMISSIONER and provisions of the public  
9 health law, but no portion of the expense of such transportation or  
10 burial in another county shall be borne by the state [or the corpo-  
11 ration].

12 S 21. Section 42 of the canal law, as amended by chapter 335 of the  
13 laws of 2001, is amended to read as follows:

14 S 42. Removal of encroachments. The [corporation] COMMISSIONER is  
15 authorized to cause to be removed from canal property any building, part  
16 of a building or structure erected, placed, maintained or otherwise  
17 occupying such canal property, if, in [its] HIS OR HER opinion, the  
18 removal is necessary for the improvement, use, maintenance, control,  
19 management, repair or operation of the canal system. It shall be the  
20 duty of any person owning or maintaining such a building, part of a  
21 building or structure to remove the same within thirty days from the  
22 service by the [corporation] COMMISSIONER upon said person of a notice  
23 ordering its removal. Upon the failure of the person so ordered to  
24 remove the building, part of a building or structure, the [corporation]  
25 COMMISSIONER may, without liability on the part of the state [or the  
26 corporation], take whatever action [it] HE OR SHE may deem necessary to  
27 cause the removal. Service of the order of removal must be personal if  
28 the person to be served can be found within the state. If the [corpo-  
29 ration] COMMISSIONER shall not be able to serve such notice or cause the  
30 same to be served on the [said] SUCH person within the state after  
31 making a reasonable effort so to do, service may be made by attaching  
32 such notice to the [said] SUCH building, part of a building or struc-  
33 ture.

34 S 22. Section 43 of the canal law, as amended by chapter 335 of the  
35 laws of 2001, is amended to read as follows:

36 S 43. Exchange of property. In order to facilitate the acquisition of  
37 property as defined in this article, and which, in the judgment of the  
38 [corporation] COMMISSIONER, will be in the public interest and necessary  
39 for canal purposes, payment for such property may be made by means of an  
40 exchange therefor of property found to be no longer necessary or useful  
41 as a part of the barge canal system, or as an aid to navigation thereon,  
42 or for barge canal terminal purposes. The property to be so acquired  
43 shall be of at least equal value to that of such property to be  
44 exchanged. The [corporation] COMMISSIONER is authorized and empowered to  
45 enter into an agreement with the owner or owners of such property to be  
46 so acquired, upon such terms and conditions as to such [corporation]  
47 COMMISSIONER shall seem appropriate and proper to accomplish such  
48 purpose.

49 In all such cases, the property so to be exchanged shall first be  
50 declared abandoned by official order of the [corporation] COMMISSIONER  
51 which order shall set forth the benefits to be obtained by such  
52 exchange. In such abandonment it shall be unnecessary to conform to the  
53 provisions for abandonment made in section fifty-one of this chapter.  
54 The agreement and the title to the property to be acquired shall be  
55 subject to the approval of the attorney-general. Upon the approval of  
56 title by the attorney-general, the [corporation] COMMISSIONER is author-

1 ized and empowered to execute in the name of the people of the state of  
2 New York, a quit-claim deed to effectuate such exchange, which shall be  
3 subject to the approval of the attorney-general. The deed so executed,  
4 before becoming effective, shall be recorded in the office of the secre-  
5 tary of state. Compensation on account of excess value if any, of the  
6 lands so acquired shall be adjusted and paid in the manner provided by  
7 section forty of this article, as in the case of property taken by  
8 appropriation.

9 S 23. Section 50 of the canal law, as amended by chapter 335 of the  
10 laws of 2001, is amended to read as follows:

11 S 50. Authority to abandon canal lands. 1. Authority is hereby  
12 conferred upon the [corporation] COMMISSIONER to abandon any portion of  
13 barge canal lands, barge canal terminal lands, or old canal lands and  
14 appertaining structures constituting the canal system prior to the barge  
15 canal improvement, which have or may become no longer necessary or  
16 useful as a part of the barge canal system, as an aid to navigation  
17 thereon, or for barge canal terminal purposes. This authority, however,  
18 shall not include the abandonment of a barge canal terminal unless such  
19 terminal has been by a special act of the legislature previously deter-  
20 mined to have become no longer necessary or useful as a part of the  
21 barge canal system, as an aid to navigation thereon, or for barge canal  
22 terminal purposes.

23 2. Abandonments authorized pursuant to this section shall be subject  
24 to the provisions of subdivision seventeen of section ten of this chap-  
25 ter.

26 S 24. Section 51 of the canal law, as amended by chapter 44 of the  
27 laws of 2009, is amended to read as follows:

28 S 51. Method of abandonment. Prior to the exercising of such authority  
29 of abandonment, however, the [corporation] COMMISSIONER shall cause a  
30 notice of any proposed abandonment to be transmitted to the commission  
31 and to be published once each week for three successive weeks in a news-  
32 paper published in the county wherein such lands are located, except  
33 that such publication shall appear in a newspaper published in the muni-  
34 cipality or locality wherein such lands are located when there is a  
35 newspaper published in such municipality or locality. Such notice shall  
36 describe the lands proposed to be abandoned with sufficient certainty to  
37 identify them and invite interested parties to file written statements  
38 either supporting or opposing the proposed abandonment. Upon the expira-  
39 tion of the period of publishing said notice, when it is the case that  
40 the assessment for such lands proposed for abandonment is equal to or  
41 greater than fifty thousand dollars, the [corporation] COMMISSIONER  
42 shall hold a hearing at which evidence or further information may be  
43 submitted. A record shall be made of all evidence submitted at such  
44 hearing. If no hearing shall appear to the [corporation] COMMISSIONER to  
45 be warranted or subsequent to such hearing, should one be held, the  
46 [corporation] COMMISSIONER may in [its] HIS OR HER discretion declare  
47 such lands abandoned for the purposes of the canal system. The [corpo-  
48 ration] COMMISSIONER shall thereupon issue an official order abandoning  
49 the lands for canal purposes together with a map and description of the  
50 lands abandoned and dispose of any portion of canal lands so abandoned.  
51 Any money realized from the sale of such land shall be deposited into  
52 the canal fund.

53 S 25. Section 53 of the canal law, as amended by chapter 335 of the  
54 laws of 2001, is amended to read as follows:

55 S 53. Sale of abandoned lands for railroad bridges. Whenever any canal  
56 lands, as defined in article one of this chapter, are required in

1 connection with any railroad bridge which has been or which is to be  
2 constructed, reconstructed or raised by or for a railroad corporation  
3 over that portion of the barge canal, which has been or which will be  
4 improved by the use of moneys allotted or to be allotted to the state by  
5 the federal government in accordance with chapter six hundred eighty-  
6 eight of the laws of nineteen hundred thirty-four, the [corporation]  
7 COMMISSIONER may issue an official order abandoning the lands for canal  
8 purposes. Upon a written request by the railroad corporation, and  
9 notwithstanding the provisions of any general or special law, the  
10 [corporation] COMMISSIONER is authorized to grant and convey such land  
11 to said railroad corporation for and on behalf of the people of the  
12 state of New York for the purposes mentioned and for a nominal or other  
13 consideration and upon such terms and conditions which he OR SHE shall  
14 deem to be beneficial to the state. Such instrument of grant and convey-  
15 ance shall become effective when it is recorded in the office of the  
16 secretary of state. Any moneys realized from the sale of such land shall  
17 be deposited into the canal fund.

18 S 26. Section 54 of the canal law, as amended by chapter 335 of the  
19 laws of 2001, is amended to read as follows:

20 S 54. Abandonment and sale of hydropower easements; agreements with  
21 hydropower developers. 1. Notwithstanding subdivision two of section  
22 three or section fifty of the public lands law or section fifty, fifty-  
23 one or fifty-two of this article, upon request of a person licensed  
24 under Part I of the Federal Power Act (16 USC S 791a-823a) to develop  
25 and operate a hydropower project at a site on the barge canal system,  
26 the [corporation] COMMISSIONER may adopt an order abandoning a hydropow-  
27 er easement in barge canal system lands and waters which are within the  
28 boundaries of such federally licensed project, upon finding the property  
29 rights under such easement to be no longer necessary or useful as a part  
30 of the barge canal system, as an aid to navigation thereon, or for barge  
31 canal terminal purposes. Upon adoption of such order, and with the  
32 approval of the governor, the [corporation] COMMISSIONER may sell and  
33 convey such easement at private sale to such licensed developer. Such  
34 hydropower easements shall be sold for a price to be determined by the  
35 [corporation] COMMISSIONER taking into consideration the value of obli-  
36 gations to be assumed by such licensed developer, the value of the  
37 rights granted to such developer to use canal system lands, waters and  
38 facilities for hydropower project purposes and any other appropriate  
39 factors.

40 2. Any hydropower easement abandoned, sold and conveyed pursuant to  
41 subdivision one of this section shall be limited as follows:

42 (a) The easement shall convey only those rights necessary and conven-  
43 ient for the development and generation of hydropower pursuant to the  
44 provisions of the applicable federal hydropower license and only within  
45 the boundaries of the hydropower project as licensed.

46 (b) The easement shall be subservient to the fee retained by the  
47 state.

48 (c) The easement shall not give the owner the right to interfere with,  
49 either by act or omission, the management and control by the state[,  
50 through the corporation,] of the barge canal system.

51 (d) The easement shall provide that it shall revert to the state under  
52 terms and conditions to be determined by the [corporation] COMMISSIONER  
53 in the event that the site ceases to be used for purposes of hydropower  
54 development and generation.

55 3. The [corporation] COMMISSIONER may also enter into agreements with  
56 such a licensed developer regarding the division of maintenance respon-

1 sibility for structures, facilities or other property which serve both  
2 hydropower generation and barge canal system purposes and regarding  
3 other matters concerning joint operation at the site. Such agreements  
4 may provide for the payment to the [corporation] DEPARTMENT of reason-  
5 able compensation for services rendered by the [corporation] DEPARTMENT  
6 which assist or otherwise further the development of hydropower on the  
7 barge canal system. In addition, the [corporation] COMMISSIONER, subject  
8 to the approval of the director of the budget, may enter into a written  
9 agreement with a licensed developer or operator at any site concerning  
10 the sharing of costs for a major capital improvement or improvements at  
11 such site. Should the contract for such improvement or improvements be  
12 let and awarded by the [corporation] COMMISSIONER, the state comptroller  
13 is authorized to receive and accept from the developer or operator, the  
14 sum or sums specified in such agreement and to disburse the same along  
15 with state funds appropriated for the purpose of such capital improve-  
16 ment or improvements.

17 4. Any revenue realized from the sale or lease of hydropower easements  
18 shall be deposited into the canal fund.

19 S 27. Section 55 of the canal law, as amended by chapter 335 of the  
20 laws of 2001, is amended to read as follows:

21 S 55. Authority to lease land. 1. The [corporation] COMMISSIONER is  
22 hereby authorized, after review and comment by the commission as to  
23 consistency with the canal recreationway plan approved pursuant to  
24 section one hundred thirty-eight-c of this chapter and section three  
25 hundred eighty-two of the public authorities law, to enter into leases  
26 of canal lands, canal terminals, and canal terminal lands which are  
27 consistent with the canal recreationway plan. Such review and comment  
28 shall be provided within the time period set forth in the procedures of  
29 the commission established pursuant to section one hundred  
30 thirty-eight-b of this chapter which shall be no more than sixty days.

31 2. Lands to be leased shall be determined by the [corporation] COMMIS-  
32 SIONER to have no essential purpose for navigation.

33 3. Leases of canal lands, canal terminals and canal terminal lands  
34 shall be for purposes which are consistent with the New York state canal  
35 recreationway plan approved pursuant to section one hundred thirty-  
36 eight-c of this chapter and section three hundred eighty-two of the  
37 public authorities law.

38 4. The [corporation] COMMISSIONER shall consider fully completed  
39 applications for leases of canal lands, canal terminals and canal termi-  
40 nal lands in such form and manner as the [corporation] COMMISSIONER  
41 shall prescribe.

42 5. Canal lands, canal terminals and canal terminal lands within the  
43 Adirondack park shall not be leased.

44 6. The [corporation] COMMISSIONER shall provide assistance, including  
45 reasonable access to lands, as may be necessary to assist potential  
46 applicants in preparing an application.

47 7. The [corporation] COMMISSIONER may require an applicant for a lease  
48 to provide necessary property surveys, environmental studies, maps and  
49 photographs, site plans and such other documents and studies as the  
50 [corporation] COMMISSIONER may determine to be necessary to ascertain  
51 the compatibility of proposed development with the New York state canal  
52 recreationway plan and for the [corporation] COMMISSIONER to select a  
53 qualified lessee.

54 8. Revenues realized from the lease of canal lands, canal terminals  
55 and canal terminal lands shall be deposited into the canal fund.

1 S 28. Section 56 of the canal law, as amended by chapter 335 of the  
2 laws of 2001, is amended to read as follows:

3 S 56. Conditions and terms of leases. Leases for canal lands, canal  
4 terminals and canal terminal lands shall include:

5 1. the period of time for such leases, provided that the initial term  
6 of such leases may not exceed forty years, and renewals of such leases  
7 may not exceed an additional forty years beyond such initial terms;

8 2. requirements that the lessee take no actions or construct no  
9 improvements that will interfere with navigation, except that if the  
10 [corporation] COMMISSIONER determines that any potential adverse inter-  
11 ference with navigation can be reasonably mitigated, the [corporation]  
12 COMMISSIONER shall include in the lease such requirements as may be  
13 necessary to effectuate mitigation of impediments to navigation;

14 3. proper covenants to assure the payment of adequate consideration  
15 for the interests leased, and to further protect the state [and the  
16 corporation] as is deemed necessary by the [corporation] COMMISSIONER;

17 4. provisions requiring that payments on the lease shall be paid to  
18 the [corporation] DEPARTMENT;

19 5. provisions relating to public access, where feasible, to lands and  
20 waters of the canal system; provided however that the [corporation]  
21 COMMISSIONER may require that public access be restricted in those cases  
22 where the [corporation] COMMISSIONER determines that public safety will  
23 be served by such restriction;

24 6. provisions providing a right of entry for commission and [corpo-  
25 ration] DEPARTMENT members and personnel and equipment for canal  
26 purposes; and

27 7. such other terms as the [corporation] COMMISSIONER shall determine  
28 are necessary and appropriate for the implementation of this article and  
29 the preservation of the state's interest in the canal system.

30 S 29. Section 57 of the canal law, as amended by chapter 335 of the  
31 laws of 2001, is amended to read as follows:

32 S 57. Special conditions for leases entered prior to approval of canal  
33 recreationway plan. 1. In the period between the effective date of this  
34 section and the completion of the canal recreationway plan, the commis-  
35 sion shall review and comment on proposed leases with respect to the  
36 consistency of such leases with the provisions of this article. Where  
37 local zoning laws and zoning ordinances are in effect on lands proposed  
38 to be leased or on lands adjacent to those lands proposed to be leased,  
39 during such period the commission shall also review and comment on  
40 proposed leases with respect to the compatibility of such leases, to the  
41 extent practicable, with the requirements of such local zoning laws and  
42 zoning ordinances.

43 2. In addition to the other applicable provisions of this article, the  
44 [corporation] COMMISSIONER shall ensure that: (a) the lease will benefit  
45 the canal system by effectuating the development of the canal as a  
46 recreationway; (b) the lease will foster a canal system characterized by  
47 clusters of development and stretches of undeveloped open space which is  
48 conducive to the preservation of waterfowl, fish and wildlife habitats;  
49 and (c) may encourage the use of historic buildings, sites and districts  
50 listed on or eligible for the state or national registers of historic  
51 places.

52 S 30. Section 60 of the canal law, as amended by chapter 420 of the  
53 laws of 1968, is amended to read as follows:

54 S 60. Alteration of county roads or town highways. Whenever the  
55 commissioner [of transportation] shall deem it necessary to discontinue  
56 or alter any part of a county road or town highway because of its inter-

1   ference with the proper location or construction of any work on the  
2   canal system either of [improvement, maintenance,] IMPROVEMENT, MAINTENANCE  
3   or repair he OR SHE shall direct such discontinuance or alteration to be  
4   made and file in the office of the clerk of the county or town in which  
5   such road or highway is situate, an accurate description of the part of  
6   such road or highway so discontinued and of the one laid out anew. From  
7   the time of filing such description such road or highway shall be  
8   considered so altered. The use of such old road or highway shall not be  
9   discontinued until the new road or highway is declared open for public  
10   use by the commissioner [of transportation], and a certificate to such  
11   effect filed in the office of the clerk of the county or town in which  
12   said road or highway is located. Every alteration made on any public  
13   road located upon the canal system before the first day of January,  
14   nineteen hundred and thirty-nine shall be deemed valid in law from the  
15   time of such alteration.

16   S 31. Section 61 of the canal law, as amended by chapter 420 of the  
17   laws of 1968, is amended to read as follows:

18   S 61. Farm and road bridges. The commissioner [of transportation] is  
19   authorized and required to maintain until April first, nineteen hundred  
20   fifty-four, at public expense farm, road and street bridges over the  
21   canal system, in all places where such bridges were constructed prior to  
22   the twentieth day of April, eighteen hundred thirty-nine, if, in his OR  
23   HER opinion, the public convenience requires that they should be contin-  
24   ued, whether heretofore maintained at the expense of the state or of the  
25   counties, towns, villages and cities where they are situate, provided,  
26   however, that commencing on the first day of April, nineteen hundred  
27   fifty-four, and continuing thereafter, the maintenance, repair, improve-  
28   ment, replacement or closing of any such bridge over any section of the  
29   canal heretofore abandoned or which may hereafter be abandoned shall be  
30   governed by the provisions of the highway law, except that any such  
31   bridges situate in a city shall be maintained, repaired, improved,  
32   replaced or closed in the same manner and subject to the same provisions  
33   of law as apply to other streets and bridges in such city.

34   S 32. Section 62 of the canal law, as amended by chapter 335 of the  
35   laws of 2001, is amended to read as follows:

36   S 62. Maintenance by state of certain bridges over the canal system.  
37   All highway or pedestrian, lift or movable bridges over the canal system  
38   other than highway bridges connecting parts of a state highway hereto-  
39   fore constructed as a part of the barge canal improvement shall be  
40   reconstructed, improved, maintained and repaired at the expense of the  
41   state, if in the opinion of the commissioner [of transportation], the  
42   public convenience requires such bridges to be maintained where no  
43   alternate crossing has been provided. In the event the commissioner [of  
44   transportation] determines that any such bridge is no longer required  
45   for the convenience of the public, he OR SHE shall have power to close,  
46   remove or relocate such bridge. The commissioner [of transportation]  
47   shall have the supervision and direction of such reconstruction,  
48   improvement, maintenance, repair, closing, removing or relocation. All  
49   bridges over the canal system other than lift, movable, pedestrian or  
50   state highway bridges heretofore constructed as part of the barge canal  
51   improvement shall be reconstructed, improved, maintained and repaired at  
52   the expense of the state under the supervision and direction of the  
53   commissioner [of transportation], if, in his OR HER opinion, the public  
54   convenience requires that each such bridge shall be continued as a  
55   bridge for highway traffic. In the event the commissioner [of transpor-  
56   tation] is requested by any municipality to reconstruct or improve any

1 such bridge, he OR SHE is hereby empowered to do so, provided, however,  
2 that prior to such reconstruction or improvement the municipality enters  
3 into a written agreement that such bridge thereafter shall become a part  
4 of the highway system or systems which it may connect and the mainte-  
5 nance, repair, improvement, replacement or closing of any such bridge  
6 shall be governed by the provisions of the highway law, except that any  
7 such bridges situate in a city shall be maintained, repaired, improved,  
8 replaced or closed in the same manner and subject to the provisions of  
9 any special law which may apply or to the same provisions of law as  
10 apply to other streets and bridges in such city or in the case of such  
11 bridges situate in a village, such bridges shall be maintained,  
12 repaired, improved, replaced or closed in the same manner and subject to  
13 the same provisions of law as apply to other streets and bridges in such  
14 village. Any bridge over the New York state canal system or abandoned  
15 part thereof which joins parts of a state highway shall be under the  
16 jurisdiction of the commissioner [of transportation] and deemed to be  
17 part of the state highway system and such bridges shall be constructed,  
18 reconstructed, improved, maintained, repaired, closed or relocated  
19 pursuant to the provisions of the highway law and the cost of such work  
20 shall be paid from moneys available for construction, reconstruction,  
21 improvement, maintenance or repair of state highways.

22 S 33. Section 63 of the canal law, as amended by chapter 420 of the  
23 laws of 1968, is amended to read as follows:

24 S 63. Maintenance by state of alteration to certain highway bridges  
25 not state owned. When in the canalization of a natural waterway to form  
26 a part of the canal system it has been or may be necessary to alter an  
27 existing highway bridge spanning the canalized portion of the waterway,  
28 the maintenance and repair of the additional or new part or parts of  
29 such bridge structure which may have been or may be necessary in alter-  
30 ing the bridge to meet the requirements of navigation, shall be an obli-  
31 gation of the state. The commissioner [of transportation] shall have  
32 supervision and direction over such maintenance or repairs, the cost of  
33 which shall be defrayed from moneys appropriated for the improvement,  
34 maintenance and repair of the canal system.

35 S 34. Section 64 of the canal law, as amended by chapter 420 of the  
36 laws of 1968, is amended to read as follows:

37 S 64. Commutation for bridges. The commissioner [of transportation]  
38 may commute with owners and claimants of bridges over any canal, by  
39 paying such owner or claimant such sum in lieu of a bridge as may be  
40 agreed on between the claimant and the commissioner [of transportation].  
41 If, in the opinion of the commissioner [of transportation], a bridge  
42 should not be rebuilt, and the amount to be paid be not agreed upon, the  
43 bridge shall not be built, but the damages sustained by such owner by  
44 being deprived of such bridge and which the state under all the circum-  
45 stances ought of right to pay, shall be ascertained in the same manner  
46 as damages for the appropriation of real property, for the use of the  
47 canal and paid by the commissioner [of transportation], on the approval  
48 of the attorney-general. If the damages claimed are for the deprivation  
49 of a bridge which the claimant had before constructed or maintained, the  
50 circumstance of his OR HER being equitably bound to contribute propor-  
51 tionately toward the construction and maintenance of an enlarged bridge  
52 shall be taken into consideration and a proper amount of that account  
53 shall be set off against any damage to which the claimant might other-  
54 wise be entitled.

55 S 35. Section 65 of the canal law, as amended by chapter 420 of the  
56 laws of 1968, is amended to read as follows:

1 S 65. Private road in lieu of farm bridges. If the commissioner [of  
2 transportation] cannot agree with the owner of a farm bridge spanning a  
3 canal as to the amount of commutation in any case where he OR SHE is of  
4 the opinion that the state should erect such bridge, and the commission-  
5 er [of transportation] determines that a private road through adjoining  
6 lands will sufficiently accommodate such owner, and that the same can be  
7 laid out with economy to the state, he OR SHE may take the necessary  
8 action to lay out a private road for the accommodation of the owner, in  
9 the manner prescribed by law for laying out private roads and pay to the  
10 owner of the lands through which the same is laid out, the damages  
11 assessed.

12 S 36. Section 66 of the canal law, as amended by chapter 420 of the  
13 laws of 1968, is amended to read as follows:

14 S 66. Restrictions on the construction of farm and road bridges. A  
15 person shall not be entitled to demand a farm bridge across a canal or  
16 feeder where the necessity of convenience of such bridge shall have  
17 arisen from the division or acquisition of property subsequent to the  
18 location of such canal or feeder. A street or road bridge shall not be  
19 constructed by the commissioner [of transportation] over a canal or  
20 feeder, except upon such streets or roads as were laid out, worked or  
21 used, previously to the construction of the canal or feeder, by which  
22 such street or road is obstructed; and when bridges are constructed or  
23 reconstructed upon any such streets or roads, the cost to the state  
24 shall in no case be more than is required to preserve in a safe and  
25 substantial manner the continuity of such streets or roads so as not to  
26 unnecessarily impair their usefulness. When a bridge of a more costly  
27 nature is desired by the local authorities of a city, town or village  
28 within whose corporate limits a bridge is to be built or rebuilt, the  
29 commissioner [of transportation], on presentation to him OR HER by such  
30 local authorities of plans and specifications for such bridge and  
31 approval thereof by him OR HER shall estimate and determine the propor-  
32 tion of the cost, which, in order to preserve the continuity of such  
33 streets and roads, the state ought equitably to pay, and file such esti-  
34 mate and determination in his OR HER office and a duplicate thereof in  
35 the office of the clerk of such city, town or village. If a private road  
36 or public highway is laid out by legal authority in such direction as to  
37 require the erection of a new bridge over a canal for the accommodation  
38 of the road, such bridge shall be so constructed and forever maintained  
39 at the expense of the town, village or city in which it shall be situ-  
40 ated.

41 S 37. Section 67 of the canal law, as amended by chapter 420 of the  
42 laws of 1968, is amended to read as follows:

43 S 67. Construction of bridges by municipal corporations. The common  
44 council of any city may provide by ordinance for the erection of a lift,  
45 hoist or swing bridge over a canal at any street in such city, on plans  
46 and specifications approved by the commissioner [of transportation]. If  
47 the commissioner [of transportation] shall consent to such erection he  
48 OR SHE shall file such consent with the clerk of such common council.  
49 Such bridge shall be built, operated and maintained under the super-  
50 vision and control of the commissioner [of transportation], but at the  
51 expense of such city or of the property adjudged by the common council  
52 to be so benefited.

53 S 38. Subdivision 1 of section 68 of the canal law, as amended by  
54 chapter 420 of the laws of 1968 and as designated by chapter 422 of the  
55 laws of 1994, is amended to read as follows:

1 1. When a bridge spanning the Oswego canal or that portion of the Erie  
2 canal between the Hudson river and its junction with the Oswego canal,  
3 is to be reconstructed, or a new bridge is to be built over such  
4 sections of the canal system, such reconstructed or new bridge shall be  
5 so built as to provide a clear passageway between the bottom clearance  
6 line of the bridge, if of the fixed type, or the bottom clearance line  
7 when raised, if of the movable type, and the surface of the water at its  
8 highest navigable stage of not less than twenty feet. When a bridge  
9 spanning the Champlain canal, the Cayuga and Seneca canals, or that  
10 portion of the Erie canal westerly of Three Rivers is to be recon-  
11 structed or a new bridge is to be built over such sections of the canal  
12 system, such reconstructed or new bridge shall be so built as to provide  
13 a clear passageway between the bottom clearance line of the bridge, if  
14 of the fixed type, or the bottom clearance line when raised, if of the  
15 movable type, and the surface of the water at its highest navigable  
16 stage, of not less than fifteen and one-half feet. The commissioner [of  
17 transportation] may, however, if in his OR HER judgment the additional  
18 cost is not unreasonable, require that such bridges be reconstructed or  
19 constructed to provide a clearance of not less than twenty feet or that  
20 the substructure of such bridge be so constructed that the superstruc-  
21 ture may be raised to provide a clearance of twenty feet without  
22 rebuilding the foundation of said substructure.

23 S 39. Section 69 of the canal law, as amended by chapter 335 of the  
24 laws of 2001, is amended to read as follows:

25 S 69. Damages caused by excessive loads. The commissioner [of trans-  
26 portation] shall cause, where required, the posting of all bridges under  
27 his OR HER jurisdiction located on the canal system in conformity with  
28 the provisions of the vehicle and traffic law. Upon all such bridges  
29 incapable of safely carrying legal loads as prescribed in such law or  
30 where the overhead clearance is less than the legal height of fourteen  
31 feet, the commissioner [of transportation] shall have displayed on both  
32 ends of such bridge signs stating the safe carrying capacity and legal  
33 clearance of such structure, all in accordance with the provisions of  
34 section three hundred eighty-five of the vehicle and traffic law. No  
35 person shall cause to be transported over such a bridge a vehicle whose  
36 load is in excess of that shown upon the posted sign or whose height is  
37 in excess of the legal clearance as shown on such posted sign. Any  
38 person violating the above provisions shall be subject to the penalties  
39 imposed under section three hundred eighty-five of the vehicle and traf-  
40 fic law and in addition thereto shall be liable for all damages to such  
41 structure resulting from violation of such law. The commissioner [of  
42 transportation] is hereby authorized and directed to proceed, on behalf  
43 of the people of the state, to cause to be recovered, by the attorney-  
44 general in an appropriate action in any court of competent jurisdiction,  
45 the amount of damages sustained and expenses incurred by the state in  
46 consequence of such violation.

47 S 40. Section 69-a of the canal law is REPEALED.

48 S 41. Section 70 of the canal law, as amended by chapter 335 of the  
49 laws of 2001, is amended to read as follows:

50 S 70. Cargo statement. The master of any float shall furnish the  
51 [corporation] COMMISSIONER or [its] HIS OR HER representative a true  
52 statement of the quantity and description of the lading of such float,  
53 specifying the place from which it departed and to which it is destined.  
54 Any master who refuses to comply with any provision of this section  
55 shall forfeit to the people of the state a penalty not to exceed one  
56 hundred dollars, which shall be paid into the canal fund.

1 S 42. Section 71 of the canal law, as amended by chapter 335 of the  
2 laws of 2001, is amended to read as follows:

3 S 71. Registry of canal floats. The owner of every commercial float to  
4 be navigated on the canal system shall make application to the [corpo-  
5 ration] COMMISSIONER for a New York state certificate of registry. The  
6 application shall be in THE form prescribed by the [corporation] COMMIS-  
7 SIONER and shall contain such information as the [corporation] COMMIS-  
8 SIONER may deem essential for full and complete identification of the  
9 float and the owner thereof. It shall be signed by the owner if an indi-  
10 vidual, or by an officer of a company, partnership or corporation if so  
11 owned. Upon receipt of an application in proper form, the [corporation]  
12 COMMISSIONER shall assign a state registry number and issue to the owner  
13 a certificate of New York state registry, a copy of which shall be  
14 entered in the records of its office.

15 S 43. Section 72 of the canal law, as amended by chapter 335 of the  
16 laws of 2001, is amended to read as follows:

17 S 72. Change of ownership, name or hailing place. Should the owner-  
18 ship, name or hailing place of a float change after state registry, the  
19 owner of the float shall make new application in form similar to that  
20 required for original registry and upon receipt of such application the  
21 [corporation] COMMISSIONER shall issue a new state certificate of regis-  
22 try and record the same in its office. The owner or owners of a commer-  
23 cial float found navigating the canal system, the ownership, name or  
24 hailing place of which shall have been changed without proper applica-  
25 tion for re-registry to the [corporation] COMMISSIONER, shall, upon due  
26 proof thereof be subject to a penalty to the people of the state of New  
27 York not to exceed one hundred dollars recoverable by the attorney  
28 general in an action in any court of competent jurisdiction.

29 S 44. Section 73 of the canal law, as amended by chapter 335 of the  
30 laws of 2001, is amended to read as follows:

32 [corporation] COMMISSIONER shall advise the person whose name appears on

34 MENT of any assessments, penalties or other charges levied against a  
35 float or its crew for acts or omissions occurring while the float is on  
36 the canal system. Should the registered owner fail to make prompt  
37 payment of such assessments, penalties or charges, the [corporation]  
38 COMMISSIONER may refuse clearance to the float and action shall be  
39 instigated as provided under section eighty-three of this article.

41 laws of 2001, is amended to read as follows:

43 COMMISSIONER shall make a list of all floats to which New York state  
44 certificates of registry have been issued. This list shall be corrected  
45 at least once in each calendar year and a copy of such corrected list  
46 shall be filed in the office of each of the district engineers having  
47 supervision over portions of the canal system. The list shall be filed  
48 in the [office of the corporation] DEPARTMENT and shall be available to  
49 public inspection within regular office hours.

50 S 46. Section 75 of the canal law, as amended by chapter 335 of the  
51 laws of 2001, is amended to read as follows:

52 S 75. Clearance and ownership. Every commercial float shall have a  
53 clearance. Clearances may be obtained at such places along the canal  
54 system and at such other points as the [corporation] COMMISSIONER may  
55 direct. No clearance shall be granted to any commercial float unless the  
56 person authorized to issue such clearance has evidence that such float

1 is duly registered in the [office of the corporation] DEPARTMENT. Each  
2 float shall have a separate clearance and no part of the cargo shall be  
3 cleared to a place beyond which the float is cleared. The [corporation]  
4 COMMISSIONER may, in [its] HIS OR HER discretion, refuse to issue a  
5 clearance for a vessel against whose registered owner there is an unpaid  
6 penalty involving such vessel for the violation of rules and regulations  
7 adopted pursuant to this chapter.

8 S 47. Section 76 of the canal law, as amended by chapter 335 of the  
9 laws of 2001, is amended to read as follows:

10 S 76. Regulations with respect to clearance. No commercial float shall  
11 proceed beyond the place to which it is cleared, nor unload any of its  
12 cargo, before or after its arrival, at the place from which such arti-  
13 cles are cleared, nor proceed beyond such place until the master thereof  
14 delivers the clearance of such float or articles to the person desig-  
15 nated by the [corporation] COMMISSIONER to receive the same, at the  
16 place for which they are cleared. If there is no canal official at such  
17 place, then to the canal official whose office shall be passed by the  
18 float in the order of its voyage, and receive permission from such canal  
19 official to proceed to the place to which it is cleared.

21 laws of 2001, is amended to read as follows:

23 OR HER representative issuing a clearance or with whom a clearance is  
24 filed, shall, when requested, furnish a copy thereof, with any addi-  
25 tional cargo entered thereupon and the several indorsements, if any,  
26 which copy shall have the same validity and effect as the original  
27 clearance of which it is a copy.

28 S 49. Section 78 of the canal law, as amended by chapter 335 of the  
29 laws of 2001, is amended to read as follows:

30 S 78. Assignment of berths for loading or unloading. The [corporation]  
31 COMMISSIONER or [its] HIS OR HER representative may assign berths to all  
32 floats while loading or unloading at any landing place upon a canal and  
33 determine disputes concerning same. The [corporation] COMMISSIONER,  
34 shall, as to any of the locks, terminals or mooring places of the canal  
35 system used by floats, regulate and station such floats for the best  
36 interest of navigation. The [corporation] COMMISSIONER may determine how  
37 far and in what instances masters and other persons having charge of any  
38 float shall accommodate each other in their respective anchorages. If  
39 any master or other person having control of any float within the limits  
40 of such waters shall neglect or refuse to obey the directions of the  
41 [corporation] COMMISSIONER, or [its] HIS OR HER representative, in any  
42 such matters within [its] HIS OR HER authority, or shall resist or  
43 oppose the [corporation] COMMISSIONER in the execution of the said  
44 duties, such person shall be liable to a penalty not to exceed one  
45 hundred dollars, recoverable by the [corporation] COMMISSIONER in any  
46 court of competent jurisdiction, and payable into the canal fund.

47 S 50. Section 79 of the canal law, as amended by chapter 335 of the  
48 laws of 2001, is amended to read as follows:

49 S 79. Floating elevators. Any person owning or leasing, in whole or in  
50 part, any floating elevator used for loading grain, coal, sand, or other  
51 material, shall, upon application to and in the discretion of the  
52 [corporation] COMMISSIONER, be assigned a place for and permitted to  
53 keep said floating elevator in the waters of the canal system of this  
54 state, at such point as may be most convenient for and for such period  
55 of time as may be necessary for the transaction of the business of load-  
56 ing or unloading grain, coal, sand, or other material, shipped or to be

1 shipped on the canals; provided, however, that such floating elevator  
2 shall cause no obstruction to the free and uninterrupted use of the  
3 canal system by floats navigating thereon. While such elevators are in  
4 operation, they shall be equipped with such device or devices as the  
5 [corporation] COMMISSIONER may determine to prevent the material being  
6 loaded or unloaded from such float, from falling into such waters.

7 S 51. Section 80 of the canal law, as amended by chapter 335 of the  
8 laws of 2001, is amended to read as follows:

9 S 80. Supplying deficiencies of water. Whenever the navigation of any  
10 part of the canal system is endangered by reason of a deficiency of  
11 water, the [corporation] COMMISSIONER shall, without delay, supply such  
12 deficiency. For that purpose [it] THE COMMISSIONER shall resume the  
13 temporary use of all the surplus water leased, licensed or withdrawn  
14 under revocable permit from the part of the canal system where such  
15 deficiency exists. If there still be a deficiency of water, [it] THE  
16 COMMISSIONER may enter upon and use all lands, streams and waters which,  
17 in [its] HIS OR HER judgment, may be necessary or proper to be used to  
18 procure a temporary supply of water for such part of the canal system.  
19 The [corporation] COMMISSIONER may enter into an agreement with the  
20 owner or owners of any property used for such temporary purpose under  
21 this section covering the amount of damage sustained. Such agreement  
22 when approved by the attorney-general shall become an obligation of the  
23 [corporation] COMMISSIONER and paid from moneys available therefor. In  
24 case no agreement is consummated the amount of damages sustained may be  
25 determined as provided in section one hundred twenty of this chapter. No  
26 damages shall be allowed in any case for resuming the use of any surplus  
27 water which has been withdrawn under lease, license or revocable permit.

28 S 52. Section 81 of the canal law, as amended by chapter 335 of the  
29 laws of 2001, is amended to read as follows:

30 S 81. Deposit of refuse in navigable waters. It shall be unlawful to  
31 throw from or otherwise deposit, either from or out of any float or from  
32 the shore, wharf, manufacturing establishment or mill of any kind,  
33 refuse or other matter of any description, into any of the waters of the  
34 canal system or into any waters dredged at public expense and used for  
35 canal purposes. Every person that shall violate the provisions of this  
36 section shall be subject to damages to the amount as will compensate the  
37 [corporation] COMMISSIONER for the expenses involved in restoring such  
38 waters to its useful condition to meet the needs of canal navigation. It  
39 shall also be unlawful for any person to obstruct the navigation of a  
40 canal by the improper mooring, management or conduct of a float, or by  
41 placing any obstruction on the banks thereof.

42 S 53. Section 82 of the canal law, as amended by chapter 335 of the  
43 laws of 2001, is amended to read as follows:

44 S 82. Seizure of obstruction. The [corporation] COMMISSIONER may cause  
45 to be seized and removed any object, article, float or sunken thing  
46 found within the limits of the canal system not under the care or charge  
47 of any person. [It] THE COMMISSIONER shall sell or offer for sale all  
48 seized objects, articles, floats or sunken things either before or after  
49 their removal, as [it] HE OR SHE deems essential for maintenance of the  
50 canal system. The sale shall be at public auction after giving ten days'  
51 written notice of such proposed sale conspicuously posted at two public  
52 places in the city or town where such object, article, float or sunken  
53 thing is found unless before the time of such sale the owner thereof  
54 appears and claims same and pays to the [corporation] DEPARTMENT the  
55 cost and expense which has been incurred by it in connection with the  
56 seizure, removal and proposed sale. The owner thereof shall be liable

1 for the cost and expense of such seizure, removal and sale of the said  
2 object, article, float or sunken thing which cost and expense may be  
3 recovered by the attorney-general in an appropriate action or proceeding  
4 brought in the name of the people of the state in any court of competent  
5 jurisdiction. The avails of such sale shall be accounted for by the  
6 [corporation] COMMISSIONER to the department of taxation and finance  
7 which may on the application of the owner and upon due proof of owner-  
8 ship pay over such proceeds to him OR HER after deducting all costs,  
9 expenses and reasonable charges of the seizure, removal and sale there-  
10 of. Whenever in the opinion of the [corporation] COMMISSIONER the navi-  
11 gation or operation of any part of the canal system is interrupted or  
12 endangered, the [corporation] COMMISSIONER may cause to be cut up,  
13 destroyed or otherwise removed any object, article, float or sunken  
14 thing in or partly in the waters of the canal system which may, in its  
15 judgment, be causing such interruption or damage. The [corporation]  
16 COMMISSIONER may enter into an agreement with the owner or owners of any  
17 property so cut up, destroyed, or otherwise removed, covering the amount  
18 of damage sustained. Such agreement when approved by the attorney-gener-  
19 al shall become an obligation of the [corporation] DEPARTMENT and paid  
20 from moneys available therefor. In case no agreement is consummated, the  
21 amount of damages sustained may be determined as provided in section one  
22 hundred twenty of this chapter.

23 S 54. Section 84 of the canal law, as amended by chapter 335 of the  
24 laws of 2001, is amended to read as follows:

25 S 84. Damage caused by termination of canal navigation. No part of the  
26 canal system of the state which was improved pursuant to chapter seven  
27 hundred ten of the laws of nineteen hundred seven and the acts supple-  
28 mental thereto and amendatory thereof, shall be abandoned or navigation  
29 thereof permanently closed, nor shall the state cede or transfer owner-  
30 ship, jurisdiction or control thereof to the United States pursuant to  
31 authority conferred by constitutional amendment, until the expiration of  
32 one year after the [corporation] COMMISSIONER shall have been authorized  
33 and empowered by law to cause a notice of intention to take such action  
34 to be published once in each month during such year in at least one  
35 newspaper published in each county adjacent to the part of such canal  
36 system affected by such notice. Each person, who, at the time of the  
37 first publication of such notice, is the owner of a commercial float  
38 registered pursuant to the provisions of this chapter, which, at the  
39 close of navigation in such year, shall have been actually engaged in  
40 the navigation of the part of such canal system so abandoned, closed,  
41 ceded or transferred, or so relinquished to the jurisdiction or control  
42 of the United States, may present a claim for damages against the state  
43 [including the corporation] to a court of competent jurisdiction, which  
44 court shall hear and determine the liability [of the corporation] there-  
45 for; and, if the court shall find that such person has suffered or  
46 sustained damages by reason of such abandonment, closing, ceding, trans-  
47 fer, or relinquishment which the [corporation] DEPARTMENT, in right and  
48 justice, or in law or equity, is obligated to pay, such damages shall  
49 constitute a valid and legal claim against the [corporation] DEPARTMENT,  
50 and the [corporation] DEPARTMENT shall be deemed liable therefor, and  
51 the court may make an award to such person and render a judgment in his  
52 OR HER favor against the [corporation] DEPARTMENT in such sums as it  
53 shall find to be just and equitable. It is declared to be the purpose of  
54 this section to encourage and induce the construction of boats for use  
55 upon such canal system and their operation thereon and to protect from  
56 loss, financial investments made in such construction and operation

1 caused by an abrupt, permanent termination of navigation, or the  
2 creation of conditions, which would result in the impairment, limitation  
3 or destruction of navigation of such canal system by such floats.

42 within ten rods thereof, so far as may be necessary to preserve the free  
43 and perfect use of such canals or feeders, or for making any repairs,  
44 improvements or alterations thereupon. No railroad corporation shall  
45 construct its railroad over or at any place within ten rods of any canal  
46 or feeder belonging to the state, unless it submits to the [corporation]  
47 COMMISSIONER a map, plan and profile of such canal or feeder and of the  
48 route designated for its railroad, exhibiting distinctly and accurately  
49 the relation of each to the other at all the places within the limits of  
50 ten rods thereof, and obtains the written permission of the [corpo-  
51 ration] COMMISSIONER for the construction of such railroad, with such  
52 conditions, directions and instructions as in its judgment the free and  
53 perfect use of any such canal or feeder may require.

54 Whenever any street railroad shall cross over any bridge spanning a  
55 canal, or canal feeder, the company owning, maintaining and operating  
56 the same, shall be deemed liable for and shall pay all damages that may

1 occur or arise, either to the state or to persons, by reason of its  
2 laying and maintaining its tracks or rail over, upon and across any such  
3 bridge, or by reason of the operation of its cars over the same; and any  
4 such company shall, upon demand of the [corporation] COMMISSIONER, make  
5 any repairs to such structure to insure the continued safety thereof, as  
6 shall have been rendered necessary by reason of such use of said struc-  
7 ture by said company. Any company maintaining or operating a street  
8 railroad over, upon and across any such bridge shall indemnify the state  
9 [including the corporation] against any and all loss, damages or claims

13 COMMISSIONER may, in [its] HIS OR HER discretion, require any company so  
14 maintaining or operating a street railroad to furnish a bond, with sure-

16 the corporation] from all such loss, damage or claim. All such permits  
17 heretofore or hereafter granted shall be revocable whenever the free and  
18 perfect use of any such canal or feeder may so require, or if such rail-  
19 road company shall fail to make any such repairs when required by the  
20 [corporation] COMMISSIONER. The railroad company using or occupying any  
21 bridge over the same shall, within a reasonable time after the service  
22 upon it, by the [corporation] COMMISSIONER of a written notice of such  
23 revocation, or to make such repairs, remove at its own cost and expense,  
24 its railroad from such bridge and from the limits of ten rods of said  
25 canal or feeder.

30 and in a manner and upon the terms prescribed by the [corporation]  
31 COMMISSIONER, unless constructed upon a fixed bridge across such canal  
32 and with the consent of the person, firm or corporation for whose bene-  
33 fit such bridge is constructed and maintained, or upon such a bridge  
34 over the canal, at the crossing of a public highway, or street, with the  
35 consent of the public officers having the supervision thereof, or of the  
36 municipal authorities of any village or city within whose limits such  
37 bridge may be, nor shall the pipes of any such corporation be laid  
38 through, on or along the banks of any of the canals of this state,

47 of time as the [corporation] COMMISSIONER shall determine. Tolls for  
48 such lock and lift bridge passes shall be established by regulation of  
49 the [corporation] COMMISSIONER with the advice of the canal recreation-  
50 way commission and following no fewer than two public hearings at  
51 geographically dispersed locations on the canal system. In addition, the  
52 [corporation] COMMISSIONER may provide by regulation for the sale of  
53 lock and lift bridge passes by any other entity, and may allow a charge  
54 for handling by such other entities not to exceed one dollar for each

12 claims, but no judgment shall be awarded by such court for such damages  
13 in any case unless the facts provided therein make out a case which  
14 would create a legal liability against the state [or the corporation,]  
15 were the same established in evidence in a court of justice against an  
16 individual or corporation; but the [corporation] COMMISSIONER may make  
17 settlement of any such claim in any case where the amount thereof does

20 has been approved by the attorney-general; provided that the provisions

43 any such dams on such terms and conditions, including the payment to the
