FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would require a change in the retirement plan coverage for current and future elected officials and non-civil service appointees who are employed by the State of New York or any public employer which participates in the New York State and Local Employees' Retirement System (NYS&LERS). Affected employees and their employers would be required to contribute 3% of annual compensation to a defined contribution plan. The Comptroller shall select one or more financial organiza-

tions to administer the plan and to invest the funds held pursuant to such plan.

This legislation would freeze the benefit accruals of current elected officials and non-civil service appointees as of the effective date. If this becomes law, this bill is likely to face a constitutional challenge based upon the guarantee that a member's benefits may not be diminished.

If this bill is enacted, relatively few members would be affected.

The state and participating employers will incur costs to modify their payroll systems and procedures in order to collect employee contributions and remit them along with mandatory employer contributions shortly after each payroll. Remittance of employer contributions on a payroll schedule, rather than annually under the defined benefit plan, will affect employers' cash management. Further, the bill contains no appropriation to support the additional payroll administrative expense to the Office of the State Comptroller or the implementation and ongoing expenses of NYSLRS related to the new plan.

In addition, employees will incur management and investment expenses for their defined contribution accounts estimated to average 0.5% of the account balance annually.
