AN ACT to establish the New York state automatic identification technology privacy task force

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Legislative intent. The legislature finds that new technol-
2 ogies can have a profound impact on people and social systems. The use
3 of new technologies can be very beneficial, but care must be taken to
4 ensure that such technologies are used responsibly. Automated systems
5 used to identify, track, record, store and transfer data, commonly
6 referred to as automatic identification technology, are increasingly
7 being used by public and private entities, including retailers, manufac-
8 turers, and hospitals. The legislature recognizes that as the price of
9 automatic identification technology decreases, the employment of this
10 technology is expected to increase rapidly. The legislature further
11 recognizes that automatic identification technologies may have privacy
12 implications affecting consumers and the general public. The legislature
13 further recognizes that such technology has numerous applications bene-
14 ficial to public and private entities and affecting both consumers and
15 the general public. The legislature further recognizes that understand-
16 ing various applications and potential privacy concerns regarding auto-
17 matic identification technology is an area that needs study and review
18 in order to determine what protections, if any, are needed to protect
19 personal privacy.
