AN ACT to amend the environmental conservation law, in relation to prohibiting the manufacture, distribution and sale of personal cosmetic products containing microbeads

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Legislative intent. The legislature hereby finds that
2 microbeads, a synthetic alternative ingredient to such natural materials
3 as ground almonds, oatmeal and pumice, found in over one hundred
4 personal cosmetic products, including facial cleansers, shampoos and
5 toothpastes, pose a serious threat to New York's environment.
6 Microbeads have been documented to collect harmful pollutants, already
7 present in the environment, and harm fish and other aquatic organisms
8 that form the base of the aquatic food chain. Recently, microbeads have
9 been recorded in New York's water bodies, and in particular, the waters
10 of Lake Erie. Research has suggested that the majority of these micro-
11 beads are entering water bodies through disposal down household drains
12 following the use of such personal cosmetic products.
13 Without significant and costly improvements to the majority of New
14 York's sewage treatment facilities, microbeads contained in personal
15 cosmetic products will continue to pollute New York's waters and hinder
16 the ongoing efforts to restore the state's lakes and rivers, recreation-
17 al and commercial fisheries as well as recent substantial economic
18 investments in redeveloping New York's waterfronts.
19 S 2. Article 37 of the environmental conservation law is amended by
