Introduced by M. of A. KELLNER -- read once and referred to the Committee on Labor

AN ACT to amend the workers' compensation law, in relation to enacting the "protection in the workplace act"

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1     Section 1. Short title. This act shall be known and may be cited as  
2     the "protection in the workplace act".  
3     S 2. Legislative intent. It is the finding of this legislature that  
4     violence in the workplace has become an increasingly serious occupa-  
5     tional hazard, which all too many employees and employers must confront.  
6     While it is the intent of the workers' compensation system to provide  
7     medical aid and monetary compensation to injured workers or their survi-  
8     vors in return for the surrender of their right to petition the courts,  
9     it is the finding of this body that rape, sexual assault or other sex  
10    crimes should not be classified as a condition of employment at the  
11    expense of the workers' compensation system's ameliorative goals and  
12    that such system is not and should not be used as a shield to permit  
13    employers whose negligent acts or omissions cause injury or harm to  
14    fellow employees without such injured employees having every opportunity  
15    for full and adequate redress. For purposes of determining benefits  
16    pursuant to the workers' compensation law, sexual assault is not, and  
17    shall not be considered a condition of employment.  
18    It is therefore the intent of this legislation to ensure that workers  
19    suffering sexual assault in the workplace due to the derelict or negli-  
20    gent practices of their employer, receive appropriate medical care and  
21    benefits but also have every opportunity to recover all damages commensurate with their injury.  
22    S 3. The workers' compensation law is amended by adding a new section  
23    10-a to read as follows:  
24

EXPLANATION--Matter in *ITALICS* (underscored) is new; matter in brackets [ ] is old law to be omitted.
