I N S E N A T E

(PREFILED)

January 9, 2013

Introduced by Sens. MONTGOMERY, KRUEGER, SAMPSON -- read twice and ordered printed, and when printed to be committed to the Committee on Health

AN ACT to amend the public health law, in relation to medical use of marihuana

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Legislative findings and intent. The legislature finds that thousands of New Yorkers have serious medical conditions that can be improved by medically-approved use of marihuana. The law should not stand between them and life and health-sustaining treatment under a practitioner's supervision. Many controlled substances that are legal for medical use (such as morphine and steroids) are otherwise illegal. This legislation follows the well-established public policy that a controlled substance can have a legitimate medical use. The purposes of article 33 of the public health law are to allow legitimate use of controlled substances in health care, including palliative care; veterinary care; research and other uses authorized by this article or other law; under appropriate regulation. This policy and this legislation do not in any way diminish New York state's strong public policy and laws against illegal drug use.

It is the legislative intent that this act be implemented consistently with these findings and principles, through a reasonable and workable system with appropriate oversight, evaluation and continuing research.

S 2. Article 33 of the public health law is amended by adding a new title V-A to read as follows:
