agency shall not grant a petition unless it determines that the petition has met the requirements of subdivision two OR TWO-A of this section and that the local government [has] OR REGULATED BUSINESSES HAVE established that the alternate method is consistent with and will effectively carry out the objectives of the regulatory mandate; provided, however, that no petition shall be approved which would result in the [contravention] DIMINUTION OR ABATEMENT of any environmental, health or safety standard or would reduce any benefits or rights accorded by law or rule to third parties. In approving a petition, an agency may waive a statutory provision only if it is specifically authorized by law to waive such provision. An approval shall include a timetable for agency evaluation of the effectiveness of the alternate method.

- (b) Notwithstanding the provisions of paragraph (a) of this subdivision, upon receipt of an objection to a petition from the authorized agent of any certified or recognized employee organization representing employees who would be affected by implementation of the alternate method, the agency shall provide any such organizations with an opportunity for a hearing. If an adjudicatory proceeding is requested, the petition shall not be approved unless the agency determines by a preponderance of the evidence that implementing the alternate method would not affect such employees by contravening any environmental, health or safety standard, reducing any rights or benefits or violating the terms of any negotiated agreement, and that all other requirements of this section have been met. The provisions of this subdivision are in addition to and shall not be construed to impair or modify any rights of such employees under any other law, regulation or contract.
- 5. - 7. A state agency may rescind its approval of a petition only after a hearing, provided, however, that the agency may suspend its approval of a petition prior to a hearing if it finds that immediate suspension is necessary to address an imminent threat to health or safety. Notice of a hearing must be provided to the petitioner at least thirty days prior to the hearing and must be posted on the agency's website. Such notice must state the basis for the agency's decision to seek rescission and inform the local government OR REGULATED BUSINESSES that it may request information relied upon by the agency in making its determination, which information must be provided to the local government OR REGULATED BUSINESSES at least seven days in advance of the hearing. After such hearing, the agency may rescind its approval upon a finding that the alternative method of implementation is not consistent with or does not effectively carry out the objectives of the regulatory mandate.
- 8. Notwithstanding any other provision of law, implementation of an alternate method approved by an agency pursuant to this section shall be deemed to lawfully meet all requirements of the regulatory mandate. An agency shall retain the authority to enforce compliance with the alternate method in the same manner as it may enforce compliance with the

underlying rule. Any action on a petition by a state agency shall be subject to review pursuant to article seventy-eight of the civil practice law and rules.

- 9. In accordance with the timetable established pursuant to subdivision three of this section, the agency shall evaluate the effectiveness of the alternate method in carrying out the objectives of the regulatory mandate. The evaluation shall identify any savings or other benefits, and any costs or other disadvantages, of implementing the alternate method, and shall address the desirability of incorporating the alternate method into the rules of the agency. Notice of availability of the evaluation shall be published in the state register.
