AN ACT to amend the public service law and the public authorities law, in relation to certain reports of the New York state energy and research development authority

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Legislative intent and findings. Part of the mission of the
2 New York state energy research and development authority (NYSERDA) is to
3 help our state achieve its energy goals including reducing our energy
4 consumption, promoting the use of renewable energy sources, and protect-
5 ing our environment. Funding for NYSERDA is provided primarily by New
6 York state ratepayers. NYSERDA has a commitment to public service, and
7 its workforce reflects its public service orientation. Further, the
8 state encourages public authorities to participate in the work of the
9 Council of Contracting Agencies which was created to ensure systematic
10 collection and timely exchange of information relating to responsibility
11 and reliability of bidders. Because of NYSERDA's mission and source of
12 funding, the legislature hereby finds and declares that access to timely
13 and relevant information on certain NYSERDA programs is necessary to
14 promote transparency, ensure proper use of funds, and help achieve the
15 state's energy goals.

16 S 2. Section 5 of the public service law is amended by adding a new
17 subdivision 7 to read as follows:
