2013-2014 Regular Sessions

I N S E N A T E

June 4, 2013

Introduced by Sen. KLEIN -- read twice and ordered printed, and when printed to be committed to the Committee on Cities

AN ACT to amend the administrative code of the city of New York, in relation to New York city transit omnibus safety requirements

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Legislative findings. The occupation of driving an omnibus
2 available to the general public has become increasingly dangerous to bus
3 drivers employed by the New York City Transit Authority and its subsid-
4 iaries. There has been an increase in the number of bus drivers who have
5 become victims of assaults, verbal attacks, spitting, menacing and
6 threats at the hands of bus riders. Unlike the work environment of tran-
7 sit employees deployed on the subway trains, there is no discernible
8 police presence on these buses, and the driver is relatively defenseless
9 while operating a bus on a congested urban street, against an aggressive
10 bus passenger seeking to harm him or her.

11 The legislature finds that a safety partition between the bus drivers
12 and the passengers on the vehicle can be an effective deterrent to any
13 harm being inflicted on the transit worker. Such partitions have been
14 highly effective in protecting taxi cab and livery car drivers from
15 aggressive acts by passengers inside their vehicles. A similar require-
16 ment protecting bus operators should be equally effective and would
17 promote public safety for the riding public on mass transit surface
18 vehicles.

19 The legislature also finds that current emergency communication proto-
20 cols of the New York City Transit Authority and its subsidiaries are not
21 operating at an optimum efficiency level. Nearly all buses are currently
22 equipped with a silent alarm mechanism which alerts the transit authori-
23 ty's command center that an emergency exists and also with a GPS device
24 which can apprise the command center of the location of the bus. More
25 meaningful information and more importantly, a more timely intervention

1 by first responders and transit supervisors, could be conveyed if the
2 two existing devices worked in tandem with one another. That the emer-
3 gency alarm be synchronized with the GPS device so that when it is acti-
4 vated it can simultaneously convey the location of the bus sounding the
5 alarm. The legislature finds these two common sense initiatives can
6 significantly improve the safety on mass transit buses operating within
7 New York city at a very modest cost.

8 S 2. The administrative code of the city of New York is amended by
9 adding a new section 10-171 to read as follows:

24 CONSTITUTING AN EMERGENCY IN THE JUDGMENT OF THE OPERATOR.

25 4. THE TERM "BUS GPS DEVICE" SHALL MEAN A DEVICE CURRENTLY IN USE ON
26 OMNIBUSES DEPLOYED BY THE NEW YORK CITY TRANSIT AUTHORITY AND ITS
27 SUBSIDIARIES, THAT WHEN ACTIVATED, CAN IMPART THE EXACT LOCATION OF THE

36 EASY TO ACCESS SILENT EMERGENCY ALARM TO THE COMMAND CENTER OF SUCH
37 TRANSIT AUTHORITY WHICH WHEN ACTIVATED, WILL SIMULTANEOUSLY CAUSE THE

52 DANGEROUS TO BUS OPERATORS.
