receive a performance of duty benefit due to the intentional or reckless act of a civilian visiting an institution under the jurisdiction of such county. The benefit will be 75% of final average salary less worker's compensation. Currently, to be eligible for such improved benefit, it is required that such injuries were sustained as the result of an "act of an inmate". Such injuries must be sustained and documented after the enactment of this legislation.

If this legislation is enacted during the 2016 legislative session, we anticipate that there will be an increase in the annual contributions of Suffolk County of approximately \$200,000 for the fiscal year ending March 31, 2017.

In addition to the annual contributions discussed above, it is estimated that there will be a past service cost of approximately \$1.21 million which would be borne by Suffolk County as a one-time payment. This estimate is based on the assumption that payment will be made on February 1, 2017. If Suffolk County elects to amortize this cost over a 15 year period, the cost for the first year would be \$124,000.

These estimated costs are based on 905 affected officers employed by Suffolk County with a total estimated annual salary of approximately \$96 million for the fiscal year ending March 31, 2015.
