31 [4.] 6. a. The commissioner may prescribe in regulations such health

34 the welfare of pupils and the community. The contents may be varied to
35 meet the needs of particular school districts, or portions thereof, and
36 need not be uniform throughout the state, provided, however, that school
37 districts shall utilize either the curriculum for health education
38 instruction regarding alcohol, tobacco and other drugs prescribed by the
39 commissioner or a course approved by the commissioner in accordance with
40 criteria established by the commissioner. The commissioner is authorized
41 to make recommendations to the board of regents beginning December
42 first, two thousand fourteen and every three years thereafter relating

To the extent appropriate, the regents shall modify the existing curriculum to provide greater focus on the development of skills, by no later than middle school, that are needed to recognize, cope with and address potentially violent incidents[,], including an understanding of [student's] STUDENT roles in emergency situations[, what to do when confronted with another student who is experiencing a mental health problem,] and other related skills designed to reduce the threat of violence in schools.

[5.] 7. [7.] 9. Nothing contained in this section shall be deemed to diminish or impair the duties of the commissioner with respect to the continuing program for critical health problems established by chapter seven hundred eighty-seven of the laws of nineteen hundred sixty-seven as amended. The commissioner shall coordinate actions taken under authority of this section with the provisions of said chapter as they relate to health education in schools, inservice training and training programs, and curriculum or syllabus development regarding the deleterious effects resulting from the use, misuse, and abuse of alcohol, tobacco, and other drugs.
