Introduced by M. of A. O'DONNELL -- read once and referred to the  
Committee on Governmental Operations

AN ACT to amend the public officers law, the arts and cultural affairs law, the executive law and the legislative law, in relation to the retention of state electronic records; and to repeal subdivision 1 of section 88 of the public officers law, relating to rules and regulations governing access to state legislative records; to repeal section 5 of the executive law, relating to executive records; and to repeal section 70-0113 of the environmental conservation law, relating to information confidentially disclosed by applicants

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1     Section 1. Legislative intent. The legislature finds that procedures  
2     and practice that promote transparency and accountability in the execu-  
3     tive and legislative branches serve the public interest and encourage  
4     public faith in government. Current policies which allow for the  
5     destruction of emails and other electronic governmental records and  
6     exempt the legislature from the Freedom of Information Law (FOIL) run  
7     counter to these principles of transparency and accountability.  
8     Computers and other electronic devices create many of the new records  
9     we use today, most commonly via emails. These records, although elec-  
10    tronic in format, are the same as records in other formats. Electronic  
11    records show how you conduct business, make decisions, and carry out  
12    your work. They are evidence of decisions and actions. Fundamental  
13    records management principles should apply to electronic records, as  
14    they apply to other record formats.  
15    The executive branch has adopted a policy allowing automatic deletion  
16    of emails after 90 days, which has the potential to severely limit the  
17    public availability of vital information regarding the operations of  
18    agencies. The consequences of such a policy are illustrated in a 2015  
19    court case where the former Deputy Secretary for Gaming and Racing indi-

1 cated he was "aghast" to find that emails dating from 2013 relevant to  
2 the case had been deleted. The deletion of these emails undermines the  
3 ability of the plaintiff in the case to seek redress. An administration  
4 spokesman defended deletion of the emails on the grounds they had not  
5 been the subject of a FOIL request.

6 This legislation would ensure that under the guidance of the State  
7 Archivist, agencies and legislative bodies would need to take a proac-  
8 tive approach to the preservation of electronic records. It would estab-  
9 lish strict standards for permanent preservation of the records of poli-  
10 cymakers, and prohibit deletion of emails from other government  
11 officials for at least seven years. It is modeled on federal policies  
12 adopted after extensive study of appropriate practices for handling  
13 electronic records. The state already uses email management software  
14 that would enable implementation of such a policy at minimal cost.

15 The exemption of the legislature from the Freedom of Information Law  
16 also undermines transparency and accountability. The public should have  
17 access to the same types of information from the legislature that it can  
18 already access from the Executive Branch through the FOIL process.  
19 Recent scandals involving individual legislators only highlight the need  
20 for increasing the availability of information regarding legislative  
21 records. This bill would establish the same standards for treating the  
22 Executive and Legislative branches under FOIL. The bill would also  
23 extend to the legislature the various exemptions from disclosure in the  
24 FOIL law, including records that would compromise personal privacy  
25 rights or that are related to internal deliberations of the body or  
26 agency.

27 S 2. Subdivision 3 of section 86 of the public officers law, as added  
28 by chapter 933 of the laws of 1977, is amended and a new subdivision 6
