Introduced by M. of A. O'DONNELL, STEC -- Multi-Sponsored by -- M. of A. SIMON -- read once and referred to the Committee on Governmental Operations -- committee discharged, bill amended, ordered reprinted as amended and recommitted to said committee

AN ACT to amend the public officers law, the arts and cultural affairs law, the executive law and the legislative law, in relation to the retention of state electronic records; to repeal subdivision 1 of section 88 of the public officers law, relating to rules and regulations governing access to state legislative records; to repeal section 5 of the executive law, relating to executive records; and to repeal section 70-0113 of the environmental conservation law, relating to information confidentially disclosed by applicants

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Legislative intent. The legislature finds that procedures
2 and practice that promote transparency and accountability in the execu-
3 tive and legislative branches serve the public interest and encourage
4 public faith in government. Government policies which allow for the
5 destruction of emails and other electronic governmental records and
6 exempt the legislature from the Freedom of Information Law (FOIL) run
7 counter to these principles of transparency and accountability.
8 Computers and other electronic devices create many of the new records
9 we use today, most commonly via email. These records, although electron-
10 ic in format, are the same as records produced in other formats. Elec-
11 tronic records show how one conducts business, makes decisions, and
12 carries out the people's work. They are evidence of decisions and
13 actions. Fundamental records management principles should apply to
14 electronic records, as they apply to any record formats.
15 The executive branch has adopted a policy allowing automatic deletion
16 of emails after 90 days, which has the potential to severely limit the
17 public availability of vital information regarding the operations of

1 agencies. The consequences of such a policy are illustrated in a 2015
2 judicial proceeding where the former Deputy Secretary for Gaming and
3 Racing indicated he was "aghast" to find that emails dating from 2013
4 relevant to the case had been deleted. The deletion of these emails
5 undermines the ability of the plaintiff in the case to seek redress. An
6 administration spokesman defended deletion of the emails on the ground
7 they had not been the subject of a FOIL request.

8 This legislation would ensure that under the guidance of the State
9 Archives, agencies and legislative bodies must take a proactive approach
10 to the preservation of electronic records. It would establish strict
11 standards for permanent preservation of the records of policymakers, and
12 prohibit deletion of emails from government officials for at least seven
13 years. It is modeled on federal policies adopted after extensive study
14 of appropriate practices for handling electronic records. The state
15 already uses email management software that would enable implementation
16 of such a policy at minimal cost.

17 Moreover, the exemption of the legislature from presumption of access
18 in the Freedom of Information Law also undermines transparency and
19 accountability. The public should have access to the same types of
20 information from the legislature that it can already access from the
21 Executive Branch and local government agencies through the FOIL process.
22 Recent scandals involving individual legislators only highlight the need
23 for increasing the availability of information regarding legislative
24 records. This bill would establish the same standards for treating the
25 Executive and Legislative branches under FOIL. The bill would also
26 extend to the legislature the various exemptions from disclosure in the
27 FOIL law, including records that would compromise personal privacy
28 rights or that are related to internal deliberations of the body or
29 agency.

30 S 2. Subdivision 3 of section 86 of the public officers law, as added
31 by chapter 933 of the laws of 1977, is amended and a new subdivision 6
32 is added to read as follows:
