March 20, 2015

Introduced by M. of A. ENGLEBRIGHT, GUNTHER -- Multi-Sponsored by -- M. of A. CAHILL, O'DONNELL, ROSENTHAL -- read once and referred to the Committee on Health

AN ACT to amend the public health law and the education law, in relation to enacting the "public university emergency contraception act"

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Legislative findings and intent. The legislature finds  
2 that access to emergency contraception is a basic measure that can  
3 prevent college students from having an unwanted pregnancy. The federal  
4 Food and Drug Administration has approved the use of emergency contra-  
5 ception as safe and effective in the prevention of pregnancy. Emergency  
6 contraception has been found to have no effect on an established preg-  
7 nancy. Medical research strongly indicates that the sooner emergency  
8 contraception is administered, the better the chance of preventing an  
9 unwanted pregnancy. Therefore, the legislature deems it essential that  
10 each college and university of the state university of New York and the  
11 city university of New York provide information on emergency contracep-  
12 tion to its students and makes it available to any student who seeks it  
13 whenever practicable and in accordance with applicable law and profes-  
14 sional standards of practice.

15 S 2. Short title. This act shall be known and may be cited as the  
16 "public university emergency contraception act".

17 S 3. Section 206 of the public health law is amended by adding a new  
18 subdivision 29 to read as follows:
