S 3. This act shall take effect immediately.

FISCAL NOTE. -- Pursuant to Legislative Law, Section 50:

PROVISIONS OF PROPOSED LEGISLATION: This proposed legislation would amend New York State Retirement and Social Security Law ("RSSL") Sections 604-b.e(1) and 604-b.e(10) to provide to certain New York City Transit Authority ("NYCTA") retired members of the New York City Employees' Retirement System ("NYCERS") a refund of Additional Member Contributions ("AMC") that were paid by these members while they were participants of the Transit 25 Year/Age 55 Retirement Program ("Transit 55/25 Program").

The Effective Date of the proposed legislation would be the date of enactment.

This Fiscal Note assumes that the proposed legislation is intended to refund interest on AMC in accordance with NYCERS procedures for crediting interest on member contributions including an assumption that no interest would be paid past a member's retirement date.

IMPACT ON PLAN PROVISIONS - ADDITIONAL MEMBER CONTRIBUTIONS: Those NYCERS members who participated in the Transit 55/25 Program paid AMC of 2.3% of gross wages for service rendered between August 28, 1994 and December 15, 2000.

This proposed legislation would refund AMC to retired Transit 55/25 Program participants who are former members of the Transit Workers Union Local 100 ("Local 100") and who retired prior to December 16, 2005 with initial Transit 55/25 Program participation dates on or before December 15, 2000, including interest at 5.0% per annum accrued through the retired member's retirement date.

To receive such refund, those eligible retirees would be required to file an application pursuant to procedures to be established by the NYCERS Board of Trustees.

FINANCIAL IMPACT - OVERVIEW: If enacted into the law, the ultimate employer cost of this proposed legislation would be determined by the reduction in Fund assets due to the refund of AMC.

IMPACT - UNFUNDED ACTUARIAL ACCRUED LIABILITY: With respect to NYCERS and based on the census data and actuarial assumptions and methods described herein, the enactment of this proposed legislation would result in a decrease in the Actuarial Asset Value as of June 30, 2015 and an increase in the Unfunded Actuarial Accrued Liability ("UAAL") of approximately \$2,751,000.

FINANCIAL IMPACT - ADDITIONAL ANNUAL EMPLOYER COSTS AND CONTRIBUTIONS: With respect to NYCERS, the enactment of this proposed legislation would increase annual employer costs by approximately \$840,000 per year for four years.

Increases in employer contributions would be comparable to the estimated increases in employer costs.

As the impact is generally measurable and RSSL Section 430 expresses the idea that benefit improvements are not to be implemented in a fiscal year prior to the commencement of financing, enactment of the proposed legislation on or before June 30, 2015 would result in increased employer contribution to NYCERS beginning Fiscal Year 2015.

4

CENSUS DATA: The census data used for estimates of the expected refund of AMC and change in employer contributions presented herein are the 263 retired Local 100 members of NYCERS who participated in the Transit 55/25 Program, retired prior to December 16, 2005 and are alive as of March 25, 2015.

ACTUARIAL ASSUMPTIONS AND METHODS: Estimates of changes in AAL, UAAL and employer costs have been calculated using the actuarial assumptions and methods adopted by the NYCERS Board of Trustees during Fiscal Year 2012 and enacted as Chapter 3 of the Laws of 2013 ("2012 A&M") for determining employer contributions for fiscal years beginning on and after July 1, 2011 (i.e., Fiscal Years 2012 and after).

In accordance with Section 13.638.2 (k-2) of the Administrative Code of the City of New York ("ACNY") as enacted by Chapter 3/13, as one component of the 2012 A&M, new UAAL attributable to benefit changes are to be amortized as determined by the Actuary but generally over the remaining working lifetimes of those impacted by these benefit changes.

For this proposed legislation, the average remaining working lifetime is zero years because all those that would be impacted have already retired.

Legislation with similar structures were enacted for Transit Operating non-supervisory employees as Chapter 734 of the Laws of 2006 ("Chapter 734/06") and as Chapter 379 of the Laws of 2007 (Chapter 379/07") and the additional UAAL was amortized for each legislation under the actuarial assumptions and methods then in effect (i.e., amortized implicitly over the average remaining working lifetimes of all NYCERS active members).

Similar legislation to the proposed legislation was enacted for certain Station Supervisors Level 2 as Chapter 522 of the Laws of 2013 ("Chapter 522/13"). The additional UAAL for that legislation has been amortized over five years using four payments beginning one year after the establishment of the UAAL in accordance with One-Year Lag Methodology ("OYLM") that is used for the actuarial valuations of NYCERS.

The Actuary believes that the appropriate financing period for this proposed legislation would be the average remaining working lifetime of the entire group impacted.

However, given the history of the financing of similar legislations (e.g., Chapter 734/06, Chapter 379/07 and Chapter 522/13), the Actuary is inclined to amortize the proposed legislation over five years. Essentially, this is a compromise between the remaining average working lifetime of the entire group impacted and the average remaining lifetime of all NYCERS members.

For this particular legislation, as with Chapter 522/13, the Actuary would likely treat the five years of amortization with the payment period beginning one year after the establishment of the UAAL. This approach is consistent with OYLM, where the UAAL is considered to be amortized over five years with four years of payments beginning in the second year.

Also note that, historically, other legislation impacting primarily retired or soon-to-be-retired members was often amortized over five years (Retirement Incentive Programs) or 10 years (Supplemental Programs).
