I N A S S E M B L Y

October 9, 2015

Introduced by M. of A. ORTIZ -- read once and referred to the Committee
on Health

AN ACT to amend the public health law, in relation to establishing the
asthma prevention and education program

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY,
DO ENACT AS FOLLOWS:

1 Section 1. Legislative findings and purpose. The legislature finds
2 that asthma is a chronic, potentially life-threatening, respiratory
3 illness that affects over a million New Yorkers, including many thou-
4 sands of children and adolescents. Asthma is the leading cause of school
5 absences attributed to chronic conditions. Asthma is also directly
6 linked to large and growing inpatient bills for medicaid and other
7 health care payers. Therefore, the legislature finds that establishing a
8 comprehensive statewide asthma prevention management and control program
9 which coordinates the efforts of individuals, families, health care
10 providers, schools and community-based organizations is in the public
11 interest and would benefit the people of the state of New York.
12 S 2. The public health law is amended by adding a new article 27-BB to
