2015-2016 Regular Sessions

I N   S E N A T E

January 22, 2015

---

Introduced by Sen. LIBOUS -- read twice and ordered printed, and when printed to be committed to the Committee on Mental Health and Developmental Disabilities

AN ACT to amend chapter 56 of the laws of 2012, amending the mental hygiene law and other laws relating to the office for people with developmental disabilities and the office of mental health, in relation to delaying the closure and consolidation of facilities operated by such offices

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1     Section 1. Short title. This act shall be known and may be cited as  
2     the "freeze unsafe closures now act".  
3     S 2. Legislative findings. The legislature hereby finds that the state  
4     has recently announced its intent to downsize and close numerous facilities  
5     operated by the office of mental health and the office for people  
6     with developmental disabilities. These facilities provide inpatient  
7     services to individuals with serious mental illness or developmental  
8     disabilities who are very frail, who are dangerous or violent, or who  
9     are children and adolescents. The stated purpose of these closures is  
10    to achieve full community integration of the mentally ill and developmentally  
11    disabled individuals residing throughout the state in accordance with the  
12    Supreme Court decision in *Olmstead*. *Olmstead v. L.C.*, 527  
13    U.S. 581 (1999), is a United States Supreme Court case regarding  
14    discrimination against people with mental disabilities, which held that  
15    under the Americans with Disabilities Act (ADA), individuals with mental  
16    disabilities have the right to live in the community rather than in  
17    institutions, if in the words of the opinion of the court, "the State's  
18    treatment professionals have determined that community placement is  
19    appropriate, the transfer from institutional care to a less restrictive  
20    setting is not opposed by the affected individual, and the placement can  
21    be reasonably accommodated, taking into account the resources available

EXPLANATION--Matter in *ITALICS* (underscored) is new; matter in brackets [ ] is old law to be omitted.

LBD07284-01-5

1 to the State and the needs of others with mental disabilities". The  
2 court also stated that "We emphasize that nothing in the ADA or its  
3 implementing regulations condones termination of institutional settings  
4 for persons unable to handle or benefit from community settings".

5 These closures would result in the loss of much-needed inpatient beds  
6 without adequate planning for community-based, state-provided alterna-  
7 tives. This plan also reduces innovative programs that include family  
8 involvement or behavior modification for the mentally ill and the devel-  
9 opmentally disabled. For mentally ill and developmentally disabled  
10 consumers, their safety net has been cut. The termination of services  
11 to these individuals by the state will have a dramatic unforeseen impact  
12 by forcing state employees to move to new communities, disrupting care  
13 for fragile consumers, increasing incidents of individuals with violent  
14 tendencies to victimize children and others, the overburdening of hospi-  
15 tal emergency rooms, and inundating local correctional facilities with  
16 many new inmates.

17 The legislature hereby finds that closure of these facilities is not  
18 required by the Olmstead decision and other federal mandates to achieve  
19 full community integration of the mentally ill and the developmentally  
20 disabled. The state will not achieve significant savings by shutting  
21 the doors of these vital facilities; unfortunately, there is a very  
22 significant chance the individuals being affected by these closures will  
23 turn up in our criminal justice system and/or health care facilities.

24 The purpose of this act shall be to postpone action providing for the  
25 closure of facilities operated by the office of mental health and the  
26 office for people with developmental disabilities until April 1, 2018 so  
27 more adequate planning and collaboration can occur.

28 S 3. Sections 20 and 21 of part J of chapter 56 of the laws of 2012,  
29 amending the mental hygiene law and other laws relating to the office  
30 for people with developmental disabilities and the office of mental  
31 health, are amended to read as follows:

32 S 20. The commissioner of [the office for people with] developmental  
33 disabilities shall provide notification to the temporary president of  
34 the senate and the speaker of the assembly sixty days prior to a  
35 reduction in capacity of twenty persons or more or closure of a develop-  
36 mental center or other institutional setting which is subject to such  
37 reduction or closure pursuant to such commissioner's planned downsizing  
38 and closing of institutional capacity. PROVIDED, HOWEVER, THAT NO STATE  
39 OPERATED FACILITY SHALL BE REDUCED IN CAPACITY OR CLOSED BY THE OFFICE  
40 FOR PEOPLE WITH DEVELOPMENTAL DISABILITIES PURSUANT TO THIS ACT PRIOR TO  
41 APRIL 1, 2018.

42 S 21. This act shall take effect immediately, provided however, that  
43 on or before May 31, 2012 the office for people with developmental disa-  
44 bilities shall submit a report to the temporary president of the senate  
45 and the speaker of the assembly on implementation related to the  
46 restructuring of developmental disabilities services offices. The office  
47 shall also publish the report on the office's website. The report shall  
48 include but not be limited to: the plan timeline for transition of each  
49 of the developmental disabilities service offices into a state oper-  
50 ations offices of the office for people with developmental disabilities;  
51 the location of each state operations office, its catchment area, and a  
52 list of services that will be administered under its jurisdiction; and  
53 the location of each developmental disabilities regional office, its  
54 catchment area, and a list of programs under its jurisdiction; and  
55 provided further that section twenty of this act shall expire and be  
56 deemed repealed on [March 31, 2013] APRIL 1, 2018.

1 S 4. Sections 2 and 4 of part O of chapter 56 of the laws of 2012,  
2 amending the mental hygiene law and other laws relating to the office  
3 for people with developmental disabilities and the office of mental  
4 health, section 4 as amended by section 2 of part H of chapter 56 of the  
5 laws of 2013, are amended to read as follows:

6 S 2. Notwithstanding the provisions of subdivisions (b) and (e) of  
7 section 7.17 of the mental hygiene law, section 41.55 of the mental  
8 hygiene law, or any other law to the contrary, the office of mental  
9 health is authorized, ON AND AFTER APRIL 1, 2018, to close, consolidate,  
10 reduce, transfer or otherwise redesign services of hospitals, other  
11 facilities and programs operated by the office of mental health, and to  
12 implement significant service reductions and reconfigurations according  
13 to this section as shall be determined by the commissioner of mental  
14 health to be necessary for the cost-effective and efficient operation of  
15 such hospitals, other facilities and programs. One of the intents of  
16 actions taken that result in closure, consolidation, reduction, transfer  
17 or other redesign of services of hospitals is to reinvest savings such  
18 that, to the extent practicable, comparable or greater levels of commu-  
19 nity based mental health services will be provided to persons with  
20 mental illness in need of services within the catchment areas of such  
21 hospitals, as determined by the commissioner of mental health with  
22 approval from the director of the division of the budget.

23 (a) In addition to the closure, consolidation or merger of one or more  
24 facilities, the commissioner of mental health is authorized, ON AND  
25 AFTER APRIL 1, 2018, to perform any significant service reductions that  
26 would reduce inpatient bed capacity by up to 400 beds, which shall  
27 include but not be limited to, closures of wards at a state-operated  
28 psychiatric center or the conversion of beds to transitional placement  
29 programs, provided that the commissioner provide at least 45 days notice  
30 of such reductions to the temporary president of the senate and the  
31 speaker of the assembly and simultaneously post such notice upon its  
32 public website. In assessing which significant service reductions to  
33 undertake, the commissioner shall consider data related to inpatient  
34 census, indicating nonutilization or under utilization of beds, and the  
35 efficient operation of facilities.

36 (b) At least 75 days prior to the anticipated closure, consolidation  
37 or merger of any hospitals named in subdivision (b) of section 7.17 of  
38 the mental hygiene law, the commissioner of mental health shall provide  
39 notice of such closure, consolidation or merger to the temporary presi-  
40 dent of the senate, and speaker of the assembly, the chief executive  
41 officer of the county in which the facility is located, and shall post  
42 such notice upon its public website. The commissioner shall be author-  
43 ized to conduct any and all preparatory actions which may be required to  
44 effectuate such closures during such 75 day period. In assessing which  
45 of such hospitals to close, the commissioner shall consider the follow-  
46 ing factors: (1) the size, scope and type of services provided by the  
47 hospital; (2) the relative quality of the care and treatment provided by  
48 the hospital, as may be informed by internal or external quality or  
49 accreditation reviews; (3) the current and anticipated long-term need  
50 for the types of services provided by the facility within its catchment  
51 area, which may include, but not be limited to, services for adults or  
52 children, or other specialized services, such as forensic services; (4)  
53 the availability of staff sufficient to address the current and antic-  
54 ipated long term service needs; (5) the long term capital investment  
55 required to ensure that the facility meets relevant state and federal  
56 regulatory and capital construction requirements, and national accredi-

1 tation standards; (6) the proximity of the facility to other facilities  
2 with space that could accommodate anticipated need, the relative cost of  
3 any necessary renovations of such space, the relative potential operat-  
4 ing efficiency of such facilities, and the size, scope and types of  
5 services provided by the other facilities; (7) anticipated savings based  
6 upon economies of scale or other factors; (8) community mental health  
7 services available in the facility catchment area and the ability of  
8 such community mental health services to meet the behavioral health  
9 needs of the impacted consumers; (9) the obligations of the state to  
10 place persons with mental disabilities in community settings rather than  
11 in institutions, when appropriate; and (10) the anticipated impact of  
12 the closure on access to mental health services.

13 (c) Any transfers of inpatient capacity or any resulting transfer of  
14 functions shall be authorized to be made by the commissioner of mental  
15 health and any transfer of personnel upon such transfer of capacity or  
16 transfer of functions shall be accomplished in accordance with the  
17 provisions of section 70 of the civil service law ON AND AFTER APRIL 15,  
18 2018.

19 S 4. This act shall take effect immediately and shall be deemed to  
20 have been in full force and effect on and after April 1, 2012; provided  
21 that the date for any closure or consolidation pursuant to this act  
22 shall be on a date certified by the commissioner of mental health; and  
23 provided further, however, that section two of this act shall expire and  
24 be deemed repealed [March 31, 2013] APRIL 1, 2018.

25 S 5. This act shall take effect immediately and shall be deemed to  
26 have been in full force and effect on and after March 31, 2014.
