AN ACT to amend the insurance law, in relation to enacting the "construction insurance transparency act of 2016" requiring all insurers which issue policies of liability insurance insuring against claims made in reliance upon the duty imposed by the "scaffold law" to file annual financial statements and detailed claim data with the superintendent of financial services

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. This act shall be known and may be cited as the
2 "construction insurance transparency act of 2016".
3 S 2. Declarations of legislative findings. The legislature hereby
4 finds and declares that persons, corporations, associations or other
5 business entities which issue policies of liability insurance insuring
6 an owner of real property or a contractor who is performing work and
7 services on real property against claims made in reliance upon the
8 duties imposed upon such parties by section 240 of the labor law,
9 commonly referred to as the "scaffold law", owe an obligation to the
10 public, to those they insure and to those who may in the future be
11 insured by them, to fully disclose in a public and transparent manner
12 all elements relating to the premiums paid for such insurance, the method and manner in which such premiums are determined and imposed upon
13 insureds, and claims made by injured persons who rely on owners and
14 contractors to provide a safe and secure worksite as required in such
15 section of such law. It is essential that the public be made aware of

1 such an insurer's responsibility to inform them of their financial
2 condition and solvency, and the details and specifics of the factors and
3 circumstances behind its financial solvency as well as the basis for the
4 rates they charge to owners and contractors to obtain such coverage. The
5 determination of premiums for such liability insurance policy in this
6 state has, unfortunately, gone on too long in obscurity, with even those
7 who bear the cost of premiums unable to learn why prices are set as they
8 are. As a matter of public trust, liability insurers should be required
9 to make the public aware of the pertinent facts related to their premium
10 determinations and financial solvency by disclosing all the pertinent
11 facts as provided for in this section. It is the further sense of the
12 legislature that this data should be disclosed in an open and public
13 manner, and should be made available without undue cost and delay.

14 S 3. The insurance law is amended by adding a new section 343 to read
15 as follows:
