2015-2016 Regular Sessions

I N S E N A T E

March 12, 2015

Introduced by Sen. KRUEGER -- read twice and ordered printed, and when printed to be committed to the Committee on Investigations and Government Operations

AN ACT to amend the public officers law, the arts and cultural affairs law, the executive law and the legislative law, in relation to the retention of state electronic records; and to repeal subdivision 1 of section 88 of the public officers law, relating to rules and regulations governing access to state legislative records; to repeal section 5 of the executive law, relating to executive records; and to repeal section 70-0113 of the environmental conservation law, relating to information confidentially disclosed by applicants

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Legislative intent. The legislature finds that procedures
2 and practice that promote transparency and accountability in the execu-
3 tive and legislative branches serve the public interest and encourage
4 public faith in government. Current policies which allow for the
5 destruction of emails and other electronic governmental records and
6 exempt the legislature from the Freedom of Information Law (FOIL) run
7 counter to these principles of transparency and accountability.
8 Computers and other electronic devices create many of the new records
9 we use today, most commonly via emails. These records, although elec-
10 tronic in format, are the same as records in other formats. Electronic
11 records show how you conduct business, make decisions, and carry out
12 your work. They are evidence of decisions and actions. Fundamental
13 records management principles should apply to electronic records, as
14 they apply to other record formats.
15 The executive branch has adopted a policy allowing automatic deletion
16 of emails after 90 days, which has the potential to severely limit the
17 public availability of vital information regarding the operations of
18 agencies. The consequences of such a policy are illustrated in a 2015

1 court case where the former Deputy Secretary for Gaming and Racing indi-
2 cated he was "aghast" to find that emails dating from 2013 relevant to
3 the case had been deleted. The deletion of these emails undermines the
4 ability of the plaintiff in the case to seek redress. An administration
5 spokesman defended deletion of the emails on the grounds they had not
6 been the subject of a FOIL request.

7 This legislation would ensure that under the guidance of the State
8 Archivist, agencies and legislative bodies would need to take a proac-
9 tive approach to the preservation of electronic records. It would estab-
10 lish strict standards for permanent preservation of the records of poli-
11 cymakers, and prohibit deletion of emails from other government
12 officials for at least seven years. It is modeled on federal policies
13 adopted after extensive study of appropriate practices for handling
14 electronic records. The state already uses email management software
15 that would enable implementation of such a policy at minimal cost.

16 The exemption of the legislature from the Freedom of Information Law
17 also undermines transparency and accountability. The public should have
18 access to the same types of information from the legislature that it can
19 already access from the Executive Branch through the FOIL process.
20 Recent scandals involving individual legislators only highlight the need
21 for increasing the availability of information regarding legislative
22 records. This bill would establish the same standards for treating the
23 Executive and Legislative branches under FOIL. The bill would also
24 extend to the legislature the various exemptions from disclosure in the
25 FOIL law, including records that would compromise personal privacy
26 rights or that are related to internal deliberations of the body or
27 agency.

28 S 2. Subdivision 3 of section 86 of the public officers law, as added
29 by chapter 933 of the laws of 1977, is amended and a new subdivision 6
30 is added to read as follows:

31 3. "Agency" means any state or municipal department, board, bureau,
