Introduced by Sen. MARCELLINO -- read twice and ordered printed, and when printed to be committed to the Committee on Education

AN ACT to amend the education law, in relation to computer-based assessment technology apportionment

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Legislative intent. The legislature hereby finds it an  
2 essential goal to ensure that all New York students receive a high-quality  
3 education. The legislature supports the goals of the board of  
4 regents in developing a rich educational system that provides multiple  
5 pathways to graduation, so that all students are college and career  
6 ready. The legislature also recognizes that ensuring our students are  
7 fully prepared to compete in the global marketplace requires a significant  
8 investment of time and resources. As such, it is vitally important  
9 to invest wisely in the development and administration of high-quality  
10 assessments that not only measure the progress of students attaining  
11 such standards, but also enhance the overall goal of student learning.  
12 However, the financial investments associated with the development and  
13 administration of high-quality assessments are not yet fully measured,  
14 and have the potential to be significant. Therefore, the legislature  
15 determines that the costs associated with the development, implementation,  
16 and administration of high-quality assessments shall not be borne  
17 by local taxpayers, and shall instead be fully funded with financial  
18 support from the state.
