353--C

2015-2016 Regular Sessions

IN ASSEMBLY

(PREFILED)

January 7, 2015

Introduced by M. of A. RYAN -- read once and referred to the Committee on Environmental Conservation -- committee discharged, bill amended, ordered reprinted as amended and recommitted to said committee -- again reported from said committee with amendments, ordered reprinted as amended and recommitted to said committee -- recommitted to the Committee on Environmental Conservation in accordance with Assembly Rule 3, sec. 2 -- committee discharged, bill amended, ordered reprinted as amended and recommitted to said committee

AN ACT to authorize an easement on a portion of real property within the Boutwell Hill state forest in the county of Chautauqua for the location of electric collection or distribution facilities in connection with a wind powered electric generation project located in the towns of Charlotte and/or Cherry Creek; and providing for the repeal of such provisions upon expiration thereof

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Notwithstanding the contrary provisions of section 9-0501 of the environmental conservation law and the contrary provisions of the public lands law, the department of environmental conservation is authorized to grant an easement for an electric collection or distribution line on real property within the Boutwell Hill state forest, which meets the following conditions:

forest and in no event shall the location of the electric collection or distribution line require the cutting of trees greater than 50 feet from such collection or distribution line placed in or adjacent to such road; provided however, at such land located around the premises located at RD #1 Boutwell Hill Rd, Cherry Creek, New York, being part of Lot 61, Town-ship 4, Range 10 of the Holland Land Company's Survey, described more fully in paragraph (ii) of this subdivision, beginning at a point of 50 feet north from the northeast corner of such parcel and east to Boutwell for a distance not to exceed a total of 1500 feet, the 10 collection or distribution line may be located within 500 feet of the line of Boutwell Hill Road and 250 feet of the center line of East road. Provided further that in such areas tree cutting shall be minimized to the maximum extent practicable;

- commencing at a point in the center of the highway leading from Charlotte Center to the Neub Road (also leading to Kent Road Highway) at the southwest corner of lands now or formerly owned by May V. Emley; running thence north along the west line of lands now or formerly owned by said Emley and Henry DuBursted, a distance of 8 rods to a point; thence westerly and parallel with the road center, 10 rods to a point; thence southerly and parallel to the first described line, 8 rods to the center of the highway; and thence easterly along the center of the highway, 10 rods to the place of beginning, containing one half land, be the same more or less; and
  - (iii) a total distance of not more than 1.4 miles.
- The easement will be conveyed by the department of environmental conservation and take effect only in the event a collection or ution line proposed to be located on such easement lands is certified and approved as part of a wind powered electric generation facility pursuant to articles 7 and 10 of the public service law.
- (d) The easement shall terminate when the associated wind powered electric generation project ceases to operate for 18 months as set forth in the easement and the easement shall then revert to the state to be managed by the department of environmental conservation as state forest land.
- (e) The use of chemicals/herbicides for clearing said easement prohibited unless prior approval for the same is granted by the department of environmental conservation, division of lands and forests.
- S 2. (a) In entering into the easement described in section one this act, the department of environmental conservation is authorized to grant such easement for fair market value plus twenty percent of the value of the easement and one hundred thousand dollars, upon application An amount, not less than fair market value plus twenty by Everpower. percent of the value of the easement plus one hundred thousand dollars shall be used to obtain for the state an interest in real property for open space purposes in region 9 of the department of environmental conservation from the regional priority conservation projects list in region 9 as part of this state's open space conservation plan. The total payment for such acquisition(s) shall not be less than the value of the easement to be conveyed by the state plus twenty percent of the value of such easement plus one hundred thousand dollars.
- (b) The description of the easement to be conveyed contained by this act is not intended to be a legal description, but is intended to identify the easement to be conveyed. As a condition of conveyance Everpower shall submit to the commissioner of environmental conservation for his or her approval an accurate survey and description of lands general-

ly described in this section which may be used in the conveyance thereof.

- (c) The grant of the easement is conditioned on, first, the acquisition of the exchange parcel by the state, and second, issuance of certificates of environmental compatibility and public need pursuant to the provisions of articles 7 and 10 of the public service law.
- (d) Compensation for the stumpage value for trees to be felled by the entity shall be used for the same purpose as in subdivision (a) of this section with the felled trees to become the property of Everpower. Stumpage value is to be determined by a department of environmental conservation forester based on the most recent department of environmental conservation stumpage price report at the time the trees are felled.
- S 3. The commissioner of environmental conservation may prescribe additional terms for such exchange of real property. Such contract shall not become binding upon the state until approved by the state comptroller. Title to the land to the people of the state of New York pursuant to the provisions of such contract shall be approved by the attorney general, and the deed to the state shall be approved by him or her as to form and manner of execution and recordability before such deed shall be accepted on behalf of the state. Notwithstanding the contrary provisions of the public lands law, the conveyance of the state-owned easement pursuant to such contract shall be without reservation or exception, except as provided for in such contract. Upon certification by the commissioner of environmental conservation to the commissioner of generservices of a copy of the contract, and certification that Everpower has complied with all terms and conditions of the contract upon their part to be kept and performed, together with a description of any of the easements to be exchanged, conveyed and/or payments to be made the commissioner of general services shall convey the easement described in section one of this act in accordance with the provisions of the contract.
- S 4. This act shall take effect immediately, and shall expire and be deemed repealed five years after such date; provided, however, should the easement be granted within the 5 years, the terms of the easement will establish the end date of the easement. At such time the land will revert back to the state of New York for state forest purposes.
