AN ACT to amend the public health law and the state finance law, in relation to enacting the "New York health act" and to establishing New York Health

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Short title. This act shall be known and may be cited as  
2 the "New York health act".  
3 S 2. Legislative findings and intent. 1. The state constitution  
4 states: "The protection and promotion of the health of the inhabitants  
5 of the state are matters of public concern and provision therefor shall  
6 be made by the state and by such of its subdivisions and in such manner,  
7 and by such means as the legislature shall from time to time determine."  
8 (Article XVII, S3.) The legislature finds and declares that all resi-  
9 dents of the state have the right to health care. While the federal  
10 Affordable Care Act brought many improvements in health care and health

1 coverage, it still leaves many New Yorkers without coverage or with  
2 inadequate coverage. New Yorkers - as individuals, employers, and  
3 taxpayers - have experienced a rise in the cost of health care and  
4 coverage in recent years, including rising premiums, deductibles and  
5 co-pays, restricted provider networks and high out-of-network charges.  
6 Businesses have also experienced increases in the costs of health care  
7 benefits for their employees, and many employers are shifting a larger  
8 share of the cost of coverage to their employees or dropping coverage  
9 entirely. Health care providers are also affected by inadequate health  
10 coverage in New York state. A large portion of voluntary and public  
11 hospitals, health centers and other providers now experience substantial  
12 losses due to the provision of care that is uncompensated. Individuals  
13 often find that they are deprived of affordable care and choice because  
14 of decisions by health plans guided by the plan's economic needs rather  
15 than their health care needs. To address the fiscal crisis facing the  
16 health care system and the state and to assure New Yorkers can exercise  
17 their right to health care, affordable and comprehensive health coverage  
18 must be provided. Pursuant to the state constitution's charge to the  
19 legislature to provide for the health of New Yorkers, this legislation  
20 is an enactment of state concern for the purpose of establishing a  
21 comprehensive universal single-payer health care coverage program and a  
22 health care cost control system for the benefit of all residents of the  
23 state of New York.

24 2. It is the intent of the Legislature to create the New York Health  
25 program to provide a universal health plan for every New Yorker, funded  
26 by broad-based revenue based on ability to pay. The state shall work to  
27 obtain waivers and other approvals relating to Medicaid, Child Health  
28 Plus, Medicare, the Affordable Care Act, and any other appropriate  
29 federal programs, under which federal funds and other subsidies that  
30 would otherwise be paid to New York State, New Yorkers, and health care  
31 providers for health coverage that will be equaled or exceeded by New  
32 York Health will be paid by the federal government to New York State and  
33 deposited in the New York Health trust fund, and for other program  
34 modifications (including elimination of cost sharing and insurance  
35 premiums). Under such waivers and approvals, health coverage under  
36 those programs will be replaced and merged into New York Health, which  
37 will operate as a true single-payer program.

38 If any necessary waiver or approval is not obtained, the state shall  
39 use state plan amendments and seek waivers and approvals to maximize,  
40 and make as seamless as possible, the use of federally-matched health  
41 programs and federal health programs in New York Health. Thus, even  
42 where other programs such as Medicaid or Medicare may contribute to  
43 paying for care, it is the goal of this legislation that the coverage  
44 will be delivered by New York Health and, as much as possible, the  
45 multiple sources of funding will be pooled with other New York Health  
46 funds and not be apparent to New York Health members or participating  
47 providers. This program will promote movement away from fee-for-service  
48 payment, which tends to reward quantity and requires excessive adminis-  
49 trative expense, and towards alternate payment methodologies, such as  
50 global or capitated payments to providers or health care organizations,  
51 that promote quality, efficiency, investment in primary and preventive  
52 care, and innovation and integration in the organizing of health care.

53 3. This act does not create any employment benefit, nor does it  
54 require, prohibit, or limit the providing of any employment benefit.

55 4. In order to promote improved quality of, and access to, health care  
56 services and promote improved clinical outcomes, it is the policy of the

1 state to encourage cooperative, collaborative and integrative arrange-  
2 ments among health care providers who might otherwise be competitors,  
3 under the active supervision of the commissioner of health. It is the  
4 intent of the state to supplant competition with such arrangements and  
5 regulation only to the extent necessary to accomplish the purposes of  
6 this act, and to provide state action immunity under the state and  
7 federal antitrust laws to health care providers, particularly with  
8 respect to their relations with the single-payer New York Health plan  
9 created by this act.

10 S 3. Article 50 and sections 5000, 5001, 5002 and 5003 of the public  
11 health law are renumbered article 80 and sections 8000, 8001, 8002 and

1 12. ALL MEETINGS OF THE REGIONAL ADVISORY COUNCILS AND COMMITTEES  
2 SHALL BE SUBJECT TO ARTICLE SIX OF THE PUBLIC OFFICERS LAW.

3 S 4. Financing of New York Health. 1. The governor shall submit to the  
4 legislature a revenue plan and legislative bills to implement the plan  
5 (referred to collectively in this section as the "revenue proposal") to  
6 provide the revenue necessary to finance the New York Health program, as  
7 created by article 51 of the public health law (referred to in this  
8 section as the "program"), taking into consideration anticipated federal  
9 revenue available for the program. The revenue proposal shall be submit-  
10 ted to the legislature as part of the executive budget under article VII  
11 of the state constitution, for the fiscal year commencing on the first  
12 day of April in the calendar year after this act shall become a law. In  
13 developing the revenue proposal, the governor shall consult with appro-  
14 priate officials of the executive branch; the temporary president of the  
15 senate; the speaker of the assembly; the chairs of the fiscal and health  
16 committees of the senate and assembly; and representatives of business,  
17 labor, consumers and local government.

18 2. (a) Basic structure. The basic structure of the revenue proposal  
19 shall be as follows: Revenue for the program shall come from two premi-  
20 ums (referred to collectively in this section as the "premiums"). First,  
21 there shall be a progressively graduated premium on all payroll and  
22 self-employed income (referred to in this section as the "payroll premi-  
23 um"), paid by employers, employees and self-employed, similar to the  
24 Medicare tax. Higher brackets of income subject to this premium shall be  
25 assessed at a higher marginal rate than lower brackets. Second, there  
26 shall be a progressively graduated premium on taxable income (such as  
27 interest, dividends, and capital gains) not subject to the payroll  
28 premium (referred to in this section as the "non-payroll premium"). The  
29 premiums will be set at levels anticipated to produce sufficient revenue  
30 to finance the program and other provisions of article 51 of the public  
31 health law, to be scaled up as enrollment grows, taking into consider-  
32 ation anticipated federal revenue available for the program. Provision  
33 shall be made for state residents (who are eligible for the program) who  
34 are employed out-of-state, and non-residents (who are not eligible for  
35 the program) who are employed in the state.

36 (b) Payroll premium. The income to be subject to the payroll premium  
37 shall be all income subject to the Medicare tax. The premium shall be  
38 set at a percentage of that income, which shall be progressively gradu-  
39 ated, so the percentage is higher on higher brackets of income. For  
40 employed individuals, the employer shall pay eighty percent of the  
41 premium and the employee shall pay twenty percent of the premium, except  
42 that an employer may agree to pay all or part of the employee's share.  
43 A self-employed individual shall pay the full premium.

44 (c) Non-payroll income premium. There shall be a premium on upper-  
45 bracket taxable personal income that is not subject to the payroll  
46 premium. It shall be set at a percentage of that income, which shall be  
47 progressively graduated, so the percentage is higher on higher brackets  
48 of income.

49 (d) Phased-in rates. Early in the program, when enrollment is growing,  
50 the amount of the premiums shall be at an appropriate level, and shall  
51 be raised as anticipated enrollment grows, to cover the actual cost of  
52 the program and other provisions of article 51 of the public health law.  
53 The revenue proposal shall include a mechanism for determining the rates  
54 of the premiums.

55 (e) Cross-border employees. (i) State residents employed out-of-state.  
56 If an individual is employed out-of-state by an employer that is subject

1 to New York state law, the employer and employee shall be required to  
 2 pay the payroll premium as to that employee as if the employment were in  
 3 the state. If an individual is employed out-of-state by an employer that  
 4 is not subject to New York state law, either (A) the employer and  
 5 employee shall voluntarily comply with the premium or (B) the employee  
 6 shall pay the premium as if he or she were self-employed.

7 (ii) Out-of-state residents employed in the state. (A) The payroll  
 8 premium shall apply to any out-of-state resident who is employed or  
 9 self-employed in the state. (B) In the case of an out-of-state resident  
 10 who is employed or self-employed in the state, such individual and indi-  
 11 vidual's employer shall be able to take a credit against the payroll  
 12 premiums they would otherwise pay, as to the individual for amounts they  
 13 spend on health benefits for the individual that would otherwise be  
 14 covered by the program if the individual were a member of the program.  
 15 For employers, the credit shall be available regardless of the form of  
 16 the health benefit (e.g., health insurance, a self-insured plan, direct  
 17 services, or reimbursement for services), to make sure that the revenue  
 18 proposal does not relate to employment benefits in violation of the  
 19 federal ERISA. For non-employment-based spending by individuals, the  
 20 credit shall be available for and limited to spending for health cover-  
 21 age (not out-of-pocket health spending). The credit shall be available  
 22 without regard to how little is spent or how sparse the benefit. The  
 23 credit may only be taken against the payroll premiums. Any excess amount  
 24 may not be applied to other tax liability. For employment-based health  
 25 benefits, the credit shall be distributed between the employer and  
 26 employee in the same proportion as the spending by each for the benefit.  
 27 The employer and employee may each apply their respective portion of the  
 28 credit to their respective portion of the premium. If any provision of  
 29 this clause or any application of it shall be ruled to violate federal  
 30 ERISA, the provision or the application of it shall be null and void and  
 31 the ruling shall not affect any other provision or application of this  
 32 section or the act that enacted it.

33 3. The revenue proposal shall include a plan and legislative  
 34 provisions for ending the requirement for local social services  
 35 districts to pay part of the cost of Medicaid and replacing those  
 36 payments with revenue from the premiums under the revenue proposal.

37 4. To the extent that the revenue proposal differs from the terms of  
 38 subdivision two of this section, the revenue proposal shall state how it  
 39 differs from those terms and reasons for and the effects of the differ-  
 40 ences.

41 5. All revenue from the premiums shall be deposited in the New York  
 42 Health trust fund account under section 89-i of the state finance law.

43 S 5. Article 49 of the public health law is amended by adding a new  
 44 title 3 to read as follows:
