AN ACT to amend the state finance law, in relation to establishing a procedure for the informed evaluation of proposed and enacted state expenditure decreases

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1     Section 1. Short title. This act shall be known and may be cited as  
2     the "procedure for informed evaluation of state expenditure decreases  
3     act of 2016".  
4     S 2. Legislative findings. The legislature finds that the expenditures  
5     of state funds for operations, maintenance, programs, activities and  
6     assistance have significant and complex impacts on the economic, social  
7     and environmental conditions in both the public and private sectors.  
8     Federal funding and matching funds from municipal and private sources,  
9     for example, can be affected by changes in levels of state expenditures  
10    and negative secondary impacts from cuts like the failure to maintain  
11    state property can damage the health, safety and welfare of the people  
12    and economy of the state.  
13    The legislature further finds that during a volatile economic time  
14    decisions are made to cut or impound expenditures, eliminate or downsize  
15    programs and/or lay off state employees without adequate evaluation of  
16    the consequences thereof.  
17    Therefore, the legislature declares that an analytical process should  
18    be required and information therefrom should be available to the public  
19    when a decrease in state expenditure from funds appropriated in the  
20    immediate previous state budget is proposed in a state budget bill, or

before a reduction in expenditure or lay off of state employees is imposed during the implementation of an enacted state budget.
