2015-2016 Regular Sessions

I N A S S E M B L Y

April 21, 2015

Introduced by M. of A. PERRY, ORTIZ, McDONOUGH -- read once and referred
to the Committee on Higher Education

AN ACT to amend the education law, the limited liability company law,
the partnership law and the public health law, in relation to the
practice of naturopathy; and to amend the social services law, in
relation to the reporting of child abuse

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEM-
BLY, DO ENACT AS FOLLOWS:

1 Section 1. Legislative intent. 1. The legislature recognizes that in
2 spite of advances in science and technology that have resulted in the
3 American healthcare system excelling at triage and in responding to
4 acute emergent conditions, there is an epidemic of chronic disease and
5 an unacceptable degree of iatrogenic disease in America. The legislature
6 recognizes that the economics of healthcare and the pursuit of scientif-
7 ic advancement have led to an occupational preference among physicians
8 for specialization, resulting in a shortage of primary care physicians.
9 The legislature finds that licensure of the profession of naturopathic
10 medicine favorably addresses such problems, and agrees with U.S. Senate
11 Resolution 221 of the 113th Congress in finding that naturopathic
12 doctors are skilled in preventing and treating chronic disease; that
13 naturopathic medicine is a safe, effective, and affordable means of
14 health care; and that licensure of naturopathic doctors helps address
15 the shortage of primary care physicians in the United States, while also
16 providing people with more choice in health care.

17 2. The legislature recognizes that naturopathic medicine, although
18 encompassing primary and secondary care services, including many of the
19 same diagnostic tools and assessment techniques as the medical profes-
20 sion, and having certain Hippocratic principles in common with the
21 medical profession, is not part of the profession of medicine as contem-
22 plated by article 131 of the education law, and intends that naturopath-
23 ic medicine be a distinct profession with its own state board.

EXPLANATION--Matter in *ITALICS* (underscored) is new; matter in brackets
[] is old law to be omitted.

1 3. The legislature recognizes that naturopathic medicine is a modern,
2 evolved form of naturopathy that is practiced by naturopathic doctors;
3 that the early form, today sometimes called traditional naturopathy, is
4 characterized by its vitalistic philosophy, and by its foundation of
5 hygiene and nature cure (i.e., the use of natural agents such as air,
6 light, water, food, and herbs to stimulate the body's own natural heal-
7 ing powers); and that such early form is practiced in some states by
8 traditional naturopaths without licensure, by lay persons in their own
9 self care, and to some extent in health spas. This bill is not intended
10 to change the legality or illegality of activities relating to such
11 hygiene and nature cure; nor to limit the scope of naturopathic medicine
12 to such traditional naturopathy.

13 4. The legislature recognizes that the naturopathic doctor has a
14 primary mission of facilitating optimum health and wellness for patients
15 of any age; relies on the scientific method in implementing vitalistic,
16 functional, and evidence-based strategies for assessing and treating
17 patients; and works with patients of good or ill health having acute and
18 chronic conditions, including serious medical conditions.

19 5. The legislature intends that the authorized activities within the
20 scope of practice of a naturopathic doctor are those activities within
21 the meanings of naturopathic assessment, common office procedures, phys-
22 ical naturopathy, approved substances, approved routes of adminis-
23 tration, and noninvasive naturopathic therapies, as per sections sixty-
24 eight hundred fifty and sixty-eight hundred fifty-one of article 138 of
25 the education law as proposed in this act. For naturopathic doctors
26 having the injection therapy privilege the authorized activities further
27 include injection therapy, as per section sixty-eight hundred fifty-four
28 of article 138 of the education law, as proposed in this act. The scope
29 of such practice activities however are limited by section sixty-eight
30 hundred fifty-five of article 138 of the education law, as proposed in
31 this act, which provides boundaries of professional competence. The
32 legislature provides a list of broad clinical objectives included within
33 the meaning of "facilitating optimum health and wellness," as defined in
34 section sixty-eight hundred fifty-one of article 138 of the education
35 law as proposed in this act, which list, while relevant to professional
36 conduct, is not intended to expand upon the authorized activities. The
37 legislature intends that invasive procedures other than diagnostic imag-
38 ing be impermissible, and that the definitions of the terms "invasive
39 procedures" and "noninvasive" be construed independent of each other.

40 6. The legislature intends that the education qualification for natu-
41 ropathic medicine emphasizes the basic sciences and clinical sciences,
42 such as has been established by the Council on Naturopathic Medical
43 Education (CNME) and the Association of Accredited Naturopathic Medical
44 Colleges (AANMC), and so distinguish over traditional naturopathy.

45 7. The legislature intends that the education qualification for natu-
46 ropathic medicine insofar as including a substantial equivalent of a
47 program of naturopathic medicine registered with the department require
48 that such substantial equivalent, among other factors determined by the
49 department, also require that the substantial equivalent emphasize the
50 naturopathic principles and the therapeutic order in clinical training,
51 such as in programs accredited by the Council on Naturopathic Medical
52 Education (CNME) or in the naturopathic medical programs offered by the
53 Association of Accredited Naturopathic Medical Colleges (AANMC), and so
54 distinguish over a doctoral degree in medicine or osteopathy.

55 8. The legislature intends that the professional conduct of the natu-
56 ropathic doctor be informed by the naturopathic principles and the ther-

apeutic order, and so distinguish over professional conduct for the practice of the profession of medicine.

9. The legislature recognizes that in the practice of naturopathic medicine the healing power of nature principle is viewed as being an inherent property in a living organism to heal itself, and is an acknowledgment that synergy results from the coordination of the many chemical and physical reactions of the living system through varied and circuitous feedback pathways making the whole function as more than the sum of its parts. The number of reactions and the resulting complexity and synergy is viewed in the profession of naturopathic medicine as being why treatment of a given physiological process may result in unforeseen nonlocal consequences, including iatrogenic disease; and is why naturopathic doctors investigate and treat the patient as a whole living system, find and remove the cause, and prefer less invasive therapies and substances with fewer side effects. It also is why the naturopathic doctor prefers to intervene early to prevent occurrence of disease.

10. The legislature intends that licensed naturopathic doctors, while being permitted to practice in solo and among other naturopathic doctors, also be permitted to practice naturopathic medicine in many of the current patient care venue types in the healthcare system; that there be referral among naturopathic doctors, physicians, and other health care providers as based on the interests of the patient; and that integrative care settings and the advancement of public health and safety be realized through collaboration among naturopathic doctors, physicians, and other health care providers.

11. Naturopathic doctors add to the health care system by bringing their naturopathic approach to patient care; and by bringing their expertise on the determinants of health, diet and nutrient therapy, phytotherapy, therapeutic use of physical agents, and drug/herb drug/nutrient interactions. Therefore, to improve the public health, safety and welfare of its citizens, the legislature finds it is desirable to regulate the profession of naturopathic medicine, and intends that admission to practice and regulation of such practice, including professional conduct, shall be supervised by the board of regents and administered by the state education department, assisted by a state board of naturopathic medicine.

S 2. The Education Law is amended by adding a new article 138 to read as follows:

15 COGNITIVE, ADDICTIVE OR BEHAVIORAL DISORDER AS PER DSM (DIAGNOSTIC AND
16 STATISTICAL MANUAL OF MENTAL DISORDERS) CRITERIA OR AN EQUIVALENT THERE-
17 OF, OR PER DIAGNOSIS BY A QUALIFIED HEALTHCARE PROVIDER, IT SHALL BE
18 DEEMED PRACTICING OUTSIDE THE BOUNDARIES OF PROFESSIONAL COMPETENCE FOR
19 A NATUROPATHIC DOCTOR TO FACILITATE CHANGES IN THE PATIENT'S PERSONALITY
20 AND BEHAVIOR FOR THE PURPOSE OF ELIMINATING SUCH SYMPTOMATIC MALADAPTIVE
21 BEHAVIOR CORRESPONDING TO SUCH DISORDER THROUGH THE USE OF VERBAL,
22 COGNITIVE, AND EMOTIONAL INTERPERSONAL COMMUNICATION METHODS OF
23 PSYCHOTHERAPEUTIC INTERVENTION ON A CONTINUED SUSTAINED BASIS. SUCH
24 RESTRICTION ON PSYCHOTHERAPEUTIC INTERVENTION DOES NOT RESTRICT A NATU-
