AN ACT creating a legislative task force on outdoor environmental education and recreation that will benefit residents of New York state by stewardship and conservation of the environment, an appreciation of the importance of the wise use of natural resources as well as acknowledgment of the health benefits of time spent in nature

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

- 1     Section 1. Legislative findings. (a) The legislature hereby finds that  
2     in the last two decades, childhood has moved indoors. The average Ameri-  
3     can boy or girl spends just four to seven minutes each day in unstruc-  
4     tured outdoor play, and more than seven hours each day in front of an  
5     electronic screen. The decline in the appreciation and prevalence of  
6     outdoor recreation opportunities profoundly impacts the wellness of our  
7     state's youth. The correlation between increasing childhood obesity  
8     rates and the decline in outdoor recreation is undeniable.
- 9     (b) The legislature further finds that visual and physical access to  
10    basic types of open space is vital for everyone, and particularly valu-  
11    able to children growing up in "urban hardscapes", or areas where access  
12    to nature is limited.
- 13    (c) The legislature further finds that the development of policies  
14    that foster stewardship of the environment, the importance of the wise  
15    use of natural resources and recognition of the health benefits of time  
16    spent in nature are essential to the residents of New York state. The  
17    legislature concludes that this can best be accomplished by the creation  
18    of a task force on outdoor environmental education and recreation.
- 19    S 2. Objectives. A legislative task force on outdoor environmental  
20    education and recreation is hereby established to:
