1 corporation and not infringe upon the privacy of the remains of deceased  
2 human beings.

3 (2) The following are authorized persons: (i) licensed, registered  
4 funeral directors, registered residents, and enrolled students of mortu-  
5 ary science; (ii) officers and trustees of the cemetery corporation;  
6 (iii) authorized employees or their authorized agents of the cemetery  
7 corporation; (iv) public officers acting in the discharge of their  
8 duties; (v) authorized instructors of funeral directing schools; (vi)  
9 licensed physicians or nurses; and (vii) members of the immediate family  
10 of the deceased and their authorized agents and designated represen-  
11 tatives.

12 (c) Identification of deceased human beings. (1) No crematory shall  
13 cremate the remains of any deceased human being without the accompanying  
14 cremation permit, required pursuant to section four thousand one hundred  
15 forty-five of the public health law which permit shall constitute  
16 presumptive evidence of the identity of the said remains. In addition,  
17 all crematories situated outside the city of New York, must comply with  
18 paragraph (b) of subdivision two of section four thousand one hundred  
19 forty-five of the public health law pertaining to the receipt for the  
20 deceased human being. From the time of such delivery to the crematory,  
21 until the time the crematory delivers the cremains as directed, the  
22 crematory shall be responsible for the remains of the deceased human  
23 being. Further, a cremation authorization form must accompany the permit  
24 required in section four thousand one hundred forty-five of the public  
25 health law. This form, provided or approved by the crematory, must be  
26 signed by the next of kin or authorizing agent attesting to the permis-  
27 sion for the cremation of the deceased, and disclosing to the crematory  
28 that such body does not contain a battery, battery pack, power cell,  
29 radioactive implant, or radioactive device, if any, and that these mate-  
30 rials were removed prior to the cremation process.

31 (2) Upon good cause being shown rebutting the presumption of the iden-  
32 tity of such remains, the cremation shall not commence until reasonable  
33 confirmation of the identity of the deceased human being is made. This  
34 proof may be in the form of, but not limited to, a signed affidavit from  
35 a licensed physician, a member of the family of the deceased human  
36 being, the authorizing agent or a court order from the state supreme  
37 court within the county of the cemetery corporation. Such proof shall be  
38 provided by the authorizing agent.

39 (3) The crematory shall have a written plan to assure that the iden-  
40 tification established by the cremation permit accompanies the remains  
41 of the deceased human being through the cremation process and until the  
42 identity of the deceased is accurately and legibly inscribed on the  
43 container in which the cremains are placed.

44 (d) Opening of container holding the remains of the deceased human  
45 being. (1) The casket, alternative container, or external wrappings  
46 holding the remains of the deceased human being shall not be opened  
47 after delivery to the crematory unless there exists good cause to  
48 confirm the identity of the deceased, or to assure that no material is  
49 enclosed which might cause injury to employees or damage to crematory  
50 property, or upon reasonable demand by members of the immediate family  
51 or the authorized agent.

52 (2) In such instances in which the casket, alternative container, or  
53 wrappings are opened after delivery to the crematory, such action shall  
54 only be conducted by the licensed funeral director or registered resi-  
55 dent delivering the remains of the deceased human being and if neces-  
56 sary, with the assistance of crematory personnel and a record shall be

made, which shall include the reason for such action, the signature of the person authorizing the opening thereof, and the names of the person opening the container and the witness thereto, which shall be retained in the permanent file of the crematory. The opening of the container shall be conducted in the presence of the witness and shall comply with all rules and regulations intended to protect the health and safety of crematory personnel.

(e) Ceremonial casket cremation disclosure. In those instances in which the remains of deceased human beings are to be delivered to a crematory in a casket that is not to be cremated with the deceased, timely disclosure thereof must be made by the person making the funeral arrangements to the crematory that prior to cremation the remains of the deceased human being shall be transferred to an alternative container. Such signed acknowledgement of the authorizing person, that the timely disclosure has been made, shall be retained by the crematory in its permanent records.

(f) Transferring remains. (1) The remains of a deceased human being shall not be removed from the casket, alternative container, or external wrappings in which it is delivered to the crematory unless explicit, signed authorization is provided by the person making funeral arrangements or by a public officer discharging his or her statutory duty, which signed authorization shall be retained by the crematory in its permanent records.

(2) When the remains of a deceased human being are to be transferred to an alternative container, the transfer shall be conducted in privacy with dignity and respect and by the licensed funeral director or registered resident who delivered those remains and if necessary, with the assistance of crematory personnel. The transferring operation shall comply with all rules and regulations intended to protect the health and safety of crematory personnel.

(g) Commingling human remains. The cremation of remains of more than one deceased human being in a retort at any one time is unlawful, except upon the explicit, signed authorization provided by the persons making funeral arrangements and the signed approval of the crematory, which shall be retained by the crematory in its permanent records.

(h) Processing of cremains. (1) Upon the completion of the cremation of the remains of a deceased human being, the interior of the retort shall be thoroughly swept so as to render the retort reasonably free of all matter. The contents thereof shall be placed into an individual container and not commingled with other cremains. The cremation permit shall be attached to the individual container preparatory to final processing.

(2) A magnet and sieve, or other appropriate method of separation, may be used to divide the cremains from unrecognizable incidental or foreign material.

(3) The incidental and foreign material of the cremation process shall be disposed of in a safe manner in compliance with all sanitary rules and regulations as byproducts.

(4) The cremains shall be pulverized until no single fragment is recognizable as skeletal tissue.

(5) The pulverized cremains shall be transferred to a sealable container or containers whose inside dimension shall be of suitable size to contain the entire cremains of the person who was cremated.

(6) The prescribed sealable container or containers shall be accurately and legibly labeled with the identification of the human being whose

1 cremains are contained therein, in a manner acceptable to the division  
2 of cemeteries.

3 (i) Disposition of cremains. The authorizing agent shall be responsi-  
4 ble for the final disposition of the cremains. Cremains must be disposed  
5 of by placing them in a grave, crypt, or niche, by scattering them in a  
6 designated scattering garden or area, or in any manner whatever on the  
7 private property of a consenting owner or by delivery to the authorizing  
8 agent or a person specifically designated by the authorizing agent. Upon  
9 completion of the cremation process, if the cemetery corporation has not  
10 been instructed to arrange for the interment, entombment, inurnment or  
11 scattering of the cremains, the cemetery corporation shall deliver the  
12 cremains to the individual specified on the cremation authorization form  
13 or the funeral firm of record. The delivery may be made in person or by  
14 registered mail. Upon receipt of the cremains, the individual receiving  
15 them may transport them in any manner in the state without a permit, and  
16 may dispose of them in accordance with this section. After delivery, the  
17 cemetery corporation shall be discharged from any legal obligation or  
18 liability concerning the cremains. If, after a period of one hundred  
19 twenty days from the date of the cremation, the authorizing agent has  
20 not instructed the cemetery corporation to arrange for the final dispo-  
21 sition of the cremains or claimed the cremains, the cemetery corporation  
22 may dispose of the cremains in any manner permitted by this section. The  
23 cemetery corporation, however, shall keep a permanent record identifying  
24 the site of final disposition. The authorizing agent shall be responsi-  
25 ble for reimbursing the cemetery corporation for all reasonable expenses  
26 incurred in disposing of the cremains. Upon disposing of the cremains,  
27 the cemetery corporation shall be discharged from any legal obligation  
28 or liability concerning the cremains. Except with the express written  
29 permission of the authorizing agent, no person shall:

30 (1) dispose of cremains in a manner or in a location so that the  
31 cremains are commingled with those of another person. This prohibition  
32 shall not apply to the scattering of cremains at sea, by air, or in an  
33 area located in a cemetery and used exclusively for those purposes; and
