AN ACT to amend the mental hygiene law, in relation to enacting the "people first act of 2016"

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Short title. This act shall be known and may be cited as
2 the "people first act of 2016".
3 S 2. Legislative findings. It is the intent of the legislature to
4 ensure that individuals with developmental disabilities who utilize
5 long-term care services under the medical assistance program and other
6 long-term care related benefit programs administered by the state have
7 meaningful and reliable access to a reasonable array of community-based
8 and institutional program options and to ensure the well-being of indi-
9 viduals with developmental disabilities, taking into account their
10 informed and expressed choices. Furthermore, the legislature declares
11 that it is the policy of the state to ensure that the clinical, habili-
12 tative, and social needs of individuals with developmental disabilities
13 who choose to reside in integrated community-based settings can have
14 those needs met in integrated community-based settings. In order to
15 meaningfully comply with this policy, the state must have an understand-
16 ing of the existing capacity in integrated community-based settings,
17 including direct support professionals and licensed professionals, such
18 as physicians, dentists, nurse practitioners, nurses, and psychiatrists,
19 as well as residential capacity to provide for these needs.
20 It is further the intent of the legislature to support the satisfac-
21 tion and success of consumers through the delivery of quality services

1 and supports. Evaluation of the services that consumers receive is a key
2 aspect to the service system. Utilizing the information that consumers
3 and their families provide about such services in a reliable and mean-
4 ingful way is also critical to enable the commissioner of developmental
5 disabilities to assess the performance of the state's developmental
6 services system and to improve services for consumers in the future. To
7 that end, the commissioner of developmental disabilities shall conduct a
8 geographic analysis of supports and services in community settings and
9 implement an improved, unified quality assessment system, in accordance
10 with this act.
